OVERVIEW

Nestled on the picturesque Island of Palm Beach, the exquisite motor-yacht "Don't Wake Me" invites your inspection. This elegant NC 1095 Jeanneau is currently available for sale and promises an exceptional time on the water, marrying refined comfort with thoughtful engineering. Powered by twin Mercury 300hp engines with just 230 hours, and fitted with a comprehensive Simrad electronics suite, she delivers confident performance and modern navigational capability. Her outboard configuration and shallow draft make anchoring at sandbars effortless and allow passage through shallower waterways that would challenge deeper-keeled vessels. At 34 feet in length, the yacht offers surprisingly ample accommodations for hosting guests, dining al fresco, and enjoying weekend entertainment aboard. Explore yacht sales in the current boat location and seize the opportunity to buy a vessel that blends luxury and adventure; schedule a viewing today to experience her firsthand.

DETAILED DESCRIPTION

Section name

The NC 1095 Fly stands out in its category as a meticulously designed flybridge yacht powered by a potent outboard engine and configured with three cabins, distinguishing itself through a flybridge version that amplifies onboard living and cruising pleasure. Its modular cockpit provides effortless side access while a recessed side-deck on the starboard side ensures safe and confident movement around the vessel; an aft sliding side door and strategically placed skylights further enhance accessibility and bathe the interior in natural light. Internally the layout is crafted for life underway, offering two main cabins with the thoughtful option for a third cabin or additional storage, and optimizing stowage throughout the yacht so that everything at sea has its place. The XXL flybridge creates substantial extra space for relaxation and navigation, featuring a forward sundeck and a folding copilot bench that converts into a sun lounger or an extended XXL sundeck, complemented by numerous storage compartments and an optional bimini for sun protection, all designed to elevate comfort while cruising.

Underway, the NC 1095 Fly's outboard propulsion delivers remarkably flat acceleration and exceptional fuel efficiency, while the deck arrangement—recessed side-decks and easy helm access—prioritizes safety and convenience. An expansive L-shaped lounge invites convivial gatherings and can be transformed into a generous lounging area, and large transom platforms located on either side of the outboard engines ensure safe, uncomplicated boarding. The forward sundeck with lifting backrests extends the living space on deck, and the interior is illuminated by opening sunroofs and large hull windows that create a bright, airy atmosphere. The galley is spacious and fully equipped, offering an impressive amount of storage in both

upper and lower cabinets to support extended cruising. The owner's cabin is elegantly appointed with a large center-line bed, direct and easy access to the head and shower, two overhead hatches, and long windows on each side to enhance comfort and natural light. The guest cabin to port comfortably accommodates two guests, while the third cabin to starboard can serve as an additional double berth or coveted extra storage, an invaluable option aboard any yacht.

Electronics and systems are robustly specified, with a Simrad NSX package including autopilot, SmartCraft/Mercury Network Displays, and a ZipWake Trim Tab System to refine handling. The exterior and flybridge appointments include a single helm chair with a forward lounge pad, Simrad/Mercury helm electronics, bow thruster control, a ZipWake display control, a collapsible bimini top, and aft deck storage that houses a diesel generator and extra diesel fuel tanks; the aft deck also features adjustable seating with integrated storage. In the interior arrangement described for accommodation, the yacht offers three cabins comprising a V-berth master with a head, shower and TV, twin berths to port, and twin berths to starboard with a head and shower, while the salon provides a TV, a portside dinette with storage under the seating, a stove top, a refrigerator and three AC units; the starboard side of the salon incorporates full helm controls with an access door. Prospective purchasers should note that engine and generator hours quoted are as of the date of the original listing and are based on owner-supplied information or the actual readings of the hour meters; the broker cannot guarantee the absolute accuracy of these hours and it remains the responsibility of the buyer or their agent to verify engine hours, warranties, major overhauls and all other representations made in the listing brochure.

The company presents the details of this vessel in good faith yet cannot guarantee or warrant the complete accuracy of this information nor the current condition of the yacht; buyers are advised to instruct their agents or surveyors to investigate and validate any particulars they deem necessary. This

vessel is offered subject to prior sale, change of price, or withdrawal without notice, and interested parties are encouraged to conduct their due diligence to confirm specifications, service history and onboard systems before purchase.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
