OVERVIEW

The 2020 Boston Whaler 350 Realm epitomizes luxury, performance, and versatility, offering everything needed for an exceptional maritime adventure. Powered by twin 300 HP Mercury engines with minimal usage, this yacht promises a seamless and robust journey while maintaining impressive fuel economy. Whether navigating the coastline, enjoying a weekend getaway, or fishing, these engines deliver the reliability and power essential for any voyage. With an onboard generator, you can enjoy all the comforts of home, regardless of your distance from the shore.

One of the standout features of the 350 Realm is its climate-controlled setting. The cabin is equipped with air conditioning, providing a cool haven on the hottest days. The helm area also has its own air conditioning, ensuring a pleasant experience for both the captain and crew, even in the warmest weather.

The spacious cockpit is designed for relaxation and entertainment, featuring ample seating and a versatile layout perfect for family gatherings or socializing with friends. At the helm, you'll find cutting-edge electronics, including a touchscreen navigation system, joystick piloting, and auto-pilot, making navigation both easy and precise. The yacht is also equipped with bow and stern thrusters, adding convenience when docking or maneuvering in tight spaces.

For sun lovers, the 350 Realm offers generous forward and aft sunpads, ideal for lounging and enjoying the scenery. The fully equipped galley includes a refrigerator, microwave, sink, and plenty of storage, enabling you to prepare meals and snacks during longer trips. The enclosed head with a shower ensures privacy and comfort, while the bow seating with a retractable table is perfect for dining or simply relaxing.

Luxurious upholstery and premium finishes throughout the yacht convey an

undeniable sense of elegance, while Boston Whaler's famous unsinkable hull ensures safety and stability in all conditions. Whether you're savoring a leisurely day or planning a longer journey, this 2020 Boston Whaler 350 Realm effortlessly combines outstanding performance with unparalleled comfort, making it the ideal choice for discerning buyers in the yacht market. Discover yacht sales in the current boat location and seize the chance to own a yacht that embodies luxury and adventure.

DETAILED DESCRIPTION

Section name

The 350 Realm seamlessly blends remarkable capability with intentional features and unmatched comfort, making it the ideal vessel for any journey, whether you're hosting friends and family, exploring distant islands, pursuing deep-sea catches, or enjoying extended periods at anchor. Its state-of-the-art design guarantees command over the water, letting your imagination lead the way.

At the core of the 350 Realm's power and precision are the triple 300hp Mercury® engines, delivering thrilling performance. With a 400-gallon fuel capacity, this yacht provides an impressive range, allowing you to venture further without frequent refueling. The sturdy forward console lounge is crafted for relaxation, featuring fold-down armrests and drink holders, paired with forward island deck seating opposite for a sociable and comfortable setting.

For water enthusiasts, the portside dive/boarding door with a detachable stainless-steel ladder facilitates easy access to the water. The cockpit prep center, designed for entertainment, includes a refrigerator, a hot and cold freshwater sink, and an electric grill, making it perfect for hosting on the water. Inside, the welcoming cabin features a convertible V-berth/seating area and a fully equipped head, ensuring comfort during long days and overnight stays. Optional enhancements elevate the 350 Realm's allure, such as the WHALER WATCH system, which incorporates Mercury's Theft Deterrent System (TDS), a telematics tracking system with GeoFence Immobilization, and remote boat monitoring for enhanced security and peace of mind. The Joystick Piloting system eases docking, while the Skyhook autopilot feature provides effortless station-keeping. For fishing aficionados, the yacht is outfitted with an aft bait

well and two insulated fish boxes, ensuring you're well-equipped for a successful day on the water.

Section name

The yacht is outfitted with an array of premium features that elevate both its functionality and visual appeal. It includes 10-inch stainless steel cleats in the stern cockpit with gunnel board hawse pipes, as well as in the anchor locker, ensuring secure mooring. Additionally, 10-inch stainless steel pull-up cleats are strategically positioned at the bow, midship spring line, and transom, offering versatile docking solutions. The interior freeboard stands at 28 inches, providing ample space and safety.

An acrylic transom door with a stainless steel latch allows for easy access, while a bow eye contributes to the vessel's robust design. Stainless steel drink holders are thoughtfully placed throughout the yacht, including the bow, helm, prep station, forward console lounge, and cockpit gunnel boards, ensuring refreshments are always within reach. The integrated swim platform features a recessed telescoping dive ladder and grab rail, facilitating effortless water access.

Full coaming bolsters add both comfort and style, complemented by blue and white LED courtesy lighting in the cockpit and LED lighting in the machinery space. The molded fiberglass port side dive/boarding door, complete with a removable stainless steel dive ladder, enhances the yacht's versatility. A pressurized livewell with a 15-gallon capacity is located in the aft port corner, featuring a clear lid, blue interior, and red LED lights for a striking appearance.

The yacht's rails are crafted from welded stainless steel, including a low-profile interior bow rail and sturdy handrails. A heavy-duty white rub rail with a stainless steel insert provides additional protection. Rod holders are gunnel-mounted in the starboard and port cockpits, with additional holders on the transom, catering to fishing enthusiasts. The self-bailing cockpit sole

ensures easy maintenance and cleanliness.

A stainless steel thru-hull anchor roller davit, along with a windlass equipped with 400 feet of rode and chain, a handheld remote control, stainless steel swivel, 35-pound stainless steel anchor, and polished stainless steel bow roller, completes the yacht's impressive array of features, ensuring both convenience and reliability on the water.

Helm console

The helm console of this yacht is crafted with meticulous attention to detail, prioritizing both precision and functionality. Its central helm layout guarantees superior control and visibility. A compass aids in navigation, while the dash visor is adorned with a custom-stitched cover and features a recessed storage tray with USB and 12-V charging ports, catering to all your electronic needs. Three drink holders are thoughtfully positioned for easy reach.

The console provides a spacious electronics mounting area, accommodating dual displays for a complete navigation setup. The electrical system's switch panel is designed with illuminated text for straightforward operation, and the ignition system boasts remote key switches housed in the main DC panel cabinet, complemented by pushbutton start/stop controls at the helm for effortless engine management.

A lockable acrylic sliding door to the cabin ensures both security and privacy. The Mercury DTS dual binnacle controls feature Shadow Mode for the center engine, with integrated trim controls for precise maneuvering. The Mercury SmartCraft Vessel View Display, a 7-inch color LCD, delivers essential engine information and is networked with Raymarine via the Navigation Package, conveniently situated on the hardtop.

For the captain's ease, the helm console includes molded footrests and a fold-down standing platform with a maintenance-free, anti-fatigue synthetic

surface, enhancing both visibility and comfort on extended journeys. The steering wheel, made from cast stainless steel, features a urethane grip, speed knob, and tilt function for ergonomic handling.

The integrated Fusion MS-BB300 stereo system, part of the Raymarine navigation package, delivers an exceptional audio experience. It includes a Fusion Black Box stereo compatible with AM/FM/VHF/MP3, USB Aux input, and Bluetooth connectivity for iPod, iPhone, and Android devices, with Sirius XM option available. Stereo remote controls with an LCD display offer comprehensive audio control from the cabin, helm, and bow. The sound system is further enhanced by JL Audio waterproof speakers, strategically distributed throughout the yacht, including 6.5-inch speakers in the aft cockpit, 7.7-inch speakers on the helm deck and bow, a 10-inch sub-woofer on the helm deck, and 6.5-inch speakers in the cabin, all powered by JL Audio amplifiers, ensuring a captivating sound experience.

Seating exterior

The yacht's exterior seating is meticulously crafted to ensure both comfort and adaptability for every guest. At the stern, a foldable bench seat provides a practical and space-efficient solution for extra seating when required. The bow area is a sanctuary of leisure, featuring a lounge with a supportive backrest and fold-down armrests, along with built-in drink holders to keep beverages within easy reach. This section also boasts wrap-around seating with four more drink holders, a full-height forward bolster, and detachable cushions, creating a warm and inviting atmosphere for socializing or taking in the scenery.

The helm area is outfitted with a luxurious swivel two-person seat, complete with armrests and an adjustable electric slide. This seat can pivot 180 degrees, converting the space into a face-to-face seating area ideal for conversations and dining. Behind the helm, the second row features a two-person seat with a conversation seatback that can be adjusted to face aft, equipped with

flip-down teak footrests for enhanced comfort. This versatile seating configuration ensures that the yacht's exterior is not only practical but also a hospitable setting for relaxation and entertainment.

Storage

The yacht's storage options are expertly crafted to optimize both space and convenience, ensuring that all essentials are easily accessible. At the bow, the anchor locker is fitted with drains and LED lighting, creating a well-organized and illuminated area for managing the anchor. For additional storage needs, a dedicated cabinet for canvas or lifejackets ensures that safety gear is always within reach.

On the helm deck, the prep station is equipped with drawer storage, providing a practical solution for organizing smaller items. Forward coaming pockets offer extra storage possibilities, while the head compartment features storage beneath the vanity, making efficient use of available space. The second row seating conceals an insulated 230-quart built-in cooler/storage, ideal for keeping drinks cold or storing equipment.

The starboard helm deck counter contains an insulated 26-quart cooler tub, perfect for quick access to chilled beverages. For those passionate about fishing, the yacht is equipped with insulated in-floor fishboxes with pump-out capabilities located aft, ensuring your catch remains fresh. A lockable electronics box in the hardtop offers secure storage for valuable gear, while a storage cabinet beneath the starboard helm deck counter provides additional space for essentials.

Beneath the bow seat, you'll discover more storage, complete with LED lighting to easily find items even in dim conditions. These carefully integrated storage solutions ensure that the yacht remains tidy and well-organized, enhancing the overall experience on board.

Hardtop / windshield system

The yacht's hardtop and windshield system is meticulously designed to blend functionality with elegance, elevating the onboard experience. The hardtop frame, made from custom powder-coated aluminum, is seamlessly integrated into the deck, providing clear walkways and facilitating easy movement around the vessel. For added practicality, there is a canvas enclosure or dedicated storage for lifejackets, ensuring that essential safety gear is always within reach.

A windshield defogger system is built into the hardtop, guaranteeing clear visibility in any weather. Accessing the hardtop is straightforward with a built-in ladder, perfect for maintenance or simply enjoying the elevated view. The lighting system is carefully planned, featuring recessed LED flood lights for both the bow and cockpit areas, offering ample illumination for nighttime activities. Additionally, a red/white LED courtesy map light and blue/white LED overhead courtesy lighting enhance the ambiance and functionality of the space.

The hardtop also includes recessed LED navigation lights for a sleek look and a lockable electronics box with a 12V receptacle, providing secure storage for valuable equipment. The system is outrigger ready, catering to fishing enthusiasts who need additional gear. The tempered glass windshield is equipped with a power-actuated vent, allowing for adjustable airflow to enhance comfort. A windshield wiper with intermittent control and a wash system ensures clear visibility, even in challenging weather conditions. This comprehensive hardtop and windshield system is crafted to enhance safety, convenience, and enjoyment on the water.

Prep center

The yacht's prep center is a focal point of convenience and practicality, crafted

to elevate your culinary and entertainment experiences on board. It includes a 120V GFI outlet, providing safe and dependable power for all your appliances. Three drink holders are thoughtfully positioned to keep beverages secure and easily accessible. The electric grill, featuring a solid surface cover, offers a unique custom popup rotation that converts it into a prep counter while grilling, optimizing space and efficiency.

A freshwater sink with both hot and cold water is paired with a stainless steel grab rail, ensuring both functionality and safety. The second row on the helm deck boasts a versatile two-person seat with a conversion seatback that turns into an aft-facing seat, complete with flip-down teak footrests for enhanced comfort. Underneath this seating, an insulated 230-quart built-in cooler/storage provides dual access, ideal for keeping drinks chilled or storing supplies.

The prep center also features a stainless steel refrigerator, compatible with both 12V and 120V, with a capacity of 2.3 cubic feet, offering ample space for perishables. Storage is plentiful, with dedicated drawers and side pocket storage, allowing for organized stowage of utensils and other essentials. Pullout teak footrests on both the forward and aft sides of the second-row seating enhance the comfort and functionality of this well-equipped prep center, making it an essential component of your yachting experience.

Cabin interior

The interior of this yacht's cabin seamlessly merges cutting-edge technology with sophisticated design, offering a luxurious and comfortable haven. Central to the entertainment system is a 28-inch flat screen HDTV, complete with Apple TV and integrated with an included iPad, providing an uninterrupted viewing experience. The iPad doubles as a digital control and information center for the vessel, featuring an inductive wireless charging case and a custom app that enables wireless monitoring and management of various

vessel systems and DC circuits.

The cabin layout features opposing seating that effortlessly converts into a berth, offering flexibility for relaxation or sleeping. The ambiance is enriched by six LED overhead lights with dimmer switches, along with LED blue/white diffused courtesy lighting, also equipped with a dimmer switch, allowing you to create the perfect atmosphere. The interior materials are designed for easy maintenance, ensuring the cabin remains immaculate with minimal effort. Natural light and fresh air are welcomed through opening portholes with screens, while the hardwood cabin sole adds an element of elegance. A lockable acrylic cabin door provides privacy and security. Additional illumination is provided by a skylight and a portside window, creating a bright and welcoming environment. For convenience, there is a 120V outlet on the starboard side, a 12V outlet, and dual USB power outlets on both the port and starboard sides, ensuring all your devices remain charged. A carbon monoxide detector is also installed, emphasizing safety and peace of mind. This carefully crafted cabin interior blends functionality with luxury, making it an ideal space for relaxation and enjoyment.

Enclosed head compartment

The yacht's enclosed head compartment exemplifies the perfect fusion of practicality and luxury, ensuring that all aboard enjoy comfort and convenience. It includes a 120V outlet to power any necessary devices. The 500 GPH shower sump effectively handles water drainage, keeping the area dry and clean. An accent wall adds a touch of sophistication, while the solid surface tile flooring ensures both durability and style.

A full-length mirror enhances the sense of space and functionality, complemented by fold-down stainless steel hooks for added convenience. The compartment is brightened by LED overhead lighting, creating an inviting and cheerful atmosphere. The pullout showerhead, complete with a mixer valve

and vertical adjustment, allows for a personalized shower experience, while a shower curtain ensures privacy.

The head compartment features a hinged solid teak flip-up seat over the toilet, optimizing space and usability. The molded fiberglass sink, equipped with hot and cold faucets, rests on a solid surface vanity countertop, offering a sleek and functional area for personal grooming. A teak shelf provides extra storage, and a toilet paper holder ensures essentials are always at hand.

The VacuFlush™ toilet system, with its holding tank, dockside pump-out, overboard discharge, and tank level indicator, guarantees efficient waste management. A vanity grab rail enhances safety, and vanity storage offers ample room for toiletries. This enclosed head compartment is meticulously designed to seamlessly blend functionality with luxury, enriching the overall yachting experience.

Mechanical

The yacht's mechanical systems are meticulously crafted for outstanding performance and dependability, ensuring a seamless and pleasurable journey on the water. At the core of the vessel are the 300 V8 DTS Triple Black Mercury FourStroke engines, featuring hydraulic power steering and shadow mode technology, which offer remarkable control and agility. The yacht is powered by a sturdy 385-gallon aluminum fuel tank, providing an impressive range for long-distance travel.

An advanced battery management system with electric switches and pushbutton paralleling ensures efficient power distribution, while the 12,000 BTU reverse cycle air conditioner maintains cabin comfort in any climate. The yacht is equipped with battery trays for secure storage and features both high water and automatic bilge pumps, with capacities of 2000 GPH aft and 1100 GPH forward, ensuring effective water management.

The vessel's bonding system safeguards underwater through hull fittings, and the bow thruster, rated at 12V and 4kW, enhances docking precision, although it is not compatible with Joystick Piloting engine options. Below the waterline, cast bronze thru hulls, seacocks, and sea strainers ensure durability, while above the waterline, cast stainless steel thru hulls maintain a sleek appearance. An electric trumpet horn and electric trim tabs with Auto Glide, Dynamic Running Surface, and dual ram indicators further enhance the yacht's operational capabilities.

Engine fuel and water separators ensure clean fuel delivery, while the freshwater system, with a 45-gallon tank, includes a dockside hookup, tank level indicator, and manifold plumbing with individual valves per circuit. The yacht features multiple freshwater outlets, including a dive door shower, transom shower, and stainless steel washdown faucets in the anchor locker and cockpit, all with hot and cold mixers.

A low CO gas generator, rated at 7.5 kW and 120V 60 Hz, includes a fire suppression system for safety, and the pressurized 15-gallon livewell with a clear top window and blue interior, illuminated by red LED lights, is located in the aft port corner. The machinery space is well-lit with four lights, and the stainless steel propellers ensure efficient propulsion. Raw-water washdown with a stainless steel faucet is available in the cockpit, and dual 30 amp shore power inlets with isolation transformers and 50ft shore power cords are included for convenient dockside power access. The yacht also features a transducer mount area and pocket for flush mounting B260/B275 transducers, as well as a 6-gallon water heater, ensuring all mechanical needs are met with precision and care.
