OVERVIEW

C MONSTER presents as a meticulously maintained 2015 Scout 350 LXF luxury center console, propelled by triple 300 hp Yamaha outboards. Exceptional maneuverability is delivered through the Optimus 360 joystick paired with a bow thruster, while a suite of Garmin electronics handles navigation and onboard systems with modern precision. Comfort is prioritized with air conditioning at both the helm and in the cabin, an electric sunshade for instant deck shelter, and upholstery that was refreshed in 2025. Pristine and highly versatile, she performs superbly for offshore bluewater sportfishing, relaxed cruising, and elegant entertaining.

DETAILED DESCRIPTION

Overview

C MONSTER is a pristine, meticulously cared for 2015 Scout 350 LXF that exemplifies one of Scout's most sought after offshore center consoles. Owned and professionally maintained by an open checkbook proprietor, this boat has benefited from continuous attention and thoughtful upgrades throughout its life and presents in exceptional condition.

The 350 LXF balances offshore capability with comfort and versatility. A deep cockpit, abundant bow and cockpit seating, a sheltered helm, welcoming cabin accommodations and generous storage create a layout equally suited to serious offshore passages, relaxed family cruising, or lively day long entertaining. The design provides ample guest space while preserving the performance and functional integrity that define the LXF series.

Propulsion is provided by three white Yamaha 300 outboards, currently showing 660 hours as of October 2026, with Optimus 360 joystick control and a bow thruster to ensure confident, precise handling in close quarters. A full suite of Garmin electronics, air conditioning at the helm and in the cabin, and an electric cockpit sunshade enhance the boat's adaptability, making it as comfortable when offshore as it is while fishing, cruising or hosting aboard.

The upholstery was completely renewed in 2025, a highlight among recent enhancements, and the vessel is presented turnkey—recently reupholstered, fastidiously maintained, and in a condition that reflects continuous care. Based on its presentation, maintenance history and overall condition, C MONSTER ranks among the cleanest 2015 Scout 350 LXFs available.

Electronics and navigation

The helm is engineered for decisive control and clear situational awareness, centered on three Garmin 8212 multifunction displays that interface with a Garmin open array radar, a Garmin B175 transducer and a Garmin GSD 26 sounder module to provide accurate radar, depth and sonar information. Maintaining course is made simple by a Garmin autopilot with a wireless autopilot remote for fingertip adjustments, while voice and data communications run through a Garmin VHF 300 AIS radio coupled to a wireless VHF remote. A FLIR thermal imaging camera adds reassurance for nighttime passages and low visibility conditions, and a Yamaha Command Link display brings engine parameters into crisp view. Onboard leisure is handled by a Fusion deluxe stereo system, centered around a Fusion Apollo MS RA800 head unit installed in 2024 and enhanced with SiriusXM service. Traditional navigation essentials such as a magnetic compass remain in place, and power management is secured by BEP battery switches with remote control for reliable, convenient operation.

Helm and controls

At the helm, precision and poise come together: an Optimus 360 joystick paired with a bow thruster delivers effortless low speed maneuvering and docking, while Bennett trim tabs allow exacting adjustment of the yacht's running attitude. A polished stainless steel Edson steering wheel is set before twin helm chairs that offer folding bolsters and armrests for personalized comfort, and an electric ventilation hatch above the elegant teak helm sole fills the station with fresh air. Practical features are thoughtfully integrated, including a helm glove box and dedicated map lights for clear reference, while night passages benefit from two Lumitec Razor light bars, a forward spreader light added in 2023 and aft spreader lights for comprehensive illumination; an

air horn provides confident signaling when needed.

Deck and cockpit

A sense of refinement flows throughout the deck, beginning with upholstery completely refreshed in 2025 and complemented by on-demand shade from an electric fiberglass cockpit sunshade and a bespoke bow sunshade fitted with telescoping support poles in 2021. The foredeck offers expansive seating with generous under-seat storage and a double forward sun lounge with additional underside compartments, while an electrically operated forward dinette table transforms at the touch of a button into a large, uninterrupted sunbathing surface. The cockpit adapts effortlessly to different moods: a folding transom stern seat combined with a removable aft table allows the space to shift from open working deck to intimate social area, and an aft-facing stern seat conceals a baitwell and tackle drawers alongside a dedicated transom livewell. Serious anglers will value port and starboard in-deck fish boxes, stainless-steel flush-mount gunwale rod holders, horizontal under-gunwale rod storage, rocket launchers, and the provision for outriggers, which are presently removed from the yacht. Boarding and water access are simple and safe via a side dive door with a teak boarding ladder and an additional transom door, with dual swim platforms including a teak swim platform providing generous stern access. Ground tackle has been specified for reliability with a stainless-steel anchor and a Lewmar windlass operated from both the bow and the helm. Practical on-deck systems include raw and fresh water washdowns, courtesy and navigation lighting, and LED underwater lights, while everyday storage needs are met by a starboard console storage closet and a console glove box equipped with a 12V outlet. Along the rails, four Phender Pro quick-release fender cleats ensure fast, secure mooring.

Cabin

Enter an exquisitely designed cabin cooled by a 12V air conditioning system, where a sumptuous double berth rests beneath horizontal rod storage for a tidy, organized feel. Daylight streams through two oversized windows with integrated portholes, bathing the space in a warm glow and highlighting a practical fold-up table and a Corian-clad vanity complete with mirror. The galley is thoughtfully equipped with a refrigerator, microwave and a stainless steel sink, while an insulated cooler set beneath a Corian countertop offers additional chilled storage. A well-appointed marine head provides onboard convenience, and dependable 30-amp shore power keeps systems fully operational whether alongside the dock or at anchor.

Additional equipment

A complete collection of individually tailored covers protects every principal surface aboard; in addition, a full replacement set of coaming pads and cushions is supplied and presently held in storage, with the helm seats expressly excluded.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
