OVERVIEW

Immaculately maintained, the 2023 Yellowfin 36 features a striking two-tone Ice Blue/Matterhorn White hull and is equipped with approximately \$80,000 in premium options. Luxurious deck and seating appointments include expansive bow lounge seating, a coffin box fitted with a padded backrest, elegant double diamond quilted upholstery, an electric anchor windlass and a bow thruster for easy maneuvering. With just 190 hours on the clock she presents like a nearly new vessel and is protected by an extended warranty through 2027, making this a rare opportunity to own a fully equipped, head-turning offshore performance center console.

DETAILED DESCRIPTION

Overview

Clad in a dramatic two-tone Ice Blue and Matterhorn White hull, this 2023 36' Yellowfin is an attention-grabbing example, fitted with \$80K of options that elevate both comfort and performance. The layout features forward-facing bow seating, a coffin box with an upholstered backrest, the upscale double-diamond stitching package, an electric windlass and a bow thruster, presenting a near-new yacht that records only 175 engine hours and benefits from extended warranty protection through 2027. Additional premium specifications further distinguish her, including a hardtop with full enclosure and Gemlux 22' black outriggers, a complete Garmin electronics suite complemented by a JL Audio entertainment system, and a Sealand marine head located in the console compartment; noted documentation also indicates 190 engine hours with extended warranties in place until 2027.

Equipment and options

Purpose-built for assured cruising, she is appointed with a Bow Thruster to deliver pinpoint maneuverability and a Sealand Head to ensure onboard comfort. Anchoring is handled with ease by an Electric Anchor Windlass partnered with an SS Plow, 475' Rope and a 20" chin for Windlass, while a FWD Liner Anchor Access Door provides convenient forward access to the ground tackle. Deck functionality is elevated by Hose Coil Holders and both Freshwater and Saltwater Washdown systems, and evening ambiance and safety are enhanced by Shadowcaster Blue underwater lights alongside Compartment Courtesy Lights. Electrical resilience is provided by a 4-Bank Pro Charging System and an Extra House Battery, and helm ergonomics are refined with a Misc. 8-Switch Pre-labeled Panel for streamlined control.

Electronics and navigation

Command of the vessel is effortless from a finely appointed helm anchored by two Garmin GPSMAP 8617 MFDs, while subsurface detail is revealed by a Garmin GSD26 Sounder Module paired with the Garmin Transducer Airmar B265LH 1 kW BB for precise depth and fishfinding information. Long-range detection and situational awareness are enhanced by the Garmin GMR 434 xHD3 Radar, and dependable course-keeping is provided by the Garmin GHP 40w autopilot with GHC 20 control. Real-time meteorological information is delivered via the Garmin GXM 54 Sirius XM Weather Module, and clear, reliable voice communications are maintained with the Garmin VHF 316 equipped with Ram Mic. Entertainment is handled with finesse by a Fusion WB675 stereo system driving six JL Audio 7.7-inch coaxial speakers, two JL Audio 10-inch subwoofers and two JL Audio amplifiers for immersive, high-fidelity sound, while a Gost Nav Tracker 2.0 supplies discreet tracking and added security.

Fishing gear

The angler-focused suite is anchored by fourteen titanium rod holders, further augmented by eighteen rod holder and cup holder combo units that offer versatile, corrosion-resistant stowage distributed across the deck. A substantial grab rail at the transom provides a dependable handhold, while a crystal-clear livewell window lets you monitor the bait tank, which is bathed in illumination from a dedicated livewell light. Marinc 30A outlets are strategically located to deliver steady power for electric reels, and a Midship Storage Box (Rowan Box) keeps essential gear neatly protected and immediately accessible.

Helm station / console

A tailored helm dodger forms a three-quarter enclosure around the steering position, delivering sheltered protection while maintaining unobstructed sightlines. A precision compass occupies the central vantage of the console and is paired with a Mercury VesselView 703 display to provide instant access to engine and vessel information. The fully lined console presents a refined, durable finish with carefully considered ergonomics, and is appointed with two stainless flush cup holders alongside two forward rod-cup combos to keep beverages and tackle secure and easily accessible.

Top

Crowning the yacht is a substantial hardtop, carried on aft support legs, that combines exceptional rigidity with a refined, streamlined profile; within its form are incorporated running lights, LED spreader fixtures and multi color LED lighting to provide both purposeful illumination and an adjustable, sophisticated ambiance. Built for serious angling, the hardtop accepts Gemlux Bluewater outrigger bases that carry a Gemlux 22-foot internal black outrigger, while the powder coated finish and strategically placed grab rails offer a secure, elegant handhold for confident movement in every sea condition.

Seating and upholstery

A new two-piece full mooring cover envelops the entire vessel, providing comprehensive protection, while a substantial leaning post with integrated cup holders anchors the cockpit and is complemented by a tackle station equipped with three open drawers. Forward seating at the bow is paired with a coffin box fitted with a supportive backrest, harmonizing comfort with practicality. The standard deluxe interior is elevated by a double diamond stitching

package and crowned by signature Yellowfin helm seating, delivering a polished, enduring aesthetic.

Exclusions

Exclusions encompass, without limitation, the owner's personal effects; a complete, itemized list of specific exclusions will be made available upon written request at the time of sale.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
