DETAILED DESCRIPTION

Overview

CAPTAIN MORGAN is a fresh-water, one-owner 2024 Regal 36 Grande Coupe, purchased new and based in Seattle, WA, showing approximately 80 hours. Presented as a turn-key luxury express cruiser, she has been maintained with annual service, recently detailed, and benefits from Volvo extended service coverage in place through 2029. Twin Volvo Penta V8 engines, each rated at 350 hp and paired with duo-prop stern drives, deliver confident performance while Volvo Joystick Piloting and an integrated bow thruster provide precise close-quarters handling and effortless docking. The helm is anchored by a 22-inch Volvo Glass Cockpit and is supported by autopilot, Garmin HD closed-array radar, VHF, GPS, a depthsounder and intuitive touch-screen system controls. Configured for refined entertaining and comfortable coastal cruising, the 36 Grande Coupe offers a versatile enclosed-to-open-air salon with a large sunroof, full heating and air conditioning, a generator and inverter, plus a well-appointed refreshment center with electric grill, microwave and dual refrigerators. Additional luxuries include an underwater power platform and premium audio with RGBW lighting. Recently serviced, detailed and ready to enjoy immediately.

Walkthrough

The Regal 36 Grande Coupe is conceived around an expansive, single-level upper salon and cockpit that blend the sociable ease of a day-boat with the practicality of an express cruiser for overnight stays. Boarding from the swim platform is effortless: a transom door opens into the aft cockpit and the space flows forward in an unbroken transition through the covered salon and helm. A port-side windshield walk-through provides direct access to the bow lounge,

so guests can reach the foredeck without having to negotiate narrow side decks.

Upper salon

The upper salon serves as the yacht's principal gathering space, bringing the helm, companion seating, galley and refreshment center, and aft cockpit together in a single, seamlessly connected entertainment area. A retractable hardtop, opening helm window, windshield walk-through and removable salon enclosure allow an effortless shift from open-air cruising to a sheltered, climate-controlled interior as weather and mood require. Broad side windows and a sweeping windshield bathe the salon in daylight while maintaining exceptional sightlines from both the helm and the seating areas, and the carefully considered layout ensures the cook, helmsman and cockpit guests remain part of one continuous, convivial experience.

Helm

Located to starboard, the helm delivers generous forward and lateral visibility through an expansive windshield and side glazing. The Volvo Glass Cockpit brings navigation and engine data together into a cohesive, easy-to-read presentation, while joystick piloting paired with a bow thruster ensures crisp, effortless control in tight quarters. Seating at the helm is designed for both seated and standing use, with a flip-up bolster and integrated footrest providing an elevated perch and unobstructed sightlines. All primary controls are laid out ergonomically within easy reach, including the joystick, throttles, trim tabs, digital switching and touch-screen navigation displays.

Bow lounge

A portside windshield walk-through provides entry to the bow, offering a safer and more comfortable route forward than navigating conventional side decks. At the front, a spacious, multi-position lounge awaits, surrounded by secure rails and fitted with practical cupholders and USB charging points, elevating the foredeck from a simple sunpad into a true guest retreat.

Galley / refreshment center

Located on the upper level to keep hosts at the heart of the action, the principal entertaining galley turns culinary preparation into a shared, social experience where service and conversation unfold together. The integrated refreshment center is fitted with an electric grill, a microwave, a sink, two refrigerators, generous counter space and purpose-built storage, allowing meals and drinks to be prepared effortlessly without separating guests between the cockpit and the cabin.

Swim platform

The expansive swim platform is among the model's most striking exterior features, flowing seamlessly from the cockpit to create an elegant waterside extension. With the press of a button, an electrically powered underwater platform lowers to provide enhanced, low-level access for swimming, boarding, pets and tender operations, all while preserving the main swim platform's usable area.

Accommodations

Below deck the accommodations have been artfully arranged to provide

sumptuous overnight quarters, with a forward berth complemented by an aft mid-cabin sleeping area, gracious salon seating, abundant storage and a private head. By placing the galley in the upper salon, the lower cabin gains additional volume devoted to sleeping, seating and stowage, elevating both comfort and day-to-day practicality.

Forward berth

The forward berth is the yacht's principal sleeping accommodation, designed with a genuine walk-around configuration that allows effortless access from either side. Beneath the berth and in the adjacent built-in cabinetry there is ample storage to stow personal effects neatly, while the carefully considered layout creates a sense of openness uncommon among express cruisers of this size. The result is a refined, roomy environment well suited to comfortable weekend stays for owners.

Aft stateroom

The aft stateroom is anchored by a sumptuous convertible lounge, artfully engineered to glide from a luxurious seating area into an additional sleeping berth, offering discreet and practical versatility for entertaining visitors, accommodating children in comfort, or increasing the yacht's overnight capacity whenever required.

Head

Carefully appointed, the head contains a dedicated walk-in shower clad in premium materials, elevating everyday routines and underscoring the yacht's role as a genuine weekender rather than merely a day cruiser. Its well-conceived layout permits effortless circulation, offers generous storage

and guarantees privacy, creating a polished, understated onboard ambience.

System and engine access

Meticulously organized to enable assured owner operation and uncomplicated routine servicing, the systems arrangement grants immediate reach to the main distribution panel, battery banks, charger, generator and Volvo service points, making regular inspections quicker and ongoing maintenance significantly more straightforward.

Factory options

Driven by twin Volvo Penta V8 350 hp gas engines paired with duo-prop stern drives, this yacht offers refined power delivery and effortless close-quarters handling thanks to Volvo Joystick Piloting augmented by a bow thruster. The helm is anchored by a 22-inch Volvo Glass Cockpit with autopilot and is complemented by Garmin HD closed-array radar, GPS, depthsounder and VHF, while an integrated digital switching system streamlines command of the vessel's systems. Full heating and air conditioning ensure year-round comfort, supported by a Westerbeke 120V 60Hz gas generator rated at 7.5 kW and a shore power charging system featuring two 30A shore circuits. A generous sunroof bathes the salon in natural light and the space is fitted with a Macrolon enclosure and windshield privacy cover; the aft cockpit benefits from canvas protection with an Isinglass enclosure and a manual bow sunshade provides additional shelter forward. Anchoring is made simple with an anchor windlass supplied with rope, chain and a wireless remote, and an underwater power platform enhances waterfront living. The refreshment center is equipped with an electric grill, microwave and two refrigerators, while onboard entertainment is delivered through a premium audio system with RGBW lighting and an optional TV in the mid-cabin. Everyday convenience is

addressed by a central vacuum system and a toilet with holding tank and overboard discharge, and ownership peace of mind is extended by a Volvo service contract that remains in effect through 2029.

Exclusions

Unless expressly listed in the sale agreement and the listing specifications, all personal property aboard the vessel is excluded from the transaction. For the purposes of this provision, personal property means any items that are not permanently affixed to the yacht—examples include artwork, loose furnishings, and recreational or entertainment equipment. Marketing materials, advertisements and photographs may portray the vessel with such items in place; these depictions do not convey ownership of those removable items, which remain excluded from the sale unless they are specifically identified as included in the sale agreement and listing specifications.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
