## OVERVIEW

---

The 2021 Valhalla V-37 "Full Tilt" represents a pinnacle in luxury center console design, marrying tournament-level performance with refined onboard comforts and the signature sea-kindly ride Valhalla Boatworks is known for. Also referenced as the Valhalla V-37 or Valhalla 37, this 37-foot offshore fishing boat has been engineered to satisfy both the serious bluewater angler and the discerning cruiser who demands elevated style and uncompromising capability.

Underway, "Full Tilt" is propelled by triple Mercury Verado V8 300HP outboards, delivering thrilling speed, extended range and dependable power for long days offshore. A Seakeeper SK3 gyro stabilizer is fitted to ensure exceptional stability and a drier, more comfortable passage in varying sea conditions. Purpose-built for sportfishing, the V-37 features an intelligent deck layout with abundant rod and tackle storage, dedicated equipment lockers and angling-focused systems that make tournament work effortless while remaining completely suited to relaxed day boating or entertaining guests.

The versatile interior and deck plan create a welcoming social environment with a forward console lounge, optional port and starboard forward seating and forward-facing backrests that invite conversation and conviviality.

Harmonizing upscale amenities with rugged fishability, this 37 Valhalla stands apart among center console offerings. Located in spectacular Costa Rica—one of the world's premier sportfishing destinations—"Full Tilt" is a rare, highly equipped 2021 Valhalla V-37 opportunity for those seeking a top-tier offshore vessel in an exceptional cruising and fishing locale.

# DETAILED DESCRIPTION

---

## Exterior

---

The gelcoat hull sides are presented in an elegant two-tone scheme at the chine, with a light Haze Grey upper hull contrasted by a black bottom. A pale gelcoat is carried across the entire topside, flowing over the console, liner and deck boxes to produce a clean, unified appearance. Color accents have been specified for the in-deck fish box and the storage box to preserve a harmonious visual language throughout the boat. The livewell is finished in Aristo Blue, introducing a deliberate, striking accent that complements the overall palette.

## T-top

---

The cockpit is crowned by a sculpted fiberglass hardtop graced with polished aluminum spreader lights, a six-rod rocket launcher and a sleek radar pod. A purpose-built teaser reel box with bracket features a recessed opening and a removable door, seamlessly integrated into the hardtop, while Miya Epoch US6 twelve-volt electric teaser reels are installed and ready for immediate deployment. The underside of the hardtop is gelcoated to match the hull color for a tailored, continuous finish, and outrigger capability is provided by a Gemlux heavy-duty outrigger base paired with a Gemlux twenty-two-foot carbon fiber telescoping rigger pole.

## Mechanical

---

The electrical architecture is built for dependable performance, centered on Odyssey MG31 batteries—one dedicated to each engine with an additional house battery—managed through a centralized battery distribution panel that

includes a battery cut-off and charging system breakers, and monitored by a dedicated battery voltage and amperage display. Charging is supplied by two 40-amp battery chargers and a 50' shore cord, while a color-coded, labeled, and numbered wiring system provides clear, serviceable routing. Vessel systems are intuitively controlled via Bocatech 12V switching with backlit switch labeling, and navigation and safety lighting include an anchor light and navigation light complemented by a comprehensive illumination scheme that lights the aft lazarette, under the gunwale, and the interior of the console.

Bilge and plumbing systems are engineered for redundancy and ease of use: two aft 2000 gph bilge pumps with electric switches permitting automatic or manual operation, a mid bilge pump selectable between automatic and manual modes through a Bocatech switch, and a high-water alarm for added protection. An automatic sump box is located in the console mechanical space, with a Whale Gulper pump positioned amidships within the same compartment. Freshwater is delivered via a DC pressurized system with a console fill and PEX freshwater plumbing, and both freshwater and saltwater washdowns are provided, including hose bibs under the gunwale and in the anchor locker. Waste handling includes a deck pump-out fitting for the holding tank and an electric freshwater head equipped with a Y-valve to discharge the 12 ga tank overboard. Performance and control are enhanced with Zip Wake trim tabs and a fuel manifold system with a selector to draw from any tank, while a forward-mounted bulkhead-style horn supplies a crisp, commanding signal.

## Console

---

An illuminated, flush-mounted compass takes center stage at the helm, sheltered by a Procurve solid curved glass enclosure that protects a black acrylic helm panel designed for flush-mount electronics and is complemented by an Edson carbon fiber steering wheel. The helm area is finished with four

flush-mounted cup holders and a recessed fiberglass footrest that incorporates hidden storage, while a powder-coated pedestal with teak ladder treads provides secure, elegant access into the console. Entering through a fiberglass door with a notched overhead and heavy-duty locking hardware reveals a molded-in vanity fitted with a freshwater sink, a retractable shower wand and a grey onyx-km countertop. Practical functionality is woven into the luxury with an electrical panel door for convenient access to helm systems and electronics, one radio box to port equipped with a USB charging outlet and a 12V plug, and two glove boxes to port and starboard each fitted with USB charging outlets and a 12V plug.

## Fishing accessories

---

Designed for the avid angler, the cockpit and deck are fitted with port and starboard aft insert fish boxes equipped with a Y-valve that discharges to the aft lazarette, accompanied by a forward fishbox and port and starboard deck lockers plumbed to an automatic sump to ensure efficient water management. Live-bait operations are elevated by a transom livewell paired with the Hooker Seachest 4500 livewell system, featuring a high-speed PU controller at the helm and backed by a Hooker 4500 electric pump to deliver vigorous flow across all speeds. Rod handling is meticulously addressed with six Gemlux boltless rod holders, two Gemlux heavy-duty swivel rod holders and two Gemlux cup/rod holders, augmented by eight additional Gemlux holders set into the coaming at thirty degrees, four in the console at fifteen degrees and six in the lounge also at fifteen degrees, while dedicated rod storage is thoughtfully mounted within the console. To keep tackle powered and the action uninterrupted, two twelve-volt electric reel outlets are strategically positioned for convenience.

## Additional features

---

A sophisticated Garmin electronics suite pairs with an entertainment system topped by a black antenna to ensure seamless connectivity and enjoyment while underway, and onboard comfort is elevated by the Seakeeper SK3. Practical touches merge with refined styling in the port dive/boarding door and the automatic reverse engine flush system, complemented by a faux teak helm pod and an elegant faux toe rail. Evening ambiance is thoughtfully curated by an underwater light package featuring four lights, while audio is integrated through recessed speaker rings finished in Whisper Grey. Security and ergonomic access are addressed by an aluminum bow handrail mounted in recess on the deck coaming, supported by side storage lockers to port and starboard and fiberglass under-gunwale forward side lockers. The interior surfaces benefit from Seadek inside the console and lower bunk area in storm grey, adding both traction and a contemporary, soft aesthetic.

The helm and cockpit deliver exceptional comfort and versatility with three Llebroc Billfish helm chairs, each equipped with four armrests and an electric slide with flip-up bolster, alongside a Llebroc 60 triple bench seat featuring OBD armrests and an electric slide with flip-up bolster. Additional seating flexibility is provided by integrated transom GG Schmidt folding seats and a forward bench seating MOD with two backrests and two cupholders. The helm seating module is appointed with a mezzanine bench complete with armrests, tackle storage, general storage and an integrated cooler, while Plano box storage is discreetly housed within the backrest. Upholstery has been elevated throughout, with upgraded upholstery for seating and coaming, the Costa Marine package for the console and lounge/helm seating in grey fabric, padded cockpit coaming bolsters, upgraded inset material in textil charcoal, upgraded piping material in capriccio black, and custom black stitching for a tailored, cohesive finish.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
