OVERVIEW

CAYMAN 400WA OUTBOARD VERSION

Currently located in Ibiza, Spain, this factory demo CayMan 400WA presents itself in excellent condition, a refined example of high-spec craftsmanship and thoughtful detailing. Offered as a premium demonstration vessel, it combines purposeful performance with tasteful finishes and an array of installed systems that make her equally at home as a performance dayboat or a compact cruiser.

Retail Price including delivery: €730,000 ex VAT. Current Price: €599,000 ex VAT.

Under her coachroof she is propelled by three Mercury 400HP outboard engines with approximately 550 hours, managed through a joystick control system for intuitive low-speed handling and close-quarters manoeuvres. A large helm accommodates dual screens and can be specified with a 12" Volvo display for complete single-station electronic engine control; navigation and situational awareness are assured by GPS plotter, VHF radio, autopilot and a fishfinder whose black box and transducer are integrated to feed the 12" display. Comfort and convenience are equally considered with a 7 kW generator, 7000 BTU compact air conditioning, a Fusion sound system and a 42 liter refrigerator, while a BBQ is integrated into the cockpit furniture for effortless onboard dining.

The exterior layout is restrained and elegant: this 11.90 m open yacht—born of the Ferragni design studio, celebrated for the Okean range and select semi-rigid Capelli projects—features a promenade deck protected by a high freeboard at the bow and wide side decks for secure movement. The foredeck offers two opposing benches and a raised sunpad area sheltered beneath the cockpit roof, while the cockpit itself is protected by a windscreen and a sleek black T Top with dual spot LEDs that integrates visually and functionally with

the galley space. Teak flooring extends across exterior areas, including the cockpit and platform, and a heavy duty hydraulic lifting platform with 250 kg capacity enhances tender and boarding operations.

Accommodation is accessed via the starboard console and includes a double berth and a heads compartment, with an optional additional double aft cabin available. A bow thruster (4 HP) and remote chain counter control from helm simplify docking; a 500 W mooring windlass and a black water holding tank with macerator pump and deck pump out complete the practical inventory. The aft cockpit presents an inviting saloon with tilting bench seats, a second sun deck and a bathing platform that opens the vessel to effortless days on the water.

Further fitted and optional equipment includes bow and stern sunbeds, cockpit sofa and console covers, a walk around deck with LED lighting, shore fresh water connection at the transom, a cockpit wooden table with aluminium telescopic support and a cockpit table with hi lo electric mechanism plus an extra sunbathing cushion. Finishing touches include a teak door on deck, lacquered Alpi wood furniture with carpeted joinery, wooden flooring in the dinette and salon, an aft tent and bow tent with carbon fibre poles and the practical choice of an optional guest aft cabin.

We support this vessel with comprehensive annual servicing and maintenance by qualified technicians and offer customisation services—full upholstery and fabric design, painting, wrapping, electrical and demotic systems, refits and upgrades—alongside short and long term mooring solutions and expert advice on chartering. Collaborating with Spain's largest charter operator, which handles over 3,000 charters each summer, our year round team ensures a high standard of service in the region. Explore yacht sales in the boat's current location and seize the opportunity to acquire a craft that unites luxury, comfort and rewarding performance.
