OVERVIEW

Freshly prepared for the season, this 2005 Riviera 37 Flybridge has been thoughtfully upgraded with premium systems that refine every outing. A 2025 repower installs twin Cummins 6BTA inboard engines rated at 370 hp apiece, each showing just 10 hours and supported by manufacturer warranty, and these are paired with brand new 2025 transmissions to ensure smooth, confident propulsion. Electrical independence is provided by a new 2025 Westerbeke 8 kW generator, also under factory warranty, while onboard climate comfort is maintained by two new 2025 air conditioning units. Navigation and situational awareness are crisp and modern thanks to dual Garmin GPS units from 2025 and 2026, extended cruising is simplified by a reliable watermaker, and safety is reinforced with a newly installed engine room fire suppression system.

Presenting the Riviera 37 Flybridge "Work to Play," this refined flybridge cruiser and convertible sportfish marries luxury appointments with purposeful, seaworthy design. At an overall length of 42.9 feet, she rides on a robust fiberglass modified V hull that delivers a composed, dry motion and excellent seakeeping for bluewater passages. Versatile in nature, she performs as readily as an offshore sportfishing platform as she does as an elegant family motor yacht, offering a balanced mix of utility and comfort.

With the 2025 twin engine repower, unusually low engine hours, and a suite of meticulous upgrades, "Work to Play" is prepared to offer spirited performance, dependable reliability, and an inviting, upscale experience on every voyage.
