OVERVIEW

An exquisitely specified 2023 Galeon 375 GTO, this outboard-powered express yacht elevates an already celebrated sport cruiser with thoughtful corrections and premium upgrades, all while remaining virtually unused. Originally ordered with every factory option and enhanced with more than \$35,000 of deliberate improvements, she has seen fewer than 50 engine hours and retains a Mercury powerplant warranty extended through July 2026. Known factory shortcomings were addressed during outfitting: the original exterior decking—which is prone to running hot and premature wear—was replaced with a cooler-touch, more durable surface, and the oversized factory table was professionally relocated to improve circulation and usable deck space. A tailor-made full enclosure, fitted and finished to a high standard and valued at \$12,000, protects the cockpit while maintaining the yacht's sleek profile. Performance and systems match the yacht's polished presentation. Twin Mercury V12 600s provide energetic propulsion with joystick steering and Skyhook station-keeping, yielding a comfortable cruise at 35 knots and a top end exceeding 48 knots, while a Seakeeper 3 delivers exceptional stability at anchor and underway. The helm is appointed with an upgraded Raymarine package featuring dual 16" Axiom displays, radar and VHF, and an electric tinted sunroof and side windows invite a true open-air sport-yacht experience. Entertainment and creature comforts include an upgraded Fusion audio system, a 32" salon TV, dual refrigerators, LED underwater lighting, a comprehensive cover set, and ceramic coating applied inside and out over fresh bottom paint. Originally priced north of \$1.3M before recent market increases, this is one of the most refined, comprehensively equipped 375 GTOs available; outside brokers are offered a heavily reduced commission arrangement. She is turnkey and available for private showing.
