OVERVIEW

Introducing the 2027 COCKWELLS Duchy 35 “Duchy,” a bespoke semi-custom downeast-style motor yacht crafted for discerning owners and available in the United States. At 37 ft LOA with a 12 ft beam, this fiberglass monohull—designed by Andrew Wolstenholme—delivers confident performance and elegant poise. Twin Yanmar inboard diesel engines power effortless cruising at 24 kn with a top speed of 30 Knots, while the fiberglass deck and thoughtfully engineered hull provide a refined, quiet ride.

With a draft of 9.569 ft and practical capacities—264 Gallons of fuel and 115 Gallons of water—Duchy is well-suited for extended coastal passages. The layout includes 1 head and the quality and finish you expect from COCKWELLS, supported by durable Fiberglass and Plastic Yachts construction. Spring 2027 delivery invites you to tailor this semi-custom Duchy 35 to your vision and enjoy a modern interpretation of classic downeast character.

DETAILED DESCRIPTION

INTRODUCTION

Duchy is a 2027 COCKWELLS Duchy 35 with a length overall of 37 ft. Hull number 32 of the Duchy 35 series is available for spring 2027 delivery and will be built in the UK by Cockwells Modern and Classic Boat Building with owner choice of fabrics and some options. The Duchy 35 is a bespoke yacht engineered and finished to high standards, featuring a stylish wheelhouse, tumblehome aft, keel-protected twin props, a hard chine hull, and deep bow sections designed for a smooth, stable ride. She is powered by twin Yanmar 350 hp diesel engines with shaft drives, has a cruising speed of 24 knots and a top speed of 30 knots, and seats eight comfortably in a generous cockpit area. On deck, key features include a transom door to a large swim platform, cockpit side entry, side walkways running forward inside bulwarks, and a bow rail for safe access to a concealed windlass. The cockpit leads into the wheelhouse on one level, with custom teak bifold doors that open to create a wide open space; the wheelhouse offers protection, ventilation, and visibility and includes a helm door for quick access to the side deck. The companion seat, helm seat, and aft settee all convert to face both directions. The interior is crafted in English oak and includes a private forward cabin with a queen berth, a large head and shower, and a fully equipped galley open to the wheelhouse above. Solid paneled cabinetry, dovetail-jointed drawers, and numerous custom storage lockers are fitted throughout. Handcrafted by Cockwells, Duchy motor yachts combine traditional shipwright techniques with modern luxury, technology, and performance; a 2026 sistership is based in Rhode Island for inspection. Shestakov Yacht Sales is listed as the broker.

HULL

The Duchy, a 2027 COCKWELLS Duchy 35 measuring 37 ft overall, features a molded GRP hull with PVC foam core above the waterline and a molded GRP structural matrix bonded to the hull. Interior moldings provide a clean, finished look. A large molded GRP swim platform includes a protective perimeter rub rail that extends 8 ft forward along the hull on each side. The topsides are finished in gelcoat with a choice of color, and a painted boot stripe and cove stripe are also available in a choice of color. Shestakov Yacht Sales

DECK

The Duchy features a molded GRP deck finished in white gelcoat, with the cabin top treated with non-skid. Synthetic laid teak graces the side decks, and synthetic teak caps the bulwark rails. A Quick Prince electric windlass is recessed into the foredeck beneath a hatch cover, with windlass controls both on the foredeck and at the helm. Double anchor rollers are built into the stainless stem fitting to accommodate the Bruce 44 lb (20 kg) stainless steel anchor, which is stowed with 100 ft of 10 mm galvanized anchor chain. Stainless double bow rails run aft to midships, and handrails on the pilothouse continue aft to the cockpit. Four Hawes cleats serve for bow and spring lines, with two fixed stainless bollard cleats with chocks aft. The deck equipment also includes four folding fender eyes, twin horn, a stainless ensign staff, a burgee flagstaff on the bow rail, and LED navigation lights.

COCKPIT

Duchy, a 2027 COCKWELLS Duchy 35 with an overall length of 37 ft, offers a generous cockpit exceeding 10 ft in length and a convenient walk-through transom door that opens to a swim platform for effortless swimming and

boarding from a dock, the area finished in synthetic laid teak. Two gloss-varnished cockpit tables come with protective stowage bags. Varnished bifold cockpit doors provide entry into the saloon. Twin aft L-settees feature Ultraleather upholstered cushions and backrests, with storage lockers beneath. The cockpit sole and coaming cap rails are finished in synthetic laid teak and synthetic teak, respectively. The varnished transom contains a mounted, flush laminated wood insert, and an aft lazarette is accessible via a hatch in the cockpit sole. A retractable stainless swim ladder and a Whale twist deck shower at the transom are included. A side door forward on the starboard side affords easy access to the side deck or a fixed dock, and there is a built-in boarding step in the hull on each side to assist side boarding. A pair of directors' chairs with matching upholstery, two waterproof speakers, a chrome Jabsco searchlight with helm controls, two 100 W solar panels, and drink holders are also fitted. Shestakov Yacht Sales

SALOON AND HELM

A single-level entry from the aft cockpit opens into the saloon and helm area, where a hinged, four-part concertina door opens outwards to merge indoor and outdoor spaces into one expansive flow. An electric sunroof with dual blind—privacy flyscreen and blackout—adds overhead flexibility. To port, a U-shaped dining area with an adjustable oak table features an aft section with a flip-backrest design that can face aft toward the cockpit, and a forward section that rotates and raises to form a raised forward-facing passenger seat. The saloon table lowers to convert to a berth and includes an infill cushion. A settee to starboard sits aft of the helm. Six storage drawers lie under the saloon seats—three to port and three to starboard—alongside a drawer fridge under the aft saloon seating. Upholstered seating is finished in Ultraleather fabric.

The interior benefits from excellent light and visibility in all directions, bespoke

solid oak trim and veneered surfaces with paneled locker fronts and dovetail-jointed drawers meticulously finished in semi-gloss two-part varnish, upholstered headliners, and teak and holly effect cabin soles. Audio and lighting systems comprise a Fusion Marine stereo with DAB and six speakers (two saloon, two forward cabin, two cockpit), LED courtesy lighting, spot lighting, reading lights, and down lighting controlled at the helm screen. Access provisions include an insulated lift-up hatch aft in the saloon to a separate area forward of the engine space and a lift-up hatch forward to a large storage area housing mechanical and electrical systems.

Helm station

A custom sliding helm door allows easy, quick access to the side decks. The helm features an adjustable seat and footrest forward to starboard, hydraulic steering, and two Raymarine upgraded Axiom XL16 touchscreens with multifunctional GPS chart plotter. Additional navigation and control equipment includes Raymarine autopilot, radar and AIS, a Raymarine 52 DSC VHF radio, an analog compass, and engine information and tank levels displayed on the helm display. Thruster and trim systems comprise a Vetus Bow Pro 24 Volt variable speed bow thruster with joystick control for twin Yanmars and Zipwake dynamic trim tabs. Remote connectivity is provided to a boat monitoring system via a web app (subscription required) and on-board Wi Fi with antenna and router (requires 4G SIM card). Bonded glass windows with an electric opening port forward, three wipers with washers and demisters, and drink holders complete the helm fit-out.

MECHANICAL SYSTEMS

The Duchy, a 2027 COCKWELLS Duchy 35 measuring 37 ft LOA, is propelled by twin Yanmar 8LV diesel engines, each rated at 350 hp, delivering a cruising speed of 24 knots and a light-ship maximum of 30 knots. Engine starting is via a key switch at the helm console, and each engine is equipped with a

dedicated AGM start battery. An electronic throttle and shift system governs operation, with stainless steel prop shafts mounted in bronze P-brackets within partial hull tunnels and protected by Ambassador rope cutters on both shafts. Composite stern tubes with water-cooled bearings and Tides Marine seals are fitted, and custom-designed bronze propellers provide maximum performance. Steering is hydraulic, driving bronze rudders.

Each engine features its own wet exhaust system with water-trap exhaust silencers. Fuel is stored in two aluminum tanks totaling 1,000 L (264 gallons) and interconnected with a balance pipe; Racor fuel filters with water separation are installed, and the fuel system utilizes marine-grade ISO flexible piping. Vetus raw-water intake strainers serve the cooling system.

Access to the engine space is via large twin hatches through the forward cockpit sole, each hatch assisted by gas struts; an automatic fire suppression system is installed. Fresh water is held in two Vetus tanks totaling 115 gallons and is delivered by a Johnson Aquajet electric freshwater pump, with an 8-gallon Quick Nautic water heater plumbed to the engines and shore power A/C. The black and gray water systems include a Tecma electric-flush toilet discharging to a Vetus 16-gallon holding tank that can be emptied overboard or by deck pump-out; galley and head sinks have gravity drains and the shower sump is pumped by a Whale electric pump. Bilge systems comprise two Whale automatic bilge pumps, forward and aft, with a bilge alarm, an emergency manual bilge pump in the cockpit, and a self-draining cockpit constructed to RCD requirements.

ELECTRICAL SYSTEMS

Duchy, a 2027 COCKWELLS Duchy 35 measuring 37 ft LOA, features a 12 Volt DC and 120 Volt AC electrical installation with a custom Empirbus 12V DC control system providing digital switching at the helm display. Power storage comprises five AGM 120Ah batteries arranged as two engine start, one

generator start and two house batteries, with engine alternators for charging. A Fischer Panda 8 kVA - 8000i generator is installed. The boat includes a 120 volt AC battery charger/inverter, a 120 Volt AC shore power system with ELCI protection, and a 120 volt/50 amp shore power inlet supplied with a 50’ shore cord. There are four USB charging sockets in the saloon/helm area, a 12 Volt DC socket in the lazarette hatch, and 120 Volt AC outlets throughout the vessel, including GFI-protected outlets in the galley and head. Battery isolators and combiners are accessible through the aft cockpit hatch.

Lighting includes swim platform lights; cockpit courtesy and deck head spotlights; saloon courtesy lights, reading lights and deck head spotlights; cabin courtesy, reading and wall lights; step courtesy lights; hanging locker and mirror light; and engine room and lazarette lights. Shestakov Yacht Sales.

ACCOMMODATIONS

Duchy, a 2027 COCKWELLS Duchy 35 measuring 37 ft overall, presents bespoke solid oak trim and veneered surfaces with paneled locker fronts and dovetail-jointed drawers, all finished in semi-gloss two-part varnish. Upholstered headliners and teak-and-holly-effect cabin soles enhance the interior, and air conditioning is installed throughout.

The galley sits to port aft and is partially open above to the saloon, providing generous storage and counter space. Fittings include a flush-mounted stainless sink with hot/cold faucet, a Dometic DC refrigerator (2 cu ft), a two-burner induction stove, and a microwave. Storage comprises three countertop cupboards above the stove, two drawers and a two-door cabinet beneath the stove, and two storage cabinets above the sink, together with numerous options for custom storage. An opening porthole with roller blind, overhead electric lights and a fire blanket are provided. A microwave oven and coffee maker are listed as optional.

A fully enclosed head is aft to starboard with full headroom. Appointments

include a solid surface counter with stainless sink, fresh water faucet with retractable shower head, Tecma electric toilet, a mirror with storage cupboard, storage lockers above and below the counter, and an opening porthole with roller blind.

The forward cabin is a private cabin with a large center double berth fitted with a double-spring split mattress and a built-in 2-inch memory-foam top (6 inches total height) plus a super-soft mattress topper. Custom bedding is provided: fitted sheet, mattress protector, duvet and cover, and two pillows with two cases. There is a drawer and storage bin under the hinged berth, Corian countertops outboard each side with storage beneath, storage lockers above the berth on each side, a hanging locker to port and a locker to starboard, and an upholstered headliner. Ventilation and light are provided by two opening portholes with roller blinds, two solar vents and a deck hatch; there is access to the anchor locker forward of the berth and two stereo speakers are fitted.

ADDITIONAL

Duchy arrived equipped with a USCG safety package and four fenders with custom covers, along with four dock lines. A Sunbrella Heather Beige tonneau cockpit cover and a cockpit bimini in Soltis 86 Horizon Pepper, mounted on two carbon poles, shield the cockpit, and exterior mesh/canvas covers are fitted for the wheelhouse windows. Tools are neatly stowed in a custom drawer, and the inventory includes a two-Yanmar 8LV spares package. A comprehensive owner’s manual containing guidance and schematics accompanies the yacht, together with a binder of user manuals and guides for all equipment. The vessel was built to the Recreational Craft Directive (RCD), Category B.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
