OVERVIEW

ADIOS CASH is a high-performance luxury center console that fuses exhilarating speed, refined style, and exceptional craftsmanship; impeccably maintained, fully turnkey, and available for immediate delivery. The open-plan arrangement is beautifully executed, with a forward-facing chaise, seamless SeaDek underfoot, and exquisitely tailored cushions that elevate both comfort and aesthetics. Concealed within the console, a substantial storage compartment houses a full-size head with shower, bringing real onboard conveniences for relaxed day trips or longer offshore passages. The boat offers versatile seating across an expansive deck, has been cared for on a lift, features an upgraded stereo system, and was fitted with a new Garmin autopilot remote in January 2026; additional equipment includes underwater lighting and a bow thruster for effortless close-quarters maneuvering. Routine oil changes are performed every 100 hours, propulsion is provided by quad Mercury 400R outboards delivering high-end performance, and U.S. duty has been paid.

DETAILED DESCRIPTION

Construction

Built with both the hull and superstructure in fiberglass, this yacht combines robust strength with lightweight agility to deliver a hushed, steady ride and assured performance. The choice of material offers natural resistance to corrosion and reduces maintenance demands, preserving the vessel's sleek, enduring profile.

Dimensions

Crafted with refined proportions that deliver both composure and presence, this yacht measures 37.17 feet overall (11.33 meters) with a molded beam of 11.50 feet (3.51 meters). A loaded draft of 2.50 feet (0.76 meters) and a deadrise of 22.00 degrees ensure confident seakeeping and nimble responsiveness. Range and autonomy are supported by a fuel capacity of 365 US gallons (1,382 liters), complemented by 65 US gallons (246 liters) of freshwater and a 30 US gallons (114 liters) holding tank. Performance is equally compelling: at maximum power she reaches 72.0 knots while consuming 48 US gallons per hour for a 120 nm range at 6,400 rpm; at a relaxed cruise she achieves 44.0 knots burning 22 US gallons per hour for 180 nm at 4,000 rpm; and at an economical setting she sustains 30.0 knots on 1 US gallon per hour, yielding a 225 nm range at 3,000 rpm.

Machinery

A quartet of Mercury 400R gasoline outboards, each producing 400 Hp and fitted with integral gearboxes, supplies the yacht's potent yet refined propulsion, delivering smooth acceleration and dependable performance.

Shore power is provided by a single 30 Amp connection at the starboard cockpit, while onboard electrical reserves consist of four Northstar 31 Group 12 V DC AGM batteries, supported by two additional 31 Group 12 V DC units dedicated to the bow thruster; all are kept in optimal condition by a Dual Pro PS4 four-bank 15 Amp charger. Guest cabin climate control is handled by a 120 Volt AC system to ensure comfort underway or at anchor. Precision close-quarters handling is afforded by a Side power five-blade plastic bow thruster paired with Mercury electric steering. Waste is managed by a Johnson 1000 GPH sump pump and freshwater is delivered at a steady 4.75 GPM. Propulsive thrust is carried through four four-blade SS15.25 x26 propellers running on roller and ball cutless bearings for quiet, reliable operation.

Communication, navigation and entertainment systems

At the heart of the yacht's communications is a Garmin VHF radio, ensuring clear and reliable ship-to-shore contact, while a Ritchie magnetic compass together with a Garmin autopilot provide assured, precise course-keeping. The yacht is comprehensively equipped with Garmin 8622 instrumentation throughout, configured in pairs for redundancy and performance: two Garmin 8622 units handle depth sounding; two Garmin 8622 units deliver GPS with a 48-mile capability; two Garmin 8622 units record speed; and two Garmin 8622 units function as fishfinders. Night and low visibility operations are enhanced by LED running lights and LED anchor lights, a Go light search light and two aft cockpit LED spreader lights. For onboard entertainment, a Fusion AM/FM/CD stereo supplies an elegant audio soundtrack.

Galley equipment

A single Isotherm refrigeration unit discreetly serves the galley, offering

dependable, energy-efficient cooling to preserve fresh provisions and keep beverages perfectly chilled.

Tenders & toys

Meticulously appointed with two in-gunwale rod holders, it keeps your fishing kit secure and immediately accessible while preserving a pristine, uncluttered deck that invites effortless leisure and graceful movement on the water.

Deck equipment

A Quick anchor windlass is fitted on the foredeck and can be operated either from the helm or directly at the unit, allowing precise, assured handling when dropping or recovering the stainless steel Delta plow anchor. The ground tackle is configured with a chain-and-nylon rode combination to marry excellent holding strength with necessary elasticity. A swim platform integrated into the transom provides effortless access to the water, while the overhead hardtop Bimini offers dependable shade and shelter whether underway or at anchor.

Fire fighting and safety equipment

Every safety system aboard has been specified to provide assurance and swift control in any situation at sea: a dedicated fire pump feeds washdown outlets in the aft cockpit to port and starboard, while two dry chemical fire extinguishers are strategically mounted at the base of the helm seat for immediate access. An electric engine shutdown system adds a rapid-response layer of protection, and below decks three electric, automatic Rule 3700 bilge pumps with auto switches manage water ingress with reliable, unattended operation. Complementing the installed systems are four Type II life jackets,

Orion flares for visual signaling and a well-stocked first aid kit, together underscoring a comprehensive approach to onboard protection.

Accommodations

Crafted for understated luxury and comfort, the interior accommodates up to two members of the owner's party within a single, elegant cabin, accompanied by one thoughtfully appointed head to complete the living quarters.

Comments

ADIOS CASH is a high-performance center console designed to marry speed, sophistication and impeccable construction, presented in turnkey condition and meticulously maintained for immediate use. This 2021 Midnight Express 37 Open is distinguished by its tastefully coordinated dark-silver exterior accents and formidable performance, capable of topping out near 80 mph and settling into a comfortable cruise in the 40+ mph range — fast enough for an effortless run to the Bahamas in under an hour. The open-plan deck is intelligently arranged, featuring a forward-facing chaise lounge, SeaDek flooring throughout and luxuriously upholstered seating, while the console conceals generous storage plus a full-size head with shower, offering genuine practicality for day trips or longer excursions. The current owner has taken delivery of a new vessel and is motivated to move this 37 Midnight Express to its next owner.
