## OVERVIEW

---

The 2018 Bonadeo 37 WACC is an uncommon synthesis of bespoke craftsmanship and high-octane capability, a refined walkaround center console that transforms every offshore passage into an occasion. Built in the United States and finished in fiberglass/composite with a composite deck, this 37 footer carries the intimacy and finish of a custom boat while answering the demands of serious seafaring with confidence.

Propelled by triple Mercury outboards, the Bonadeo reacts with immediate throttle response and exhilarating acceleration, settling into an effortless cruise near 40 knots and opening up to a top speed approaching 60 knots. A generous 400 gallon fuel capacity gives the 37 WACC the range to pursue distant horizons or serve as an elegant superyacht tender, and the 10 foot beam contributes to a planted, composed ride. The yacht's balanced hull form turns raw power into poise and precision, instilling remarkable driver confidence in chop or flat water alike.

Aboard, the walkaround layout reads as both luxurious and wholly functional: unbroken circulation fore and aft, welcoming lounging areas for long runs, and a helm conceived for clarity and control. The finish quality—clean joinery, premium surfaces, and purposeful detailing—reflects Bonadeo's boutique ethos, while practical comforts below the console include a well appointed head and a 50 gallon freshwater supply to keep extended days afloat as comfortable as they are exciting.

From dawn patrols to sunset cruises, this Bonadeo adapts with grace, equally at home as a high performance center console for offshore pursuits or as a sophisticated dayboat for effortless entertaining. Its outboard power, composite construction, and elegant walkaround deck plan articulate a single mission: deliver a fast, quiet, and confidence inspiring experience with the polish of a custom build. For owners who demand the difference between fast

and flawlessly fast, between capable and truly offshore ready, the 2018 Bonadeo 37 WACC stands apart—an ideal choice for Center Console, Walkaround, Offshore Sportfish, High Performance Dayboat, or refined Superyacht Tender roles.

# DETAILED DESCRIPTION

---

## Main description

---

Effortless, a 2018 Bonadeo Boatworks 37' walkaround center console, pairs timeless lines with genuinely athletic performance, presenting low hours and a thoughtful balance between family comfort and fishability; classic Bonadeo craftsmanship, modern systems and offshore poise combine to create a boat ready for an owner with the time to enjoy her on day trips or extended passages.

## Systems and equipment

---

Effortless is comprehensively outfitted for confident, refined boating, with handling and utility enhanced by a bow thruster, fresh and raw water washdowns and a fresh water head with a backup raw water valve; two two thousand GPH bilge pumps with a high water alarm and Lectro Tab trim tabs support safe sea manners while a central drain system and Mercury Verado power steering add everyday convenience. Power management is robust, with seven AGM batteries—three dedicated to the engines and four to the house systems supporting the A/C—monitored through an electric panel with a spark suppression enclosure and maintained by a ProNautic battery charger. The helm area is richly executed in teak, from the teak helm and a teak topped helm seat with integrated rod holders and cup holders to teak toe rail, teak covering boards and teak coaming, and the faux finished teak interior theme ties the whole vessel together. Fishing features are extensive: a transom livewell estimated at fifty gallons, an in deck fish box of approximately 17.5 cubic feet with pump out, a second in deck insulated compartment that can be plumbed as a livewell, six no bolt rod holders on the aft side of the helm seating, two electric reel outlets, a Rupp outrigger system

with 18' Rupp outriggers, and Racor fuel/water filter-separators. Comfort and convenience flow bow to stern with a stainless rub rail, a custom internal mount tow bitt, a custom tackle center and bar storage at the aft helm seat station with two side tackle stations integrated into the helm seating, a granite wet bar with bamboo cutting boards and an insulated transom compartment sized for a garbage can. Access is effortless via a transom door and a Garelick swim ladder installed in the hull with a fresh water flush system, while rear bilge custom storage and the Bonadeo® engine fresh water flush system simplify upkeep. The hardtop integrates LED running lights and a curved hard enclosure by Canvas Designers, the pipework by Bausch American is finished in Imron, and all lighting systems are LED, including refined under gunwale illumination. Protection at rest is complete with a helm seat cover, helm cover, a full boat cover and an aft sunfly with carbon fiber poles.

## Interior

---

Below, the interior is thoughtfully executed for overnighting and respite between runs, with a day head supplied by fresh water and a raw water backup that complements a faux finished teak ambiance over Amtico flooring; the queen berth invites proper rest, a 12 volt A/C keeps the space temperate, and a fresh water sink is set into an underlit granite countertop for a refined touch. For quiet operation and easy serviceability, all pumps and machinery, including the batteries, are housed in separate pump rooms.

## Electronics main helm

---

At the main helm, precision and entertainment converge around a suite centered on a Garmin 8624 touchscreen paired with a Garmin 7608 and managed via Garmin GRID, augmented by a Garmin open array 6 kW radar, a

1 kW CHIRP transducer, an Airmar bottom sounder and Garmin autopilot with Sirius Weather integration to deliver confident navigation and situational awareness. Communications are handled by a Standard VHF with remote microphone, a digital VHF antenna and a digital AM/FM antenna, while the audio experience is powered by a remote mounted Fusion stereo feeding six JL Audio 8.8" marine speakers, two JL Audio 1" tweeters and two JL Audio 12" marine subwoofers through two JL Audio MHD 600/4 digital amplifiers and a JL Audio MHD 750/1 amplifier, with Sirius satellite stereo capability available. SeaBlaze X underwater lights elevate the mood at anchor, a flush mount electronics display keeps sightlines clean and offers secure storage for phones, and convenience is rounded out by remote battery switches and engine keys.

## Exclusions

---

Owner's personal belongings are excluded from the sale.

## Mechanical disclaimer

---

Engine and generator hours are stated as of the date of the original listing and reflect information provided to the listing broker by the owner and/or the actual readings of the hour meters; the broker cannot guarantee the true hours, and it is the sole responsibility of the purchaser and/or his agent to verify engine hours, warranties implied or otherwise, major overhauls and all other representations noted in the listing brochure.
