## OVERVIEW

---

The 114.2-metre expedition yacht LUNA, built by Lloyd Werft in Bremerhaven, Germany, presents an arresting silhouette conceived by Newcruise with interiors by Donald Starkey. Having undergone a substantial refit in 2015/16 and now in the midst of another comprehensive renovation, she combines classical luxury with up-to-date refinement. Her ice-class hull and diesel-electric propulsion lend her an adventurous spirit and stout capability, marking her among the world's most distinguished luxury yachts.

LUNA accommodates up to 18 guests in nine sumptuous suites, served by a complement of up to 51 crew members to ensure attentive, seamless service. Onboard pleasures are many and varied, from a dedicated dancefloor and cinema to a beauty salon, beach club, fully equipped gym and a deck jacuzzi; connectivity is assured with Wi-Fi and satellite communications.

Built with a robust steel hull and an aluminum superstructure, she cruises comfortably at 16.8 knots and can reach a top speed of 22 knots, while an impressive range of 9,500 nautical miles enables extended voyages. Four zero-speed stabilizers ensure exceptional comfort whether underway or at anchor.

For those exploring yacht sales in the vessel's current location, LUNA represents a rare chance to acquire a yacht that marries refined elegance with true expedition capability.
