OVERVIEW

Savor a new standard of refined performance aboard the 2026 Cruisers Yachts 38 VTR (Stock #218726), now on display at MarineMax Lake Lanier. Propelled by twin Mercury V10 400HP outboards with electric steering and Mercury Joystick Piloting, this striking express cruiser delivers brisk acceleration, precise slow-speed handling, and exceptionally intuitive docking—transforming every harbor arrival into a composed, confident experience. Cloaked in a dramatic full-black hull with coordinating black aft deck shade and black lounge seat covers, the 38 VTR effortlessly bridges spirited day runs with comfortable weekend retreats, offering yacht-level appointments alongside true outboard performance.

A sophisticated electrical backbone enhances autonomy and comfort: the Fathom e-Power system provides an 11KW 120V platform supported by two lithium ion batteries, quietly powering hotel loads for extended outings. The helm is a contemporary glass-bridge environment with twin 15-inch Simrad Ultrawide displays for crisp charting and systems monitoring, complemented by a Simrad US VHF for reliable onboard communications. The forward cabin is air-conditioned via a 120V/60Hz climate system, presenting a cool sanctuary below decks, while cockpit conveniences such as a 120V electric grill and the included Yeti cooler underscore the model's aptitude for entertaining.

Mechanical and systems refinement extend throughout the boat. The Mercury V10 powerplants are equipped with a Reverso engine flush system for simplified maintenance, and waste systems include a macerator with overboard discharge plus a centrifuge head with holding tank to manage longer passages. Maneuvering is enhanced by responsive electric steering paired with Joystick Piloting, giving the operator fingertip control in tight marinas or at the sandbar while preserving a tranquil onboard environment for guests. At anchor, a windlass with galvanized anchor, chain, and line and an

anchor washdown system make setting and retrieving ground tackle effortless and clean.

Deck amenities have been curated to balance function and ambiance: a transom shower and freshwater cockpit washdown keep everyone refreshed, while a light bar, tow bar, and underwater lights increase versatility after sunset. Integrated rod holders broaden the boat's appeal to anglers, and the Yeti cooler ensures provisions remain chilled throughout the day. Interior appointments reinforce the 38 VTR's dual-purpose nature; the forward cabin's warm wood flooring and 120V refrigerator create a welcoming overnight refuge, and the foredeck Simtex taupe table with filler cushion converts readily from al fresco dining to a generous sun pad. Seating is executed in complementary Simtex gray tones, including a gray Simtex lounge with built-in storage and an open seating arrangement that maximizes social flow.

The cockpit fosters conviviality with a robust table, a 120V lounge refrigerator, and Gray Open Marine Mat flooring that combines a premium look with a soft, slip-resistant surface underfoot. The helm's twin 15-inch Simrad Ultrawide displays provide a panoramic, high-contrast presentation of navigation, engine, and system data, while a premium stereo system supplies high-fidelity sound whether you're cruising fast or lingering for the sunset. Trades are welcomed—boats only—offering flexibility for owners looking to move into this elevated performance dayboat.

Purchasing through MarineMax includes thoughtful ownership benefits: your 38 VTR will be delivered with a full tank of fuel and a Go Boating Gear kit stocked with essential safety items, and streamlined financing and insurance options simplify acquisition. Ongoing ownership is supported by convenient online service scheduling, expert-led classes and seminars to build confidence at the helm, and access to a vibrant community with exclusive Getaways! trips and curated customer events that turn outings into lasting memories. Available now for demo rides at MarineMax Lake Lanier, the 2026 Cruisers

Yachts 38 VTR (Stock #218726) fuses contemporary style, commanding outboard power, and resort-style amenities into a single, compelling luxury sport cruiser.

DETAILED DESCRIPTION

Included options

Twin Mercury V10 outboards, each producing 400 hp and finished in black, provide the yacht's propulsion and are fitted with electric steering, while a joystick piloting system delivers precise, effortless maneuvering. The helm is appointed with dual 15 inch Simrad Ultrawide displays complemented by a Simrad VHF radio (US) and an upscale stereo package to enhance both navigation and onboard entertainment. The full hull is presented in black, matched by black lounge seat covers and a black aft deck shade, while forward arrangements feature a bow table with a Simtex Taupe filler, Open upholstery in Simtex Gray and a gray Simtex lounge with storage, alongside a versatile cockpit table. Interior comfort is elevated by wood flooring in the forward cabin and a gray Marine Mat in the Open layout. Electrical and climate systems are supported by a Fathom 11 kW, 120 V installation with two lithium ion batteries, supplying a 120 V/60 Hz air conditioning system for the forward cabin and aft berth, a 120 V electric cockpit grill, a 120 V lounge refrigerator, and a 120 V forward cabin refrigerator. Sanitation and deck systems include a centrifuge head with holding tank and a macerator with overboard discharge, an anchor washdown, a fresh water cockpit washdown, a Yeti cooler, a Reverso engine flush system for the V10s, and a transom shower. Additional exterior equipment comprises a light bar, a tow bar, underwater lights, rod holders, and a windlass with galvanized anchor, line, and chain.

Additional specifications

Official registry details show a seating capacity of zero and a freeboard of zero feet, with the vessel's electrical circuit voltage recorded as zero. Fitted with an electric windlass to ease anchoring operations, the safety inventory lists a

liferaft with a capacity of zero. The hull is defined by a deadrise at the transom of zero degrees and the displacement is identified as dry load, while the tax country for regulatory purposes is stated as US.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
