OVERVIEW

This 2024 Wajer 38 S is a striking example of Dutch-build refinement and contemporary design, pairing meticulous craftsmanship with effortless performance; driven by twin Volvo Penta IPS 650 diesel units, she combines brisk acceleration, strong fuel efficiency and refined, quiet operation, with intuitive joystick handling that makes close-quarters maneuvering and docking remarkably simple. At approximately 38 feet 10 inches overall, her low, athletic silhouette and deep-V hull deliver a poised ride and versatile capability, equally suited to luxury day runs, Bahamas passages or service as an elegant superyacht tender; engineered for exhilaration, she reaches a top speed near 48 knots and settles comfortably at an economical 28-knot cruise. The deck plan emphasizes sociable entertaining and seamless movement, with generous cockpit lounges, wide walkaround side decks and premium finishes from bow to stern, while abundant stowage and thoughtful circulation enhance everyday usability. Belowdecks the cabin is a calm, well-appointed retreat with true overnight accommodation, giving the 38 S more flexibility than a typical center-console or open dayboat in this segment. The Volvo Penta IPS propulsion provides a decisive advantage over conventional shaft or sterndrive arrangements, delivering responsive thrust, reduced noise and straightforward handling for both experienced skippers and newcomers. With approximately 193 gallons of fuel capacity, 53 gallons of freshwater and an estimated cruising range of about 250 nautical miles, she is prepared for island hopping, coastal passages and high-end day cruising without compromise. Exquisitely built, highly capable and unmistakably stylish, this 2024 Wajer 38 S with the desirable Volvo IPS 650 package represents a rare opportunity to acquire a late-model premium dayboat that performs as beautifully as it presents.

DETAILED DESCRIPTION

Standard factory specifications

Driven by twin Volvo Penta IPS units with intuitive joystick control, the yacht places the helm at the heart of a refined center-console cockpit, delivering effortless handling and pinpoint maneuverability. The cockpit is anchored by a minimalist Wajer dashboard crowned by a pair of flush-mounted touchscreen displays that unify the onboard infotainment and give fingertip command of essential systems, from audio to anchor deployment. The helm benefits from sculpted Wajer carbon-shell navigation seats mounted on full suspension for supreme support and poise, while an integrated, helm-operated anchor mechanism makes setting and retrieving the anchor straightforward.

Immediately aft of the captain's chairs a sophisticated wet bar is thoughtfully appointed with a sink, fridge, waste bin and dedicated storage compartments. The teak-like deckscape is kept immaculate by lowered, flush cleats recessed into the gunwale and multiple concealed lockers, including bespoke spaces sized for water toys and paddleboards. Within the center console a discreet day head houses a toilet and additional storage to enhance comfort on extended cruises. A generous aft platform frames access to the water and features an exterior shower on the swim platform to simplify stern and side boarding, complemented by a removable boarding pole. Premium Wajer deck finishes and materials are applied throughout the yacht's interior and exterior atop a robust GRP composite structure, a construction approach that provides the versatility to perform as a luxurious dayboat, a high-performance chase boat or an elegant superyacht tender.

Upgraded engine package

Powered by twin Volvo Penta IPS 650 diesel engines, the Wajer 38 S combines

exhilarating performance with refined efficiency and sublime handling. Each unit produces 480 hp, yielding a combined 960 hp that propels her onto the plane with immediate authority, settles into a serene 28-knot cruise and can reach a top speed of approximately 48 knots. The Volvo IPS architecture elevates every nautical mile with pinpoint maneuverability, lower vibration levels, improved fuel consumption and an intuitive joystick for docking, so negotiating marinas, tight channels and berths becomes effortless and composed. This enhanced diesel package is a signature specification, providing the brisk acceleration and assured confidence expected of a premium Wajer while retaining the proven reliability and global service support of Volvo Penta.

Living the dream

The Wajer 38 S turns every outing on the water into an extraordinary experience; whether you are gliding through the Florida Keys, making the crossing to the Bahamas for a long weekend, dropping anchor beside a secluded sandbar or making a stylish arrival at a waterfront restaurant, she epitomizes the essence of luxury boating. Swift, refined and remarkably easy to handle, she grants the freedom to explore shallow turquoise shallows, hop between islands with family and friends or simply savor a sunset cruise in absolute comfort. Few craft marry performance, design and lifestyle as effortlessly as a Wajer, and this 38 S is an ideal companion for South Florida and Bahamian escapes.

Tender capabilities

The Wajer 38 S has been conceived as a premium superyacht tender and chase boat, combining refined Dutch lines, a meticulous high-end finish and a full walkaround deck layout with the authority of the Volvo IPS 650 diesel package. She provides the style, performance and practical versatility required alongside

a larger yacht, excelling at guest transfers, beach landings, watersports support, lunch runs and provisioning trips, or simply extending the mothership's cruising range in complete comfort. Easy boarding, generous seating and excellent storage are matched by intuitive joystick maneuverability, making her an exceptionally capable tender, while the distinctive Wajer profile ensures she appears every bit as elegant as the yacht she serves.
