OVERVIEW

Powered by four Mercury 350 Verado outboards and fitted with Seakeeper gyro stabilization and joystick control, this 2020 Scout 380 LXF elevates the idea of a high-performance luxury center console. Built upon Scout's epoxy-infused, carbon-reinforced, twin-stepped hull, she marries thrilling speed, extended range, and razor-sharp handling with the soft-touch comforts and exacting workmanship for which the brand is celebrated. Freshened in 2025 and outfitted with a comprehensive suite of factory and premium aftermarket upgrades, the boat is truly fully loaded—equally capable of rigorous offshore sportfishing and of refined coastal cruising. Every line speaks to thoughtful design and purposeful power, making this Scout a standout among Center Console, Sportfishing, and Luxury Powerboat offerings. A 2021 Magic Tilt trailer is included.

DETAILED DESCRIPTION

Recent 2025 improvements

Meticulously refreshed for the season, this yacht arrives in showroom condition after a series of thoughtful 2025 updates: the engines were professionally repainted in September 2025 to enhance longevity and presentational polish, new upholstery was installed throughout in October 2025 to elevate every touchpoint, and the exterior received a complete ceramic coating with a full detail that seals in a radiant, low maintenance gloss from bow to stern.

Power and performance

Quad Mercury Verado 350 HP outboards from 2020 deliver commanding thrust with a combined output of 1,400 HP and approximately 551 engine hours recorded, allowing you to settle into a confident rhythm at a comfortable cruise of 38 knots and unleash a thrilling 60 knots at the top end; an estimated range of 316 nautical miles opens horizons without compromise, while precision dockside control comes courtesy of the Mercury joystick with SkyHook positioning to hold station at the touch of a button.

Electronics and navigation

Take command with three Garmin 7616xsv multifunction displays harmonized to a Garmin xHD2 open array radar, supported by a Garmin autopilot system and a Garmin VHF 315 for clear, reliable communications; a bow mounted thru hull camera and a dedicated anchor camera extend situational awareness in close quarters, while a hardtop mounted spotlight pierces the night and heated helm seats keep the captain comfortable in all conditions.

Comfort, stability, and innovation

Seakeeper gyro stabilization dramatically calms the ride, transforming offshore passages into composed, confidence-inspiring travel, while air conditioning at the helm and in the cabin maintains perfect climate control underway or at anchor; an electric SureShade retractable aft awning casts cool shade over the cockpit and a hydraulic port-side beach platform finished in synthetic teak lowers you to the water with effortless elegance, complemented by a hot and cold transom shower and an integrated onboard hot water system for complete convenience.

Entertaining & exterior amenities

Entertaining flows naturally with convertible mezzanine seating facing a fully equipped Kenyon grill, sink, and prep station, while the leaning post integrates a built-in refrigerator and ice maker to keep refreshments perfectly chilled; forward, an expansive sun pad pairs with wraparound bow seating for sociable lounging underway or at anchor, and a premium Fusion / JL Audio sound system elevates every moment with immersive clarity through ten speakers, two subwoofers, and two amplifiers.

Fishing features & deck hardware

Purpose-built for the chase, Taco 380XL outriggers with twenty-foot carbon fiber poles spread a flawless pattern and are complemented by retractable rocket launchers for instant readiness; a one-hundred-gallon aerated livewell keeps bait lively, while port and starboard in-deck fish boxes totaling 92 gallons swallow the day's catch with ease, and a transom door with a walk-through swim platform plus an Armstrong dive ladder simplify water access as abundant rod storage keeps the deck organized and fast to rig.

Cabin and accommodations

Below, a fully enclosed private head with shower and vanity brings residential comfort, paired with a convertible queen berth measuring six feet five inches in length that transitions from day lounge to a restful night's sleep; climate is assured by 12,000 BTU cabin air conditioning, while a microwave and glass cooktop, a drawer style refrigerator, and a 32 inch LED television enrich extended stays, all accented by thoughtful LED lighting and stainless steel trim that frame the interior in sophisticated warmth.

Electrical & systems

Confidence offshore starts with an eight kW diesel generator fed by a dedicated fuel tank and a CZONE digital switching system that centralizes control, while a fifty amp shore power connection keeps onboard services humming at the dock; robust AGM house batteries with dual battery chargers provide dependable reserves underway, and multiple AC and USB outlets distributed throughout the yacht offer effortless power for devices wherever you relax.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
