OVERVIEW

FREEDOM is a pristine 2023 Pardo 38-foot walkaround, maintained under full yacht management with a dedicated captain and showing the lightest of use after cruising the turquoise waters of Miami and the Bahamas. This elegant sport yacht and express cruiser draws the eye with bespoke red Pardo upholstery and carefully chosen upgrades, blending striking style with practical refinement. Configured as a luxurious dayboat that readily serves as a weekend cruiser, she offers comfortable accommodations for four and a thoughtfully appointed head, while a sleek T-top with a retractable bimini delivers effortless shade. Propulsion comes from twin Volvo Penta D6-380s with approximately 160 hours, underscoring her near-new condition. Complete service records accompany the boat, with the most recent scheduled maintenance carried out in October 2024, providing true turn-key assurance. With a motivated seller inviting offers, this is a rare chance to acquire a high-end, like-new powerboat equally at home as a chic luxury tender or offshore performance cruiser, available for viewing with 24 hours' notice at Venetian Marina in Miami Beach.

DETAILED DESCRIPTION

Interior highlights

Step aboard to discover one generous master cabin with a double bed complemented by an additional guest cabin offering two single berths, creating a restful haven for family or friends. Freshwater comforts abound with a separate shower and toilet, while the interiors—crafted in elegant oak—are finished in high-quality materials that welcome natural light and invite a constant, soothing breeze through thoughtful ventilation. Practical touches include a dedicated 110V socket in the galley area for effortless appliance use, ensuring everyday convenience matches the yacht's refined aesthetic. A curated decorative custom collection elevates life on board: a dining set for six, wine glasses for six with a matching opener, two handsome baskets for towels and shoes, and six accent embroidered pillows proudly bearing the Pardo Yachts logo. This is interior living designed to feel calm, beautifully detailed, and unmistakably premium.

Exterior highlights

On deck, an electric trefoil anchor system watched over by a dedicated camera makes arrivals and departures reassuringly precise, while the custom exterior upholstery in sophisticated Melon with crisp black piping sets a striking tone under the black carbon T-Top. Confident handling comes courtesy of a gyro stabilizer and joystick, ZipWake automatic trim tabs, and a bow thruster, with the salt/fresh water head selector adding welcome flexibility for every outing. Courtesy LED lights wrap the deck in an inviting glow, underwater LED lights dramatize the waterline at night, and a comfortable bathing ladder with secure handles makes every swim easy. An extensible electric bimini nested within the T Top unfurls shade at the touch of a button, and the upgraded Florida

air conditioning package keeps the ambiance cool and composed. The oak interiors harmonize beautifully with the exterior finishes for a unified, upscale feel. Among the upgraded options, you'll appreciate the synthetic teak deck underfoot; a cockpit table with electric hi-lo movement and cushion; two extra fridges neatly integrated into the aft seat bench; exterior Silvertex upholstery in red for a bold alternative look; additional cushion piping for a tailored finish; and a bow awning supported by a carbon removable pole for effortless sun protection. Rounding out the specification, the South Florida Mechanical Kit brings upgraded bronze raw water strainers and an upgraded Racor generator fuel system for enduring reliability in warm, demanding conditions.

Engine electrical

Power on tap begins with a Fischer Panda 6 kW generator showing approximately 160 hours, delivering quiet, dependable energy offshore. Propulsion is equally robust: two Volvo Penta IPS D6-380 engines with 150 hours as of 03/2025 provide smooth, efficient performance, further refined by a Volvo joystick, a gyroscopic stabilizer, and ZipWake trim tabs for crisp control in all sea states. The upgraded electrical system increases endurance and convenience with a battery set boosted to two 90 Ah paired to a 60 Ah charger, and the same Fischer Panda 6 kW generator anchors the onboard power ecosystem. Comfort and entertainment are fully addressed with air conditioning and underwater LED lights, while communications and navigation benefit from an upgraded Garmin VHF315i. Entertainment steps up via an upgraded 24" LED flat TV with DVB-T antenna and the upgraded UNI-DOck High Performance Package, featuring a FUSION MS-UD755 FM Radio/Uni-Dock, FUSION SG-DA51600, JL-AUDIO 7, a powerful five-channel amplifier, dedicated internal speakers in the master cabin with NRX-30 remote control, and a pair of external speakers complemented by a high-quality aft subwoofer that carries rich sound throughout the deck.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
