OVERVIEW

The 2005 Cigarette 39 Top Gun Unlimited "On Your Mark" is a pure expression of go fast performance, engineered to deliver exhilarating velocity with absolute control. Propelled by twin Mercury 525 EFI engines producing 525 hp apiece and further sharpened by Whipple ECU reprogramming, she offers formidable offshore thrust paired with precise throttle response. Hand laid, reinforced fiberglass forms a deep V hull that keeps the boat planted and confidence inspiring at speed, a testament to Cigarette Racing Team craftsmanship that places her equally at home in Power Yacht, Offshore Racing Boat, and Sport Yacht company.

Recent thoughtful updates give this thoroughbred a modern, usable edge without compromising its racing DNA. New Mercury SmartCraft gauges and an updated Garmin GPS suite bring contemporary electronics and readouts to the helm, while renewed cockpit soft goods and tasteful interior detailing refresh the onboard environment. Underfoot, all new SeaDek provides improved traction and a clean, current aesthetic. Mechanical and cosmetic attention extend to both vessel and trailer: fresh stainless steel headers have been fitted to each engine, three complete prop sets are included, and transom mounted underwater lighting enhances her presence in port and at anchor.

The trailer has been comprehensively upgraded for reliability and ease of use. Wheel, tire, bearing, and seal replacements combine with Myco triple axle trailer enhancements — new tires and carpeted bunks — to deliver a ready, well supported transport solution. Meticulously maintained and tastefully updated, "On Your Mark" presents as a sharp, high performance offshore sportboat ready to run.

DETAILED DESCRIPTION

Vessel walkthrough

Stepping aboard the 2005 Cigarette Top Gun Unlimited On Your Mark, you're met by the seamless union of sleek aesthetics and purposeful ergonomics, where supportive bolster seats at the helm hold you firmly and comfortably underway and a matching companion seat assures the crew can savor the ride beside the captain. Just aft, a bench with generous under-seat storage swallows gear to keep the cockpit orderly and ready for action while a lockable sliding door forward grants entry to the cabin, where well-kept white vinyl upholstery, LED lighting throughout, and SeaDek flooring combine to create a space that looks sharp, resists wear, and is effortless to maintain, all while feeling open, bright, and inviting. Updated electronics in the cockpit immediately draw the eye, highlighted by a Garmin GPSmap 5208 that delivers large, easy-to-read navigation and chart-plotting complemented by a Lowrance depth gauge for instant depth awareness, and the helm's intuitive layout promotes smooth, confident handling. Upholstery across the cockpit presents in excellent condition with no visible wear or fading, underscoring diligent care and upkeep, and with thoughtful upgrades and standout features On Your Mark is equally prepared for thrilling offshore runs and unhurried cruises, balancing top-tier performance with comfort for every passenger whether in the cockpit or below deck.

Notable upgrades

This vessel has benefited from a comprehensive program of enhancements that elevate both technology and performance, beginning with newly installed Mercury SmartCraft gauges paired with a new Garmin GPS to sharpen situational awareness at the helm while Whipple ECU upgrades on both

engines refine power delivery and response. Performance options are expanded with three full sets of props included to tailor acceleration and top-end to conditions and preference, and electrical resilience is strengthened by new batteries and a Pro Tournament 200 dual charger. Deckwear has been refreshed with SeaDek throughout for traction, durability, and easy care, and trailering confidence is bolstered by upgrades including new wheels, tires, bearings, and seals; the Myco triple-axle trailer itself has received new tires and carpeted bunks to protect the hull. Mechanical performance is complemented by new Hardin Marine Headers on the engines, and underwater lights mounted on the transom add a striking presence after dusk.

Hull

Purpose-built for speed and composure, the hull delivers excellent stability at high velocity with premium detailing and a striking finish, constructed in a deep-V, stepped form from fiberglass reinforced plastic and presenting in excellent condition with no noticeable scratches or structural concerns. Pop-up stainless-steel cleats maintain a clean deck profile and readiness for action while a bolt-on swim platform enhances usability at the transom, and moisture readings taken from the hull surface indicate a dry, solid structure. The blue-and-yellow striping complements the boat's bold aesthetic and underscores the meticulous presentation of the exterior.

Interior & accommodation

Bright, efficient, and thoughtfully arranged for dayboating, the cabin invites with modern comforts and ample storage, where marine air conditioning provides reliable climate control and cabin lighting is powered by the 12 V system with LED illumination extending throughout both the cabin and cockpit. White vinyl upholstery maintains a crisp, contemporary look while SeaDek

flooring adds durability underfoot and simplifies care, and a full head enhances convenience during longer outings with white vinyl cushions delivering comfortable seating supported by stowage that is generous and intelligently placed to keep personal items and gear organized.

Electronics

Advanced onboard electronics deliver trustworthy navigation and rich entertainment, anchored at the helm by a Garmin GPSmap 5208 that pairs with Mercury SmartCraft gauges to present navigation, engine data, and charts on large, legible displays. The audio system has been comprehensively upgraded with all new JL Audio marine speakers and subwoofers driven by three JL Audio amplifiers, while a Fusion head unit with a separate dash-mounted Fusion remote grants seamless command from the driver's seat, and for added leisure a Samsung flat-screen TV brings entertainment aboard when the day's run is done.

Mechanical equipment & engine

Meticulously maintained and recently refreshed, the powertrain ensures the performance pedigree you expect from a Cigarette, propelled by twin Mercury HP 525 EFI engines, each producing 525 HP, which were rebuilt or replaced simultaneously and fitted with new Hardin Marine Headers and upgraded with Whipple ECU systems. These engines have approximately one hundred hours of runtime since the updates and are raw-water cooled with cooling system hoses and clamps recently renewed, while K-plane 18"x14" trim tabs contribute to confident attitude control and stability at speed. Further service updates encompass drives, gimbals, bearings, U-joints, and pumps, and the propulsion package is complemented by three sets of props to fine-tune acceleration and top-end to the owner's preference.

Electrical system

Designed for dependable power delivery, the electrical suite integrates both DC and AC capability with a 12 V DC system alongside a 30/125 V AC system, batteries secured within the engine compartment and managed via two CH rotary-type battery switches for straightforward isolation and control. Circuit protection is provided by push-in breakers and a Pro Tournament 200 dual battery charger maintains optimal charge levels, while wiring is cleanly routed and clearly labeled, underscoring a system that is organized, accessible, and ready to support every onboard need.
