## OVERVIEW

---

LIO KAI (SEA HORSE) presents itself as a beautifully maintained cruiser, held in ownership by an LLC and embodying the fine qualities of her class. She offers comfortable sleeping accommodations for up to four guests, inviting intimate cruises and restful nights aboard. Propelled with a cruising speed of 22 knots and capable of reaching a top speed just shy of 30 knots, she will swiftly carry you to chosen harbors and hidden coves. A bow thruster enhances her stability and simplifies handling, permitting anchoring and precise maneuvering directly from the helm station. Numerous modern upgrades ensure she is fully equipped and ready for your adventures. Explore yacht sales in the current boat location and seize the opportunity to buy a yacht that marries luxury and performance seamlessly.

# DETAILED DESCRIPTION

---

## Accommodations

---

Step aboard this exquisite yacht through the transom door, conveniently accessed from the swim step, and enter a cockpit designed for relaxation and conviviality, with space for a couple of deck chairs alongside the built-in seating. A short rise of steps brings you into a fully enclosed helm area, protected by durable canvas and clear Isinglass to shelter you from the elements while preserving excellent visibility; the helm station sits to starboard and is fitted with all controls necessary for effortless operation. To port and aft additional seating and a table create an inviting spot for light meals or casual gatherings. Descend a couple more steps into the welcoming salon where the U-shaped galley to port offers a practical workspace for meal preparation, opposite which to starboard the dinette provides comfortable dining and socializing. The head and shower are conveniently positioned to port, while storage is thoughtfully integrated to starboard as you progress toward the forward V-berth, a layout that maximizes every inch of space to ensure comfort and functionality for extended stays aboard.

## Galley

---

The galley is thoughtfully appointed to serve all culinary needs at sea, featuring a 110V refrigeration system large enough to keep provisions fresh, a three-burner electric stove that allows versatile cooking from simple breakfasts to gourmet dinners, and a microwave oven for quick heating and defrosting. An 11-gallon water heater ensures a reliable supply of hot water for cooking and cleaning, while a single stainless steel sink provides both elegance and practicality to make meal preparation and cleanup effortless. This well-equipped galley blends functionality with comfort so you can enjoy every

meal aboard without compromise.

## Electronics and navigation

---

This yacht is fitted with a comprehensive electronics suite to ensure safe, informed and confident passages, including speed and distance logs that keep you apprised of progress and a depth sounder that provides vital underwater information. The autopilot permits hands-free navigation supported by a reliable compass to maintain course, while the GPS and chart plotter offer precise positioning and route planning and the radar enhances situational awareness by detecting nearby traffic and obstacles. Communication is provided by a VHF radio to stay in contact with other vessels and shore stations, and instruments such as a clock and barometer assist in monitoring time and weather. Additional practical indicators include a rudder angle indicator and a tank level indicator, together forming an integrated navigation and monitoring package for peace of mind on every voyage.

## Electrical equipment

---

The yacht's electrical systems combine 12V DC and 110V AC networks to accommodate a wide range of onboard appliances and devices, anchored by a robust 7.6 kW Westerbeke generator that supplies ample power for systems and comforts. A shore power cord allows seamless connection to dockside electricity when available, ensuring flexibility and a consistent power source whether at anchor or alongside a marina, so you can enjoy home-like conveniences while cruising.

## Deck equipment

---

Deck equipment is selected to enhance safety and ease of operation, led by a

Danforth type anchor complete with chain and rode for secure mooring in varied conditions, and an electric windlass that makes raising and lowering the anchor efficient and effortless. The helm area is fully enclosed to provide protection and visibility in all weather, while essential lighting including anchor and steaming lights as well as running lights ensure safe navigation after dark. The bow pulpit and rails offer secure handholds on deck, boarding gates facilitate easy access, and dock lines with fenders are provided to protect the hull during mooring. A washdown pump completes the deck outfit, keeping the exterior clean and free of salt and debris for comfortable and confident cruising.

## Engine and mechanical

---

At the heart of the yacht is a powerful Caterpillar 3208TA engine delivering 425 horsepower with only 900 hours of operation, fresh water cooled to promote longevity and efficient performance. Propulsion is provided by four-blade propellers mounted on two-inch shafts, complemented by bow thrusters for exceptional maneuverability when docking or negotiating tight spaces. Safety and maintenance systems include a bilge blower, emergency engine stop and engine alarm, while fuel filters and a raw water sea strainer protect engine integrity. Synchronizers and trim tabs refine handling and stability, and controls such as the engine fuel shut-off valve and bridge engine controls offer precise command over propulsion. The engine compartment benefits from thermal and acoustic insulation to reduce noise and heat transfer, hydraulic wheel steering delivers smooth responsive control, and onboard conveniences include an electric head with overboard discharge paired with a 30-gallon fiberglass holding tank and air conditioning for comfort in all climates, together creating a mechanically robust and comfortable platform for extended cruising.

## Fishing equipment

---

This yacht's fishing-oriented features begin with the practical transom door that provides immediate and safe access to the water from the cockpit, simplifying the process of bringing aboard a catch or stepping in and out for a swim; its thoughtful layout makes the vessel well suited for anglers seeking ease of movement and efficient use of deck space while fishing.

## Exclusions

---

Please note that all of the seller's personal effects currently aboard are excluded from the sale and will be removed prior to transfer of ownership, ensuring the vessel is delivered free of the seller's belongings and ready for the new owner to personalize.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
