DETAILED DESCRIPTION

Summary

Built for those who refuse to compromise, the 2023 Contender 39 ST is thirty-nine feet of pure offshore performance, propelled by triple Yamaha 450 XTO outboards that deliver blistering speed, exceptional range, and rock solid reliability so you reach distant fishing grounds faster and spend more time hunting trophy species. Purpose built for serious anglers and offshore enthusiasts, the 39 ST marries adrenaline charged pace with a hull engineered to tame rough water, while its center console layout invites bespoke customization—choose your electronics suite, define rod holder placements, specify outriggers, and refine every detail to match your approach. Whether chasing pelagics in deep blue or sprinting to island haunts, this 39 ST is configured to get you there first and make every mile unmistakably yours.

Console

The command center is crowned by a Custom Sport hardtop with an LED dome light that creates a clear, glare free working environment at all hours, while a stout aluminum rack provides organized shelving for essential gear within easy reach and a large side entry door streamlines boarding and diving access. Ergonomics govern the helm with folding armrests that support long runs at speed, and a Marlin Tower from Custom Pipe Design elevates your vantage point for spotting bait, birds, and current breaks with confidence.

Seating and upholstery

Fish hard and ride in comfort with an M Series leaning post that integrates a mezzanine seat, cupholders, rod holders, and tackle centers on each side,

turning the cockpit into a purpose built command zone that keeps equipment organized and accessible. Triple Llebroc Mini Billfish chairs with outboard armrests and power sliders provide precise, fatigue free support for long runs, complemented by a folding footrest that fine tunes helm position. Forward bench seating with plush cushions invites crew to relax between strikes, soft cockpit coaming bolsters ease the sting of the fight, and snow white exterior cushions with medium opal embroidery deliver a refined, custom finish framed by a white rub rail that gives the profile a crisp, clean edge.

Electronics and navigation

The helm bristles with integrated technology anchored by a Garmin 743 display and a high speed compass for instant situational awareness, while a VHF 315 keeps you connected offshore and a JL Audio system transforms the deck with four 10 inch subs, eight 8.8 inch speakers and a white sports grill with LED lights managed through a Shadow Caster LED controller. Power management and redundancy are handled by a battery with switch, a bilge pump with switch, and shore power at 30 AMP, while a 12V plug in the electronics box supports auxiliary devices. Precise handling is assured with Helm Master EX delivering full maneuverability for the triple XTO/IDES installation and triple XTO/IDES digital electrical steering for fingertip control. Night operations benefit from navigation light, under gunnel lighting, and underwater lights, and deck utility is maximized with a freshwater system, a saltwater washdown, a livewell, pop up cleats, and a Garelick built in ladder in the transom; forward work is simplified with an anchor chute and locking system.

Fishing equipment

Purpose built to hunt, the cockpit is outfitted with an aft fish box for iced

trophies and a mid size forward coffin box with an electric lift that cleverly doubles as a lounge when it's time to recharge. Four electric reel outlets power deep drop tactics while flush mounted Gemlux scoops keep baitwater flowing clean and fast. Two live wells maintain lively baits through long days offshore, and abundant rod holders ensure every setup is organized and instantly at hand.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
