OVERVIEW

The NX41 HORIZON by NX Boats is a refined pre-owned 2025 motor yacht that blends elegant styling with capable performance, measuring 39.67 feet overall to deliver generous onboard room for both tranquil relaxation and spirited outings. Built on a robust fiberglass hull, she offers confident handling and long-term durability when heading offshore or cruising along the coast. Propulsion comes from twin Volvo Penta D4 engines, each rated at 320 horsepower, providing lively acceleration and efficient passage-making well suited to coastal runs and weekend escapes. With seating configured for up to 18 guests, this yacht easily accommodates family gatherings, social cruises, or leisurely days at anchor, while overnighting is handled with comfort and privacy in two thoughtfully appointed cabins. The NX41 HORIZON is a sophisticated express cruiser for those who appreciate intelligent design and upscale finishes, promising effortless time on the water with style and refinement.

DETAILED DESCRIPTION

NX signature standard features

Finished in a pristine white gelcoat, the hull and hardtop present a classic, refined silhouette accented by tempered glass windows, LED lit logos and a stainless steel handrail, while grey and black thermodeck underfoot pairs with sophisticated grey upholstery to create a cohesive interior palette. Courtesy lighting and additional low level lights work in concert with powerful LED fixtures to sculpt the mood, and an integrated side deck leads forward to a capacious bow seat with convenient access to an anchor box. A walk through windshield links the social areas and an electric sunroof opens the cabin to the sky, adding dramatic overhead flair.

A broad swim platform, stainless steel beach door and an aft swim ladder with secure grab handles make water access effortless, complemented by an aft shower for rinsing after a dip. The aft gourmet area is appointed for gracious entertaining with a cutting board, aft cooler and cockpit cooler, a concealed trash receptacle, Corian stone surfaces, dedicated glassware and bottle display, numerous cup holders and the exclusive NX Design cockpit table. The L shaped seating hides two storage compartments and multiple additional lockers throughout keep gear neatly stowed, while anti mildew marine vinyl upholstery preserves a pristine finish and a foldable double helm seat converts easily between standing support and seated comfort.

At the helm, the NX Design tilt steering wheel faces a helm panel prepared for multiple displays and is supported by numerous USB outlets, a 12V DC panel, a battery parallel switch and dockside power with thirty amp service for shore power convenience. Below decks, a thoughtfully arranged cabin galley makes efficient use of space and the head is both roomy and elegantly finished, with an electric toilet and holding tank, a sink, mirrored storage and a separate

shower for complete onboard comfort. Engineering access is immediate through a hatch to the engine room, which is ventilated by engine room blowers, and propulsion is delivered via stainless steel propellers while bronze seacocks and thru hulls reflect robust construction. Safety and readiness are addressed with three bilge pumps, two handheld fire extinguishers, two manual pull cable fire systems, a fuel spill prevention system and a clear horn signal, so that every element—from illumination to ergonomics—contributes to the elevated NX signature experience.

Add-ons

Every element on board has been thoughtfully enhanced with a suite of premium extras, beginning with a precise joystick system and a Kohler 9 kVA diesel generator supplying 110V power to onboard amenities such as a 16,000-BTU 110V air-conditioning unit and an electric grill. Onboard entertainment is refined by a 24-inch cabin TV and a 32-inch 110V cockpit TV on a lift, paired with a high-end Fusion/JBL/Rockford stereo system featuring eight speakers, one woofer and two amplifiers, plus a wireless phone charger. The helm is outfitted with a 9-inch GPS and a 9-inch VesselView display, while communications are ensured by a VHF radio with antenna. Handling and convenience are improved by 18 by 12 electric trim tabs, an electric windlass with chain and stainless steel anchor, and a 12V electric-hydraulic submersible platform with two steps. Comfort is addressed with a full enclosure, EVA boat flooring, a water heater that serves the barbecue faucet as well as the aft and head showers, and an electric Stobag aft sunshade operating on 110V. Style and functionality are highlighted by LED-illuminated NX logos and six underwater lights. Electrical capacity is bolstered by an auxiliary 150Ah battery and the comprehensive Gourmet promotional kit, which adds a 12V/110V inverter, a 110V fridge, a 110V microwave, a 110V electric panel, shore power and a 110V cooktop.

Color setup

A seamless Blue Ocean finish sweeps across both the hull bottom and hull top, with the intake carried out in the identical Blue Ocean shade to preserve a unified appearance. Dramatic contrast is provided by the hardtop/arch and the structural surrounds of the side windows, finished in deep black, while Ice Grey upholstery is tastefully anchored by refined grey flooring.

Key features

A retractable sun roof transforms the yacht into an open-air vessel, revealing the sky and enabling seamless alfresco cruising. With only fifty hours of use and coverage still under warranty, the vessel offers the reassurance and condition of a virtually new craft. At the stern, a retractable swim platform simplifies access to the water while creating an elegant waterside terrace, and an integrated electric grill station makes outdoor entertaining both effortless and supremely stylish.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
