OVERVIEW

The Sunseeker Portofino 40, offered by a single private owner from new and presented in superb order, embodies the marque's signature fusion of athletic performance and luxurious refinement. As a benchmark in the express cruiser arena, this elegant sports cruiser marries lively, responsive handling with comfortable, well-appointed accommodation, capturing the unmistakable Sunseeker aesthetic while delivering the practicality expected of a premium performance powerboat.

Launched in 2013 with a 2014 model year, the Portofino 40 spans 12.9 m LOA, with a beam of 3.87 m and a shallow draft of 1.06 m, proportions that give her a confident on-water posture and generous interior volume for a vessel of this size. Propulsion is provided by twin Volvo Penta D6 diesel engines on stern drives, the proven combination preferred by discerning owners, with approximately 550 hours recorded. Performance is sprightly — she will reach around 37 knots and cruises comfortably at 28 knots — while trim tabs and a bow thruster ensure composed passages and effortless maneuvering in tight marinas. Auxiliary power comes from an Onan 6 kW generator, delivering quiet, reliable electricity for anchoring and extended stays.

Deck appointments emphasize quality and entertaining ease: a teak-laid cockpit and bathing platform lend a rich, nautical finish, and an electric anchor windlass simplifies mooring routines. The cockpit's sociable layout provides ample seating and a dining table, complemented by an integrated wetbar to support convivial days afloat. A streamlined hardtop incorporates an electrically opening sunroof section, inviting fresh air and daylight at the touch of a button, while secure grab handles fore and aft reinforce the design's family-friendly practicality.

Below decks the interior is conceived for relaxed cruising. A two-cabin arrangement offers a forward master cabin and a well-proportioned guest

cabin, both fitted with comfortable berths suitable for unhurried overnighting. The saloon affords welcoming seating and a dining area, and the fully equipped galley — with fridge and cooking facilities — makes provisioning and meal service straightforward. Thoughtful storage throughout supports longer cruises without sacrifice. Climate is managed by a European-spec chilled-air conditioning system, and systems include shore power with battery charging, approximately 295 litres of freshwater capacity, and a holding tank for responsible waste management.

Navigation and electronics are specified for confident coastal passages: a multifunction chartplotter (Simrad or equivalent) anchors a suite including GPS, depth and speed instruments, VHF with DSC, autopilot, compass, and radar. Comfort and entertainment are equally considered, with a Fusion sound system serving cockpit and saloon and a saloon TV for evening relaxation.

Low hours, meticulous private ownership and excellent overall condition make this Sunseeker Portofino 40 an appealing proposition for those seeking a refined, high-performance express cruiser — a true sport yacht that delivers the exhilaration of a powerboat alongside the poise and comfort of a luxury cruiser.
