OVERVIEW

“Second Knot” was commissioned to the Great Lakes and has remained there since her original delivery, a true 100% freshwater vessel that spends roughly half each year tucked indoors in heated, out of water storage — maintained launch ready and turnkey. Step aboard this 2003 Carver 396 Motor Yacht and you encounter a freshwater aft cabin yacht cared for with meticulous attention and updated thoughtfully over time.

Her twin propulsion package consists of Cummins 370 HP 6TBA5.9 M3 5.9L diesel engines, paired with ZF marine gears and showing approximately 447 hours, backed up by a Kohler 10 kW generator with roughly 200 hours. A factory bow thruster aids close quarters maneuvering and adds confidence when docking. Designed as a luxury motor yacht and flybridge cruiser, she is fully liveaboard ready and built for comfortable diesel cruising.

Recent maintenance and upgrades reflect ongoing stewardship: Spring 2022 brought new batteries; Summer 2022 saw main engine solenoids replaced; Fall/Winter 2022/23 delivered an all new Sunbrella canvas and Isinglass enclosure, snap down decking on the aft deck and bridge, a Phifertex sunshade for the main cabin window, Muskurahat exhaust screens, and renewed shore power inlets (two forward, two aft). Summer 2023 added a West Marine 8'3" foldable dinghy with oars. In Fall/Winter 2023/24 the main engine intake hoses were renewed. Spring 2024 included a professional topside and hullside detail, impeller replacement on both main engines and the generator, and installation of a new Standard Horizon VHF. Fall 2024 saw a new water heater, comprehensive oil analysis with reports for the last three seasons on file, engine and generator oil and filter service, and servicing of water/fuel separator filters for mains and generator. Fresh bottom paint was applied in Fall/Winter 2024 using black Micron CSC.

Interior volume is generous, with nearly seven feet of headroom in the salon

that creates one of the most spacious interiors for any 40 foot motor yacht of this era (Carver 396, produced 2000–2006). The enclosed flybridge and aft deck retain clear Isinglass panels (replaced Winter '22/'23) and remain in excellent condition. The upper helm is equipped with a Raymarine 12" GPS/Radar/Chartplotter, Raymarine autopilot, and the 2024 Standard Horizon VHF, while a premium Clarion stereo with multiple speakers and a full function bridge remote provides entertainment underway or at anchor. Anchoring and deck systems are well specified with a 40 lb anchor on 125' of chain, windlass foot pedals on the bow, and helm windlass controls for effortless anchoring. The salon layout includes twin reclining chairs to starboard and a storage drawer sofa to port. The galley features an electric cooktop, microwave, refrigerator, and freezer. Climate control is handled by three reverse cycle air conditioning/heat units providing zoned comfort in the salon, forward berth, and master stateroom. The two cabin, two head arrangement offers separate showers in each head, ideal for extended cruising or living aboard. Entertainment is complemented by a 40" flat screen in the salon and an additional flat screen in the master, with LED lighting throughout for efficiency and ambience.

“Second Knot” combines practical storage throughout salon, staterooms, and heads with elegant finishes and systems that support weekend escapes, seasonal living, or long Great Lakes passages — a freshwater aft cabin flybridge motor yacht ready to cruise.
