OVERVIEW

The 2021 Intrepid 407 Nomad FE is a stunning luxury powerboat designed for those who enjoy the excitement of navigating and exploring the open waters. Its modern and chic design seamlessly combines sophistication with functionality, making it a standout option in the yacht industry.

Measuring 40 feet in length, the 407 Nomad FE provides ample room for both leisure and socializing, perfect for entertaining guests or savoring peaceful moments at sea.

The spacious open cockpit features comfortable seating, inviting you to relax and soak up the sun. The helm station is outfitted with state-of-the-art navigation and control systems, ensuring a smooth and pleasurable cruising experience.

In terms of performance, the 407 Nomad FE is equipped with triple Yamaha 425 HP outboard engines, offering exceptional speed and maneuverability. Its meticulously designed hull ensures a stable and comfortable ride, even in rough waters. With a fuel capacity of over 600 gallons, this vessel offers an impressive cruising range, ideal for extended voyages without the inconvenience of frequent refueling.

Discover yacht sales at the current boat location and seize the chance to own a yacht that epitomizes luxury and exploration.

DETAILED DESCRIPTION

Section name

This yacht features remarkable dimensions and capabilities, making it an exceptional option for selective buyers. With a Length Overall (L.O.A.) of 40.83 feet (12.45 meters), it provides generous space for leisure and social gatherings. The beam, crafted to a width of 11.08 feet (3.38 meters), guarantees stability and comfort across various waters. Even when fully loaded, the yacht maintains a draft of 2.50 feet (0.76 meters), ensuring smooth navigation in shallower regions.

The yacht's design includes a maximum bridge clearance of 9.50 feet (2.90 meters), offering flexibility in accessing diverse marinas and waterways. With a displacement of 21,000 pounds, it merges sturdy construction with sophisticated design, ensuring a smooth and dependable voyage.

Regarding capacities, the yacht is outfitted with a generous fuel capacity of 603 US gallons (2,283 liters), enabling long journeys without frequent refueling. The water capacity stands at 50 US gallons (189 liters), providing ample supply for onboard facilities. Additionally, the holding capacity is 20 US gallons (76 liters), ensuring convenience and efficiency in waste management during extended trips.

This yacht effortlessly combines these technical specifications into a unified and luxurious experience, making it an ideal choice for those who desire both performance and comfort on the water.

Engine hours

By December 3, 2024, the yacht's engines have been diligently serviced, displaying the following hours: the port engine has accumulated 621 hours, the

center engine has reached 626 hours, and the starboard engine has 622 hours. These numbers highlight the yacht's careful operation and consistent maintenance, ensuring each engine stays in peak condition for ongoing performance and dependability on the water. This meticulous attention to engine care emphasizes the yacht's preparedness for future voyages, offering reassurance to potential owners.

Construction, upgrades and special options

This yacht is a true marvel of design and personalization, boasting a variety of enhancements and unique features that elevate both its functionality and visual allure. The engines have been upgraded to Yamaha 425 HP XTOs, finished in a sleek white, delivering robust propulsion. The hull is adorned in a captivating metallic light blue, paired with a newly painted bottom. A side door on the hull swings open with a fold-out ladder on the port side, providing effortless access to the water.

The helm is fitted with bespoke seat cushions, while the cockpit is adorned with coaming bolsters and diamond-patterned upholstery. All cushions are crafted with custom foam to resist water absorption. The yacht is equipped with a pressurized fresh water system holding 50 gallons, and a spacious console with a head below, featuring an electric toilet with a macerator for the 20-gallon holding tank.

Fuel capacity is expanded with an additional 120-gallon auxiliary tank. The yacht's thru-hull fittings are made from stainless steel above the waterline and bronze below, with seacocks on all fittings below the waterline. The construction employs a PVC foam core, vacuum-bagged, with non-woven multi-directional and uni-directional fibers, both infused and hand-laid, ensuring resilience and strength.

The deck flooring showcases a grey diamond pattern by DEKit, and marine-grade copper tinned wiring is used throughout. The yacht includes an

integrated engine motorwell, custom rod and drink holders, a hybrid vinyl rub rail, and pull-out steps on both port and starboard sides. The cockpit is equipped with guttered hatches, a self-bailing system, and additional bilge pumps for enhanced safety.

Additional features include custom synthetic flooring in the head, a composite fiberglass bulkhead and stringer grid system, a bow eye with a tow eye and double tow package, and bilges painted in high-gloss white urethane. The yacht is fitted with upgraded backing plates for all pull-up cleats, six extra pop-up cleats, and two additional fender clips.

The helm offers tilt steering and hydraulic high-performance trim tabs. There are three extra bilge pumps, an additional battery charger, and a total of seven batteries. The yacht is equipped with "bow" and "stern" thrusters by Side Power, a triple engine flush system, and an actuated lifting helm sole platform that elevates 4 inches.

Fresh water is supplied to the head and for washing down the anchor locker. The forward seating area includes a hi/lo actuated table/filler, and a fiberglass folding/hidden rear bench seat is provided. The aft console box resembles the SE box, with a fridge installed on the sides. LED cockpit lights are installed, with two forward and two aft, along with an LED spreader light aft of the top.

The yacht is illuminated with six color lights under the gunwale on a separate switch, six underwater lights, and six color lights on the hardtop. The hull number is IBW40823E021, signifying this yacht as a distinct and meticulously crafted masterpiece.

Engines

This yacht is driven by a powerful set of three Yamaha 425 HP engines, each finished in a flawless white, highlighting both strength and sophistication. The port engine is identified by serial number 6 GRN 1004104, the center engine by

6 GRN 1003716, and the starboard engine by 6 GRN 1003719. These engines received a thorough 100-hour service at 616 hours on August 1, 2023, ensuring they remain in optimal condition. Furthermore, the engines are covered by a warranty until August 25, 2025, offering assurance for future voyages.

Regarding performance, the yacht reaches a top speed of 56.05 knots (64.5 mph) at 6000 RPM, demonstrating its remarkable power and nimbleness on the water. For more relaxed trips, the cruising speed is a pleasant 40.84 knots (47 mph) at 4500 RPM, providing both efficiency and enjoyment. These details emphasize the yacht's ability to offer both exhilarating speed and smooth sailing, making it an outstanding option for those in search of a versatile and high-performing vessel.

Electronics

The yacht boasts a cutting-edge electronics package crafted to elevate navigation, communication, and entertainment on board. At the helm, two 8616 XSV Garmin displays offer extensive and user-friendly control over navigation and system monitoring. The Garmin autopilot provides precise and effortless steering, while the Garmin digital depth display delivers accurate underwater readings. A 1 KW tilted element transducer further enhances the yacht's capability to navigate various marine environments.

Communication is supported by the Icom 516 VHF, ensuring dependable contact with other vessels and shore stations. For entertainment, the yacht is equipped with a Fusion Apollo stereo system, featuring a 600/1 sub amp, three 800/8 amps, two 10" JL subwoofers, and six JL 8.8 speakers, creating an immersive audio experience. Satellite radio is also available, offering a broad selection of listening options.

Security and tracking are handled by the Gost 1.0 Nav tracker, providing peace of mind with its advanced monitoring features. The yacht's systems are interconnected through a NMEA 2000 Back Bone, ensuring seamless

communication among all electronic components. This comprehensive electronics suite guarantees that every voyage is both enjoyable and secure, making it an excellent choice for those who appreciate state-of-the-art technology on the water.

Electrical

The yacht's electrical system is crafted to deliver both reliability and efficiency, ensuring a smooth experience on the water. It includes zinc anodes for corrosion resistance, extending the lifespan of the vessel's components. The windlass is paired with a custom 125-foot stainless steel chain, providing strong anchoring capabilities. Trim tabs with digital readouts and an auto-retract feature offer precise control and stability while navigating.

A sport yacht anchor light enhances visibility, and the shore power system, complete with a battery charger and a 50-foot shore cord (30 amp), ensures the yacht remains powered for extended stays. The console glove box is equipped with a 12-volt USB outlet, offering convenient charging for electronic devices. Navigation lights are installed to ensure safe travel in low-light conditions.

The yacht features a galvanic isolator to prevent electrical corrosion, along with a breaker panel and switches for straightforward management of the electrical system. Three automatic bilge pumps keep the vessel dry and secure. A smart battery voltage meter provides real-time monitoring of all batteries. The electrical system is supported by seven AGM batteries, ensuring sufficient power for all onboard systems and amenities. This comprehensive electrical configuration ensures the yacht is ready for any adventure, providing both safety and convenience for its passengers.

Deck/cockpit

The deck and cockpit of this yacht are meticulously crafted to boost both utility and comfort. With six 10-inch pull-up cleats, the yacht guarantees secure mooring and docking. The forward seating area includes a high/low adjustable table/filler, offering flexibility for dining or relaxing. A fiberglass folding entry step is conveniently positioned under the gunwale, making it easy to board and disembark.

The cockpit is equipped with coaming bolsters, providing extra comfort and safety for guests. An anchor roller is installed for seamless anchor deployment and retrieval, while the anchor locker is self-draining and features a hidden cleat for a sleek and efficient design. The helm area includes an adjustable sole platform that rises 4 inches, improving visibility and comfort for the captain.

These features together ensure that the deck and cockpit are not only functional but also enhance the overall yachting experience, making it an excellent choice for those who value both elegance and practicality on the water.

Accommodations

The accommodations on this yacht are crafted to deliver both opulence and functionality, ensuring a delightful and comfortable time on the water. At the helm, the Ocean Elite helm seat with its fiberglass base provides exceptional comfort and support, making extended voyages more enjoyable for the captain. The forward seating area is thoughtfully equipped with storage and electric backrests, allowing for effortless adjustment and added convenience.

The forward lounge area is a multifunctional space, featuring electric backrests, deck storage, a sun pad, and a fish box, catering to both leisure and utility. A fiberglass folding rear bench seat offers extra seating options and can be easily tucked away when not needed, optimizing deck space.

To safeguard the yacht's features, full covers are included for the helm seats, sub bed, and console, ensuring they stay in immaculate condition. These accommodations underscore the yacht's dedication to blending style, comfort, and practicality, making it an excellent choice for those who desire a top-tier yachting experience.

Fishability

The yacht is meticulously outfitted to elevate your fishing adventures, providing features that prioritize both convenience and effectiveness. It boasts fresh water and raw water washdown systems, allowing you to effortlessly clean your equipment and keep the deck spotless after a fruitful day of fishing. An insulated fishbox situated on the starboard aft side offers generous storage for your catch, ensuring it remains fresh until you return to shore. These well-considered features make the yacht a superb option for fishing aficionados who appreciate practicality and user-friendliness on the water.

Comments

The yacht has been carefully looked after, with a thorough waxing completed on August 1, 2024. This meticulous attention not only boosts the vessel's visual allure but also adds an extra layer of protection to the exterior surfaces, keeping the yacht in immaculate condition. This level of care and maintenance demonstrates a dedication to maintaining the yacht's quality and worth, making it an appealing choice for potential buyers who value a well-maintained vessel.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts.
