# DETAILED DESCRIPTION

---

## Section name

---

The 405 Conquest, aptly dubbed the SUV of the Sea, is expertly crafted from the keel up as an adventure-ready cruiser. This exceptional vessel seamlessly blends outstanding performance, adaptability, and user-friendliness, making it a highlight of the Conquest series. From the sturdy bow lounge to the highly adaptable helm companion zone, every element of the 405 Conquest radiates elegance and luxury. The welcoming cabin is meticulously arranged with a private master stateroom and two guest sleeping areas, ensuring comfort for extended voyages and overnight stays. The cabin also includes an enclosed head with a separate shower and a well-equipped galley, offering all the essentials for a comfortable journey.

The 405 Conquest is driven by four 300-hp Mercury Verado® engines, with an option for Joystick Piloting, delivering remarkable power and control. The full-beam, single-piece windshield, with optional side glass, provides clear visibility and a closer connection to the sea. The transom prep area is highly customizable, appealing to both fishing aficionados and those who enjoy entertaining. A distinctive portside companion lounge with a concealed table can be adjusted to various positions, enhancing the vessel's versatility.

Luxury is woven throughout the yacht, with features like a rain shower, innerspring mattresses, Corian countertops, and premium finishes. For those desiring increased stability, the 405 Conquest can be equipped with the Seakeeper gyro-stabilizing system. Whether you're pursuing gamefish in distant waters or hosting a spontaneous gathering, the 405 Conquest ensures you never have to compromise between refined comfort and exceptional capability.

## Standard equipment

---

The standard features of this yacht are meticulously designed with a focus on superior quality and longevity. Every piece of hardware is crafted from 316-L stainless steel, offering outstanding corrosion resistance and a durable finish. The rails, made from welded 316-L stainless steel, deliver strong support and safety, bolstering the vessel's structural integrity. To provide additional protection, a vinylester barrier coat is applied across the entire hull and sides. This coating serves as a powerful defense against water penetration and osmosis, maintaining the yacht's immaculate condition and ensuring its seaworthiness for many years ahead.

## Materials

---

The yacht's interior exemplifies masterful craftsmanship and opulent materials, fostering an inviting and sophisticated ambiance. Within the cabin, the cabinets are fashioned from teak wood with a satin finish, lined with maple and cedar, imparting a warm and elegant touch. The flooring and entry steps, also crafted from teak with a satin finish, beautifully complement the high-gloss teak dinette table. Wall accent panels are embellished with Miami Trackstar Dove and Brushed Gold accents, while the seating upholstery, made from Ultraleather Dwell Sandpiper, offers both comfort and style. The countertops, crafted from Lava Rock Corian, provide a modern and resilient surface.

In the head, the theme of refined elegance continues with teak wood cabinets featuring a satin finish and maple lining. The teak wood door and solid teak flooring enhance the luxurious atmosphere, while the shower boasts Lava Rock Corian flooring and seating, delivering a seamless and sophisticated appearance. The countertops, vanity, and shower are all finished in Lava Rock Corian, ensuring a harmonious design.

The forward berth reflects the cabin's opulence with teak wood cabinets lined with maple and cedar, solid teak flooring, and wall accent panels in Miami Trackstar Dove with Brushed Gold accents. The seating upholstery remains in Ultraleather Dwell Sandpiper, and the side shelves are crafted from Lava Rock Corian. A custom-fit comforter/duvet in Calcite Steel adds a touch of personalized luxury.

In the mid-berth, the teak wood cabinets with satin finish and maple and cedar lining persist, accompanied by solid teak flooring and Miami Trackstar Dove wall accent panels. The comforter/duvet in Calcite Steel is tailored to the mattress, ensuring both comfort and style.

The cockpit showcases countertops in Lava Rock Corian, and the upholstery material is a two-tone blend of Omnova Sof Dura Stone and Spradling Diamante Ivory, offering a striking and durable finish. Each material choice in this yacht is meticulously selected to enhance both aesthetic appeal and functional durability, crafting an unparalleled yachting experience.

## Deck/cockpit

---

The deck and cockpit of this yacht are crafted with a perfect blend of practicality and sophistication, showcasing a selection of premium materials and meticulous details. Strategically positioned 10-inch stainless steel pull-up cleats are found at the bow, spring line, and transom, with additional cleats at the stern cockpit featuring gunnel boats hawse pipe and within the anchor locker. The interior freeboard stands at 27 inches, offering a reassuring sense of safety and comfort. An acrylic transom door with a stainless steel latch provides easy access, complemented by a boarding ladder at the transom and a robust polished stainless steel bow eye.

The anchor windlass is outfitted with a 400-foot rode and chain, handheld remote control, stainless steel swivel, polished stainless steel 44-pound anchor, and a polished stainless steel bow roller davit. The yacht proudly

displays the chrome Boston Whaler logo and model designation, while coaming bolsters in the cockpit enhance comfort. A molded fiberglass dive door on the port side includes a removable stainless-steel dive ladder with dedicated storage in the stern seat.

Stainless steel drink holders are thoughtfully placed throughout the yacht, including in the bow, hawse pipes, helm, port console, port lounge, and recessed pockets at the aft helm deck seats. LED courtesy lights in the cockpit offer multi-color options, enhancing the atmosphere. The 19-gallon livewell is pressurized and insulated, located in the aft port corner with a clear lid, blue interior, and dual white LED lights.

Welded stainless steel handrails provide safety and support along the companionway to the helm deck and into the cabin, as well as at the boarding ladders and prep station. High bow rails and a heavy-duty rub rail with a stainless steel insert ensure durability and safety. Toe rails in the cockpit feature under gunnel storage shelves with downrigger weight holders. The yacht is equipped with gunnel-mounted rod holders, under gunnel rod holders, and transom-mounted rod holders, catering to fishing enthusiasts. The self-bailing cockpit sole ensures easy maintenance, while freshwater showers with hot and cold water are conveniently located near the transom door and dive door. A spotlight mounted on the hardtop provides additional visibility.

The helm console on the starboard side is a center of advanced technology and comfort. It includes a 16K BTU A/C unit with vents at the helm and wetbar area, a bow thruster control, and a compass with lighting. The defogger system features a 120v heater with a blower for both port and starboard sides. A 7-inch color LCD touch screen system monitor and control center provides easy access to vital information. The electronics mounting surface accommodates dual 16-inch or dual 19-inch Raymarine displays, while the electrical switch panels feature stainless-steel push-button switches with

illuminated text.

A molded footrest with solid teak steps and a satin finish adds to the comfort, and the Fusion USB and Aux input ensures entertainment options. Mercury DTS dual binnacle controls with integrated engine trim controls, a single remote ignition key switch in the cabin, and pushbutton start/stop at the helm are complemented by the Mercury SmartCraft Vessel View 5-inch color LCD Display with network connections to the Raymarine Navigation Package. A stainless steel grab rail, spotlight control, and a cast stainless steel steering wheel with a knob and tilt helm enhance the helm's functionality. A storage recess on top of the dash includes a dual USB and 12-V wireless cell phone charging holder, ensuring convenience and connectivity.

## Port lounge and console

---

The port lounge and console of this yacht are crafted to deliver both comfort and utility, creating a welcoming area for relaxation and leisure. This space is fitted with a 12K BTU air conditioning system, featuring two vents on the dashboard and an additional vent in the seating area, ensuring a comfortable climate throughout. The dashboard is made from a blend of acrylic and glass, offering a sleek and contemporary look. Stainless steel drink holders are strategically placed, adding a touch of sophistication and practicality.

The dual helm seat is equipped with armrests that can be transformed into a spacious sun lounge, ideal for basking in the sun with style. A grab handle rail is thoughtfully positioned for enhanced safety and convenience. The Fusion Bluetooth stereo remote control provides easy access to your favorite music, enriching the overall atmosphere.

Storage solutions are seamlessly incorporated into the design, with a glovebox-style compartment featuring a dual USB port and white LED light, as well as a storage recess on top of the dash that includes a dual USB port and a 12V wireless cell phone charging holder. The teak table, with its high gloss

finish and polished stainless-steel inlay, is situated in the aft lounge area and features an electric high-low conversion, offering flexibility for dining or lounging. This blend of luxurious materials and innovative features ensures that the port lounge and console are both a functional and elegant component of the yacht.

## Galley

---

The galley on this yacht exemplifies the perfect blend of functionality and elegance, providing everything necessary for an effortless culinary journey at sea. It includes a 120-V outlet for easy power access, while the cabinetry, crafted from teak wood with a satin finish and lined with maple, offers a warm and refined look. These cabinets are thoughtfully positioned under the counter and above the galley, with additional overhead storage accommodating the AC and DC system controls. Behind the sink, extra cabinet space is ideal for organizing galley supplies, along with dedicated storage for dishes.

The galley is fitted with a single cooktop burner and a solid surface countertop that features a faucet and an undermount sink, ensuring both style and practicality. Overhead, a white LED light provides ample illumination, while LED RGB courtesy lighting beneath the overhead cabinet and countertop, complete with dimmer control, allows for a customizable atmosphere. A microwave is conveniently situated in the overhead cabinet, and a pullout waste bin is neatly concealed under the galley counter.

A stainless steel handrail adds a touch of safety and elegance, while the refrigerator/freezer drawer, crafted from stainless steel and operating on 12-V/120-V, offers a 3.0 cubic feet capacity, ensuring ample space for perishables. The sink filler matches the solid surface countertop and includes an integrated cutting board, enhancing the galley's functionality. Additionally, the underside of the cabinet features a wine glass holder with lighting for up to six glasses, adding a touch of luxury and convenience. This galley is designed

to fulfill all your culinary desires while maintaining the yacht's overall elegance and sophistication.

## Seating

---

The seating configurations on this yacht are crafted to deliver ultimate comfort and adaptability, ensuring each voyage is as pleasurable as possible. At the bow, the lounge is equipped with dual row tilt-up backrests, creating an ideal spot to unwind and take in the scenery. This area also includes a canvas cover for protection when not in use. The foldaway stern bench seat features an elevated backrest for added comfort and can be conveniently tucked away when additional space is required.

The helm seat offers fore and aft electrical adjustments and a swivel function, allowing for perfect positioning and ease of use. On the port side, the console seat accommodates two people and includes an innovative mechanism that transforms it into an aft-facing lounge, offering flexibility for various seating preferences. The port aft-facing seat is also designed for two and can be converted into a lounge with a filler cushion over the lowered table, creating a cozy nook for relaxation.

Moreover, the port forward-facing seat for two includes a conversion seatback that allows it to become an aft-facing mezzanine seat, expanding the seating options available. On the starboard side, the aft-facing mezzanine seat for two can be folded down to provide a countertop at the prep station, enhancing the space's functionality. These carefully designed seating arrangements ensure that every part of the yacht can be tailored to meet the needs of its passengers, making it a truly versatile and comfortable vessel.

## Storage

---

The storage solutions aboard this yacht are expertly crafted to optimize both

space and functionality, ensuring that all essentials are easily accessible. In the aft mechanical area, a spacious storage tray is available, though it is removed if the gyro option is chosen. The cabin galley features upper, mid, and lower cabinets, providing ample space for kitchen necessities. In the main cabin, cabinets are situated above the starboard settee, with an in-floor storage compartment and additional storage beneath the starboard settee.

In the cockpit, you'll find holders for downrigger weights and storage beneath the pullout grill. An insulated 220-quart built-in cooler/storage is positioned under the seating, offering dual access for convenience. The cockpit also includes rod holders under the starboard gunnel, which are removed if the foldout bench seat option is selected. Insulated in-deck fish boxes with pump-out capabilities ensure your catch remains fresh.

The guest mid-berth provides a large storage compartment under the berth with pull-out drawers, a port side cedar-lined hanging locker with removable shelves, dish storage, and lighting, as well as additional storage beneath a hinged countertop. In the head, storage is available both under the sink and overhead.

On the helm deck, the portside console features a glovebox and forward storage tray, while the starboard helm includes storage drawers and a forward storage tray. The starboard wet bar is fitted with storage drawers and a storage compartment. In the master stateroom forward, a large storage compartment is located under the berth, complemented by a port side vertical cabinet with shelves and lighting, and a starboard side cedar-lined hanging locker with lighting.

These extensive storage options ensure that every item has its designated place, creating a tidy and organized environment on board.

## Cabin interior (main)

---

The main cabin interior of this yacht seamlessly combines comfort, technology, and elegance, enhancing your onboard experience. It includes a 120-V outlet along with 12-V and dual USB ports, ensuring all your electronic devices stay charged and ready. The climate is expertly managed by a 16,000 BTU reverse cycle air conditioner, providing comfort in any weather. Safety is prioritized with carbon monoxide and smoke detectors installed for peace of mind.

The cabin's aesthetic is elevated by teak wood cabinets with a satin finish and maple lining, gracefully positioned above the settee. A digital vessel control system, accessible via an iPad with an inductive charging case, allows you to effortlessly monitor vessel systems and control DC circuits. The lockable acrylic cabin entry door ensures security and privacy.

Lighting in the cabin is both functional and atmospheric, featuring LED white overhead lights with dimmer switches and LED RGB diffused courtesy lighting, also with dimmer control, to create the perfect ambiance. The interior materials are selected for their ease of cleaning, maintaining the cabin's pristine appearance.

The L-shaped settee offers storage beneath the cushions and includes additional filler cushions with dedicated storage, allowing it to convert into a sleeping berth. A skylight introduces natural light, enhancing the open feel of the space. A large storage compartment in the salon floor provides ample room for stowing essentials.

The dinette table, crafted from solid teak wood with a gloss finish, is foldable and features an electric high-low mechanism to convert it into a berth, adding versatility to the space. Five throw pillows add a touch of comfort and style. Entertainment is provided by a 24-inch flat screen HDTV with Apple TV integration, ensuring you can enjoy your favorite shows and movies. Hull side windows with pull-down pleated shades offer both light and privacy,

completing the cabin's sophisticated and functional design.

## Master stateroom / forward berth

---

The master stateroom, situated in the forward berth, is a haven of luxury and comfort, meticulously crafted to offer a serene escape. It includes 120-V outlets on both the port and starboard sides, ensuring easy access to power. The climate is precisely controlled by an 8,000 BTU reverse cycle air conditioner with an LCD display, allowing you to set the ideal temperature. The focal point of the stateroom is the island bed, featuring trunk-style front storage accessible via a gas-assist hatch. The bed is adorned with an 8-inch thick Premium Handcraft® pillowtop innerspring mattress, complete with an electrically adjustable hinged backrest, fitted sheet, comforter, and two standard-size pillowcases.

Overhead cabinets on both the port and starboard sides have flip-up doors, providing generous storage space. Safety is paramount, with carbon monoxide and smoke detectors installed for peace of mind. A sliding pocket door separates the stateroom from the salon, offering privacy when desired. The flooring and entry steps are made from solid teak with a satin finish, adding a touch of elegance to the room.

The stateroom is illuminated by LED RGB diffused courtesy lighting with dimmer control, along with four LED overhead lights and two LED reading lights, ensuring the perfect ambiance for any occasion. An opening hatch allows for natural light and ventilation. Service access to the A/C unit is available through the forward bulkhead, and the bow thruster can be accessed through the floor.

Storage options include a hanging locker with cedar lining and door-activated light on the starboard side, and a locker with cedar lining, door-activated light, and shelves on the port side. A Dyson V7 handheld vacuum with a charging holder is included for convenience. Entertainment is provided by a 24-inch flat

screen HDTV with Apple TV integration, allowing you to enjoy your favorite shows and movies. Vimar single USB outlets are located on the port and starboard nightstands, and a Vimar overhead light switch is conveniently placed on the starboard nightstand. Hull-side windows with pull-down pleated shades offer both light and privacy, completing the sophisticated and functional design of the master stateroom.

## Enclosed head compartment

---

The enclosed head compartment on this yacht seamlessly combines practicality with luxury, crafted to offer a comfortable and convenient experience. It includes a 120-V outlet at the vanity, providing easy access to power for all your grooming essentials. With dual entrances accessible from both the cabin and the master stateroom, this compartment enhances privacy and convenience.

The flooring is elegantly designed with solid surface material in the shower area and solid teak in the vanity section, adding a touch of sophistication. The space is illuminated by two LED overhead lights with dimmer controls, complemented by LED RGB diffused courtesy lighting, also with dimmer control, allowing you to create the perfect atmosphere.

A full-length mirror is positioned on the acrylic door leading to the stateroom, offering both practicality and style. The opening port light and frosted glass skylight provide natural light and ventilation, while stainless steel handrails ensure safety and support. The enclosed shower features a rain head and hand-held sprayer, delivering both hot and cold water, and is separated by a bi-fold acrylic shower divider. The shower sump ensures efficient drainage. Additional amenities include a toilet paper holder inside the vanity, a towel ring and bar, and a trash chute in the counter for added convenience. The Vacu-Flush® toilet is electric and includes a holding tank with a vent filter, overboard discharge, dockside pump-out, and a tank full indicator alert. The

progressive tank level indication is integrated into the digital network, providing real-time monitoring.

The vanity offers generous storage and is equipped with a ceramic vessel sink and a polished chrome faucet, blending style with functionality. Forced air ventilation keeps the space fresh and comfortable. This enclosed head compartment is designed to fulfill all your needs while maintaining the yacht's overall elegance and sophistication.

## Mechanical (mid and forward)

---

The mechanical systems in the mid and forward sections of this yacht are crafted to deliver peak performance and comfort, ensuring a smooth journey on the water. The cabin is outfitted with dual reverse cycle air-conditioning units, offering 16,000 BTU in the main cabin and 8,000 BTU in the forward stateroom, ensuring a comfortable climate throughout. The helm deck is also equipped with dual reverse cycle units, providing 16,000 BTU on the starboard side and 12,000 BTU on the port side, maintaining a pleasant environment at the helm.

The yacht is equipped with battery trays for three group 31 house batteries, supported by a sophisticated battery management system. This system includes in-cabin electric switches and charging relays with remote paralleling, ensuring efficient power distribution and management. A 6kW bow thruster, complete with its own battery bank and charging system, enhances maneuverability, although it is not available with the Joystick Piloting option. For added convenience, a freshwater anchor washdown faucet is installed, and the yacht features a comprehensive freshwater system with hot and cold water, a 90-gallon tank, dockside hookup, and a tank level indicator. The dual 310-gallon aluminum fuel tanks provide ample capacity for long voyages, while the manifold plumbing system for fresh water includes individual valves for each circuit, allowing precise control.

Additionally, an 11-gallon water heater ensures a consistent supply of hot water, enhancing the comfort and convenience of life on board. These mechanical features are meticulously designed to provide reliability and ease of use, making every voyage a pleasure.

## Mechanical (aft bilge)

---

The mechanical systems in the aft bilge of this yacht are crafted to provide outstanding performance and reliability, ensuring a seamless and enjoyable time on the water. Central to this system are the 300 V8 DTS Black Quad Mercury Verado engines, featuring hydraulic power steering and Shadow Mode Technology, delivering unmatched power and control. These engines are fine-tuned for 91 octane fuel, ensuring optimal performance.

The yacht is equipped with battery trays for four group 31 engine batteries, supported by a sophisticated battery management system. This system includes in-cabin electric switches and charging relays with remote paralleling, ensuring efficient power distribution and management. High water bilge pumps with a capacity of 2000 GPH and automatic bilge pumps (300 GPH forward, 2000 GPH aft) provide robust water management, with an alarm system for added safety.

Engine fuel and water separators ensure clean fuel delivery, while freshwater pullout showers with hot and cold water are conveniently located at the dive door and transom door. The cockpit features a stainless steel faucet for freshwater washdown, and a raw-water washdown faucet is also available. The yacht is powered by a 12kW Fischer Panda diesel generator, which operates at 240-V 60 Hz and includes a fire suppression system with automatic and manual override capabilities.

Additional features include electric dual polished stainless-steel trumpet horns, a dockside cable TV inlet with a low-profile digital antenna on the hardtop, and

boost control in the cabin. The 50-amp shore power inlet is equipped with battery chargers, an isolation transformer, and a 50-foot shore power cord, ensuring reliable power connectivity. LED lighting illuminates the cockpit and machinery space, enhancing visibility and safety.

The yacht is fitted with stainless steel propellers and a comprehensive bonding system for underwater thru hull fittings. Cast bronze thru hulls are used below the waterline, while cast stainless steel thru hulls are used above. A transducer pocket in the hull bottom allows for flush mounting a B275 transducer. Electric trim tabs with Auto Glide, Dynamic Running Surface, and dual ram features, along with a switch panel for livewell pump/lighting and fish boxes, complete the sophisticated mechanical setup, ensuring a superior yachting experience.

## **Theft deterrent system with remote connectivity**

The theft deterrent system with remote connectivity on this yacht represents a cutting-edge security solution, crafted to deliver peace of mind and thorough protection. Central to this system is an anti-theft security key fob, equipped with engine immobilization and an automatic GEO fence, ensuring your yacht's safety at all times. The Boston Whaler Proprietary Vessel Monitoring System further bolsters security by providing real-time updates on the yacht's status.

This sophisticated system includes a 24-hour cellular and satellite monitoring service, offering global coverage to keep you connected wherever you are. It enables you to oversee vital components of your yacht, such as engines, tanks, batteries, shore power, and high-water sensors, with alert notifications to keep you informed of any issues. Moreover, the system provides remote control capabilities for cabin and cockpit air-conditioning, lighting circuits, and the chiller system, if equipped, allowing you to manage your yacht's environment from a distance.

The telematics tracking system with GeoFence Alert Notification adds an extra layer of security, notifying you of any unauthorized movements. Included in

this comprehensive package is a complimentary three-year monitoring and control subscription, ensuring access to these crucial features without additional expense. This theft deterrent system is designed to offer unmatched security and convenience, making it an essential enhancement to your yachting experience.

## **Stereo/infotainment systems**

---

The stereo and infotainment systems on this yacht are crafted to offer an unmatched audio and entertainment experience, ensuring that every moment on board is filled with premium sound and enjoyment. At the core of the system is the FUSION® full-function RA770 stereo head unit, elegantly flush-mounted in the acrylic dash. This unit integrates effortlessly with the Raymarine Navigation Package and features an ethernet connection to the cabin RA770 for PartyBus mode, enabling synchronized audio throughout the yacht. The JL Audio Digital Signal Processor (DSP) system is custom-tuned to deliver an audiophile experience, optimizing sound quality to perfection.

On the helm deck, JL stereo speakers with M6 7.7-inch coax classic white/gun metal grills are strategically positioned on the port and starboard consoles, reflecting off the windshield, and in the aft section of the hardtop. A JL M6 10-inch subwoofer enriches the bass, while a Fusion Bluetooth remote control in the port lounge area allows for easy management of the stereo and volume of the helm deck speakers.

In the bow lounge area, JL M6 6.5-inch coax speakers with classic white/gun metal grills deliver superb sound quality, with a Fusion Bluetooth remote control to adjust the stereo and volume of the bow speakers. The cockpit is fitted with JL 7.7-inch coax speakers in the aft corners, also managed by a Fusion Bluetooth remote, ensuring that the sound is perfectly tailored to the environment.

The main cabin area features a Fusion RA770 stereo head unit with an auxiliary

input for TV audio integration, connected to the cockpit sound system for Fusion PartyBus mode. A Fusion Panel Sound bar speaker system complements the setup, alongside a 32-inch flat screen LED HDTV with Apple TV for a complete entertainment experience. In the forward cabin, a Fusion Panel Stereo with auxiliary input for TV audio integration is paired with a 24-inch flat screen LED HDTV with Apple TV integration, ensuring that every area of the yacht is equipped for entertainment.

These sophisticated stereo and infotainment systems are designed to provide a seamless and immersive audio experience, making every journey on this yacht a memorable one.

## **16" Raymarine Axiom XL electronics**

---

The 16" Raymarine Axiom XL electronics suite on this yacht represents a state-of-the-art navigation and fishfinding system, crafted to elevate your maritime experience with precision and clarity. The dashboard is made from custom black acrylic, seamlessly integrated with switch panels for a sleek and modern look, allowing for flush mounting of the XL displays.

At the core of this system are two Raymarine Axiom XL 16-inch screens. One functions as a multifunctional display, offering GPS, chart plotting, and fishfinding capabilities, while the additional screen provides expanded viewing options, ensuring all critical information is readily accessible. The system is further enhanced by a Raymarine 1000-watt recessed thru-hull transducer (B275), delivering precise depth readings and fish detection.

The Raymarine Sounder RV-1000, equipped with the RV-100 Realvision 3D transom-mounted transducer, offers unmatched underwater visualization, allowing you to explore the depths with confidence. Communication is facilitated by the Raymarine Ray63 VHF system, complete with a wireless Ray mic at the helm, ensuring clear and reliable communication at sea.

For navigation, the system includes a Navionics Chart Card covering North America and Canada, providing detailed and up-to-date charting information. This comprehensive electronics package is designed to offer superior navigation, safety, and fishfinding capabilities, making it an invaluable asset for any yachting adventure.

## Open windshield hardtop system

---

The open windshield hardtop system on this yacht is a perfect fusion of functionality and elegance, crafted to enhance both the visual and practical elements of your maritime journey. This system includes a side and aft rigid Makrolon® polycarbonate weather enclosure, stretching from the door to the cockpit, available in either white or black Stamoid® based on your frame color choice. This enclosure offers excellent protection from the elements and can be conveniently stored in the aft section of the hardtop when not in use.

The custom-painted integrated aluminum hardtop and windshield frame, available in white or black, adds a sleek and contemporary touch to the yacht's design. Two deck hatches are seamlessly incorporated into the hardtop, allowing for natural light and ventilation. A handhold along the hardtop ensures safe access to the foredeck, while ladder access to the hardtop is available in matching frame colors.

The lighting system is meticulously designed with LED blue and white overhead lights strategically positioned across the aft end of the hardtop, mid over the wet bar and seating, and forward center. Additional LED blue companionway lights are located at the helm deck step and cabin entry steps, activated by a solar sensor. An LED red/white map overhead light and LED flood lights at the cockpit and bow ensure visibility and safety in all conditions. Recessed stainless steel LED navigation lights are integrated into the hardtop for a streamlined appearance.

The hardtop is outrigger ready and features rod holders on the port and

starboard ladder supports, available in white or black to match the frame. Open tempered side glass enhances the open feel, while a telescoping polished stainless-steel frame supports a black Sunbrella® canvas sunshade for the cockpit, which retracts and deploys electrically for ease of use. The full-height, single-piece front tempered glass windshield offers unobstructed visibility and is equipped with dual electric actuated vents with independent control. Two pantograph windshield wipers with an intermittent wash system ensure clear visibility in adverse weather conditions. This open windshield hardtop system is designed to provide a superior yachting experience, combining cutting-edge technology with elegant design.

## Starboard helm deck wet bar

---

The starboard helm deck wet bar on this yacht seamlessly combines practicality with elegance, crafted to elevate your onboard entertainment experience. It includes a 120-V outlet, offering easy access to power for all your appliances and gadgets. The solid surface countertop is ingeniously designed with a hinged, extendable section that integrates smoothly into the cockpit seat backrest, providing extra space when required.

A stainless steel handrail adds a touch of sophistication and safety, while the stainless steel refrigerator, featuring dual voltage options (12-V / 120-V) and a 2.3 cubic feet capacity, keeps your drinks and snacks perfectly chilled. The wet bar also includes a sink with a fiberglass filler cutting board, offering both hot and cold water for your convenience.

Storage solutions are plentiful, with a pullout three-drawer storage compartment located under the counter, in front of the refrigerator. This space can be swapped for a refrigerator, freezer, or ice maker, based on your needs. Additional storage is provided by a drawer/box compartment on the aft wall under the counter, along with a dedicated wine rack for your cherished vintages.

The wet bar is adorned with zebra wood faced surfaces, adding a layer of sophistication and warmth to the overall design. This starboard helm deck wet bar is not only a functional addition to your yacht but also a stylish one, ensuring you can entertain with ease and grace.

## **Starboard cockpit prep & entertainment centre**

---

The starboard cockpit prep and entertainment center on this yacht is crafted to enhance your culinary and leisure activities on board. This adaptable space includes an extra solid surface countertop that becomes accessible when the aft-facing seatback is folded down, offering plenty of room for meal preparation or serving. The thoughtful design ensures you have all the space needed to entertain guests or prepare meals effortlessly.

For added comfort, the aft-facing mezzanine seating features a pull-out footrest, allowing you to relax while taking in the view or engaging in conversation. The center also includes a pull-out prep area with a solid surface counter. When lifted, this area reveals an electric grill and a storage compartment, making it an ideal spot for cooking and storing essentials.

This starboard cockpit prep and entertainment center is a perfect fusion of functionality and style, ensuring that every moment on your yacht is both enjoyable and convenient. Whether you're hosting a gathering or savoring a quiet meal, this space is designed to fulfill all your needs with elegance and efficiency.

## **Port cockpit cooler**

---

The port cockpit cooler on this yacht is a meticulously crafted feature that enhances both convenience and functionality during your time on board. Located beneath the aft port seating, the insulated 220-quart built-in cooler offers generous storage for keeping your drinks and perishables perfectly

chilled. Its dual access design allows you to easily retrieve items from various angles, making it an ideal addition for entertaining or extended journeys.

Alongside the cooler, the area features a flip-up footrest for the aft-facing two-person mezzanine seat. This addition provides an extra level of comfort, enabling you to relax and enjoy the surroundings while having easy access to refreshments. The port cockpit cooler is a perfect blend of practicality and comfort, ensuring that your experience on the yacht is both enjoyable and efficient.

## Cabin mid-berth

---

The cabin mid-berth on this yacht is a sanctuary of comfort and practicality, crafted to offer a restful escape with all the modern conveniences. It includes a 120-V outlet for easy power access, and air-conditioning vents from the main cabin's 16,000 BTU unit ensure a pleasant climate throughout. Safety is a priority, with a carbon monoxide detector installed for peace of mind.

The flooring and entry steps are made from solid teak with a satin finish, adding a touch of elegance to the space. The lighting is thoughtfully arranged, featuring two LED reading lights and LED white overhead lights with dimmer switches—one in the main area and two in the bed area. Additionally, LED RGB diffused courtesy lighting with dimmer control allows you to create the perfect ambiance.

The mid-berth is equipped with a 6-inch thick Premium Handcraft® pillowtop innerspring mattress, which includes hinged access to storage beneath. A privacy curtain offers seclusion when needed. The large storage compartment under the mattress features a powered access hatch, providing easy access to storage drawers and a large molded fiberglass trunk.

Additional storage solutions include a cedar-lined hanging locker with removable shelves and galley dish storage, complete with a door-activated

light. A Vimar single USB outlet ensures your devices stay charged. The mid-berth comes complete with a fitted sheet, comforter, and two regular-size pillowcases, ensuring a cozy and inviting sleeping environment.

This cabin mid-berth is designed to offer both luxury and functionality, making it an ideal space for relaxation and rejuvenation during your yachting adventures.
