DETAILED DESCRIPTION

Introduction

Step aboard this 2025 Invincible Cat, a rare chance to claim one of the most sought-after performance offshore catamarans on the market—without the wait. With only 152 hours, it feels unmistakably new, delivering turnkey reliability, premium equipment, and the latest Invincible engineering in a fastidiously maintained package. Why wait months, or longer, to build when this one is available now, fully loaded, dialed in, and proven? It serves up the speed, efficiency, and legendary rough water ride the brand is known for, while letting you launch your next adventure immediately. Every choice speaks to careful ownership, from its immaculate presentation to its thoughtfully curated options. For the buyer seeking a like new Invincible with zero compromises, this is the boat to see. Mercury warranty coverage adds meaningful peace of mind: a 5 Year Warranty from Mercury, with the first three years under Platinum Warranty (until 12/02/2027) and the final two years under their Gold Warranty (until 12/02/2029). A 12 Year Warranty on the hull/structure from Invincible is also included, and that warranty is transferable to the next owner.

Power

Quadruple 400 V10 Verados unleash confident authority and class leading thrust, enhanced by the White Motor Upgrade for a crisp, custom aesthetic. Precision Mercury Electric Steering pairs with the Electric JPO Joystick Upgrade to make close quarters maneuvering effortless, while the Mercury VesselView 903 upgrade centralizes engine intelligence, fuel burn, and systems data on a bright, intuitive display. The result is a power package that is smooth, quiet, responsive, and unquestionably Invincible.

Custom top options

The timeless White hull sets an elegant tone, complemented by an Ice Blue hardtop underside and a White topside for a clean, modern profile. LED spreader lights flood the decks with crisp illumination, while GEM Bluewater outrigger bases paired with GEM 22' internal white poles expand your trolling footprint with precision. Six rod holders span the aft edge of the hardtop for instant access, and a full windshield enclosure adds protection and polish when the weather builds.

Upgrades

This build is armed for serious fishing with rod holders arrayed along the gunwale, plus additional units for extra capacity, vertical rod holders on the console, dedicated holders on the coffin box, and heavy duty swivel rod holders for live bait and big game tactics. A Best Marine seachest with 4 pumps feeds immaculate livewells, supported by under gunwale Gaggg holders, electric reel outlets, a colored livewell with dedicated lighting, and an etched transom livewell lid that adds a custom touch. Forward water tanks further extend range and autonomy for long days offshore.

Seating options

The helm is configured for focused control with a single row layout and triple custom helm chairs that balance aggressive support with long run comfort. A rear facing tackle station, specified as an upgrade, keeps rigs and tools perfectly organized, while a leaning post chill plate keeps provisions cold without sacrificing deck space. Forward, an XL coffin box with a dedicated backrest delivers abundant insulated storage and a relaxed perch, elevated by

a refined Honeycomb Stitching Package and Pure White primary upholstery for a crisp, bespoke finish.

Enhancement and convenience

Premium touches elevate every outing, from the fancy rigid rub rail with a stainless insert to the hull side dive door with ladder and a transom pullout style dive ladder for effortless water access. Freshwater washdown teams with hose coil kits for both fresh and salt washdowns, plus additional kits dedicated to each system for fast, clutter free rinsing. A deluxe electric head in the console adds genuine comfort, while an in hull windlass with custom anchor and bracket simplifies set and retrieval. A stainless steel towing eye strike plate package, Lumitec Seablaze X2 lighting, a PC1800 battery system upgrade, and a battery charger with galvanic isolator speak to robust infrastructure. Stainless steel cup holders along the gunwale and a full engine flushing system round out the practicality.

Electronics

Connectivity and command come standard, led by Starlink for always on communications offshore. Navigation is anchored by a Garmin 8624 multifunction display, with a Garmin GSD 28 CHIRP sounder module and an R599LH 3 kW transducer for penetrating fishfinding performance. Overhead, a Garmin GMR 1236 x HD3 open array radar delivers long range clarity, while a Garmin GXM 54 Sirius Weather module and a Garmin temperature sensor add real time environmental awareness. Clear comms are ensured by an ICOM M510BB blackbox VHF paired with a VHF command mic for the M400BB radio and a Shakespeare 5225 XT 8 ft VHF antenna. Entertainment is handled by a Fusion WB675 blackbox stereo with a Fusion MS ERX400 wired remote, and a convenient Type C charging outlet keeps devices powered all day.

Exclusions

Exclusions include, but are not limited to, all owner's personal items. A detailed list of exclusions will be provided at the time of sale upon written request.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
