## OVERVIEW

---

FIRST LIGHT is a standout yacht on the market, presenting a rare chance to acquire a vessel that has been expertly customized with a range of upgrades and enhancements not seen in any other yacht of its category. The yacht's current location is perfect for prospective buyers in this region. The owner, moving from a much larger yacht, has made significant investments to ensure FIRST LIGHT functions as a reliable and opulent floating home, whether moored or anchored in serene locations from South Florida to Maine. This broker can vouch for the exceptional level of upkeep and attention this yacht has received. Its eye-catching Whisper Gray hull paired with sleek white decks and contrasting smoke non-skid surfaces are truly mesmerizing.

FIRST LIGHT is outfitted with ZEUS Pod drives and powerful CUMMINS engines, featuring the Skyhook system that enables the yacht to hold a stable position against currents and winds with the simple press of a button. This feature is especially advantageous when waiting for a bridge or fuel dock to open up, or when securing a mooring. The ZEUS drive system offers complete control with steerable pod drives that independently handle the yacht's direction, positioning, and maneuverability. The Skyhook is fully integrated into the yacht's navigation electronics, autopilot, and trim tabs. Two separate vessel view displays keep track of engine, generator, and boat systems. At a cruising speed of 22 knots with a full load, FIRST LIGHT uses just 1.1 GPM, making it an efficient option for those seeking a yacht that marries performance with sophistication.
