OVERVIEW

A 41 foot example of Turkish craftsmanship, completed in 2020 and offered as a 2021 model, this motor yacht marries Mediterranean sensibility with purposeful naval engineering. Her hand finished fiberglass composite hull and GRP deck provide a reassuring combination of structural integrity and low maintenance practicality, while a clean, contemporary silhouette hints at effortless days on the water and elegant arrivals ashore.

Propulsion is simple and efficient: a single Kubota powerplant delivers quiet, economical cruising that encourages extended passages and impulsive weekend getaways. The single engine arrangement keeps ownership straightforward, yet the yacht responds with a balanced, confident feel at the helm that instills trust across a variety of sea states. It is a considered union of economy and composure, equally adept at tracing a sunlit coastline or easing into a sheltered cove.

Deck spaces are generous and uncluttered, designed for relaxed alfresco living. Robust GRP surfaces stand up to barefoot afternoons and salt air with minimal fuss, and the layout flows naturally for socializing, dining outside, or simply pausing to watch the horizon. These exterior areas form an inviting, secure stage for cruising life, finished to a high standard and ready for use.

Inside, a calm, modern interior reflects the finest Turkish detailing—clean lines, quality materials, and a focus on comfort. The volume is arranged to support both privacy and conviviality, making the layout well suited to family coastal cruises or intimate escapes for two. Storage is ample, the ambiance refined yet welcoming, and the overall experience is of a compact luxury yacht that elevates ordinary moments at sea.

Lying in Turkey and presented with the assurance of a recent build and model year, this 41 footer is an intelligent, stylish option for owners seeking reliability, elegance, and ease. Efficient to run, a pleasure to handle, and

distinctly graceful to own, she brings a big yacht attitude to a compact package.
