OVERVIEW

Available for Immediate Acquisition and Delivery

Exclusive Factory and Dealer Discounts Offered Until August 31

This pristine Swift Trawler 41 is a creation of the esteemed Italian team at Andreani Design, in partnership with Beneteau, a legendary name in boat manufacturing since 1884. This yacht for sale represents a contemporary wonder, redefining the trawler category with its cutting-edge and elegant design.

With a class B Offshore safety certification, this yacht comfortably hosts seven guests within three cabins and two bathrooms. Ideal for coastal adventures with family or entertaining friends, this vessel is a top choice for those seeking to purchase a yacht.

Key features include:

Efficient Yanmar 8LV320 (2 x 320hp) Engine Package with an exclusive 5-year warranty from Beneteau

Unmatched 3 / 7 year Manufacturer's Warranty from Beneteau

Reverse cycle heating and air-conditioning for all-season cruising

Comprehensive Raymarine AXIOM PRO Hybrid Touch Electronics suite

Quick bow and stern thrusters for effortless docking

Fresh bottom paint

Discover yacht sales at the current boat location and seize the chance to own this remarkable vessel.

DETAILED DESCRIPTION

Section name

This yacht exemplifies the pinnacle of contemporary marine design, boasting a multitude of features that guarantee both luxury and practicality. The salon is elegantly furnished with upholstery in a refined bolt greige, creating an atmosphere of subtle sophistication. The 2022 Essential trim level further elevates the yacht's allure, offering a 12v socket in the cockpit for added convenience and an extra AGM service battery to maintain a steady power supply.

Navigating and controlling the yacht is a breeze with a 9" Raymarine display and a dual-station autopilot system, complemented by Raymarine VHF radios at both stations. Strategically placed cup holders add convenience, while a dual-station deck searchlight ensures visibility in all conditions. The flybridge is outfitted with a 40-liter refrigerator, ideal for keeping beverages chilled during your journey.

The cockpit is crafted for adaptability, featuring a foldable table and two collapsible armchairs, while the rotating pilot chair with handrails and salon table extension provide extra comfort and utility. The 2022 Electronic pack includes ship control, a 12" Raymarine display in the wheelhouse, and two 12" Raymarine displays on the flybridge, along with a windvane anemometer and a dual-post autopilot system.

External upholstery in Dolce 51 - Confort adds a luxurious touch, while the stainless steel bow fitting and mooring-anchoring kit ensure robustness and ease of use. The flybridge is shielded by a flanelle bimini, and a forward sunbathing mattress in Dolce51 invites relaxation under the sun.

The galley is fully electric, running on 110v, and the flybridge includes a 115v 60hz grill. An oak ice maker, also at 115v 60hz, ensures you are always

prepared to entertain. The yacht is equipped with a robust 110v 60hz air conditioning system, delivering 48,000 BTU to maintain the perfect interior climate.

Interior features include slatted oak doors and a single mattress in the third cabin, offering both style and comfort. A rear camera and Raymarine ClearCruise technology enhance safety and navigation, while the Raymarine radar keeps you constantly aware of your surroundings. The wheelhouse is equipped with a 12" display, replacing the previous 9" model for enhanced visibility and control.

Lastly, porthole mosquito screens in oak and a teak slatted aft swim deck complete the yacht's impressive array of features, ensuring every voyage is as pleasurable as it is opulent.

Deck equipment

The deck equipment on this yacht is crafted to deliver both practicality and security, ensuring a smooth sailing experience. Starting with the starboard gangway door, it allows for easy access and movement around the vessel. The mooring and anchoring system is robust, featuring a 1,000 W vertical electric windlass with remote up and down controls, operable from the windlass, wheelhouse, and flybridge. This is complemented by ten mooring cleats, each 300 mm (12 inches) in length, and stainless steel gunwale guards for added protection. A dedicated compartment with self-bailers and polyester covers ensures efficient water drainage.

Safety on deck is a top priority, with an open stainless steel pulpit that surrounds the cockpit up to the steps, providing secure movement. The cockpit itself is equipped with leather-covered stainless steel handrails, enhancing both safety and style. It is self-bailing and features a gas piston-assisted, lockable locker in the cockpit bottom. The gas cylinder locker is integrated into the aft bench, and a hot/cold water cockpit shower adds

convenience. Access to the cockpit is facilitated by a double starboard access door, and the swimming platform, measuring 3.80 x 1.15 meters (12'6" x 3'9"), includes a rubbing strake for protection. A sliding bench seat on the platform, an ergonomic bathing ladder with handholds, and an emergency ladder ensure ease of use and safety. Additionally, a PMMA access door at the starboard side deck from the cockpit provides further accessibility.

The flybridge is a standout feature, designed for both relaxation and control. It is self-bailing and features a retractable stainless steel ladder with a double access ramp and solid wood treads. The grey-tinted PMMA windscreen and access via a polyester hatch add to the sleek design. A stainless steel pulpit surrounds the aft of the flybridge, and a polyester mast is available for mounting navigation lights, radar, and aerials. The central steering console is equipped with a comprehensive control panel, including electric engine controls, electric windlass control, thruster, and trim tab, along with a rev counter and rudder angle indicator. Space is provided for navigation electronics, and the steering wheel is crafted from stainless steel, accompanied by a steering compass and hydraulic steering. A fog horn and double USB socket are also included for added functionality.

The flybridge offers an adjustable pilot seat and two co-pilot places with a convertible backrest, ensuring comfort during navigation. The face-to-face salon on the flybridge features an L-shaped bench seat with integrated stowage and a solid wood table, perfect for socializing. A GRP unit with a sink, handrail, and stowage, along with speakers, enhances the entertainment options. The set of flybridge covers, including console, bench seating, and table, in white PVC, ensures protection and longevity of the equipment.

Accommodations

The accommodations aboard this yacht are crafted to deliver both opulence and comfort, ensuring a delightful experience for every guest. The owner's

cabin, situated at the front, boasts a generous headroom of 1.95 meters (6'5") and features a spacious double berth measuring 1.95 by 1.60 meters (6'5" x 5'3"). There is ample storage beneath the berth and on either side of the bed, complemented by a mirror, a lit hanging locker, and a cupboard with shelves. Natural light fills the cabin through an opening deck hatch equipped with a mosquito screen and blind, as well as two hull windows with opening portholes and blackout blinds. Venetian blinds and a padded headboard enhance the cabin's elegance, while pre-wiring for a TV with Fusion Apollo 670 and speakers provides entertainment options.

The owner's cabin head is equally remarkable, offering a headroom of 1.95 meters (6'5") and a separate shower compartment complete with a seat, porthole, and solid wood finish. The head includes a mirror, top and bottom cupboards, and an electric toilet with options for both fresh and saltwater flushing. An oval washbasin, an opening deck hatch with an integrated blind, a hull portlight, and Venetian blinds complete the amenities.

The VIP cabin on the port side provides a headroom of 1.96 meters (6'6") and features two single beds that can be converted into a double bed, measuring 1.96 by 1.52 meters (6'5" x 5'8"). Storage is abundant with cupboard units, storage under the berth, and a cubby hole locker. A hull window with an opening porthole and blackout blind, a 110 V power outlet, two USB sockets, and a padded headboard ensure comfort and convenience.

The lazarette or third cabin on the starboard side offers a headroom of 2.10 meters (6'11") and provides modular storage, space under the berth, and room for a washer dryer. It is equipped with a 110 V power outlet and two USB sockets, making it a versatile space for various needs.

The starboard head, serving as a day toilet, offers a headroom of 1.92 meters (6'4") and includes a mirror, top and bottom cupboards, an opening porthole, and an electric toilet with fresh and saltwater flushing. An oval washbasin, mixer tap, shower, and towel rail complete the facilities, ensuring all the

comforts of home while at sea.

Interior

The interior of this yacht exemplifies both sophistication and practicality, offering a selection of wood finishes in Alpi oak strip, beautifully paired with a teak deck featuring black seams. The upholstery throughout the yacht is made from Marlin Brilliant white PVC, creating a sleek and contemporary look. The pilot bench is finished in Marlin white and Polaris, providing both comfort and elegance.

The interior steering station boasts a clear glass windscreen set in black lacquered aluminum, with an anti-reflective coating for optimal visibility. Three synchronized electric windscreen wipers, a washer, and a defogger ensure clear views in any weather. The side windows also have black lacquered aluminum frames, enhancing the sophisticated appearance. The dashboard is designed to accommodate navigation electronics and includes engine dials such as a revolution counter, fuel gauge, warnings, rudder angle indicator, and trim tab indicators. Controls for the electric windlass, bow thruster, navigation lights, electric windscreen wipers, fog horn, and dual engine controls are all easily accessible. The steering wheel and compass, along with a double USB socket, dual pilot bench seat with handrails, removable floor step, sliding side door with direct access to the catwalk, and a cup holder, complete the station's features.

The salon offers a headroom of 1.90 meters (6'33") and features a U-shaped seating area that can be converted into a double berth. Dividing rails and curtains provide privacy, while Roman blinds and a varnished wood salon table add a touch of luxury. Storage is ample with cupboards and a large stowage drawer. The sliding aft bay doors, framed in black lacquered aluminum, lead to the cockpit, where a leather-sheathed stainless steel handrail provides safety. Entertainment is ensured with an MP3, USB, and iPod® player connected to

two speakers in the wheelhouse and two in the cockpit, along with TV pre-wiring for Fusion Apollo 670 and speakers.

The galley, with a headroom of 1.95 meters (6'5"), is U-shaped and faces both the cockpit and salon. It includes a Corian Nimbus Prima countertop, two stainless steel sinks with hot and cold water mixer taps, a gas oven, and a three-burner hob with a protective glass cover. A 215-liter upright fridge with a freezer function, storage, drawers, and a bin accessible from both the cockpit and galley ensure practicality. Handrails are strategically placed for safety and ease of movement.

Engine

The heart of this yacht is its powerful and dependable Yanmar 8LV 320 HP diesel engine. This sturdy engine is coupled with a straight shaft propulsion system featuring dripless seals, guaranteeing smooth and efficient performance. Outfitted with four-blade propellers, the yacht boasts enhanced maneuverability and speed.

For precise handling, the yacht is equipped with both a double station bow thruster and a double station stern thruster, facilitating effortless docking and navigation in confined areas. The engine's durability and efficiency are bolstered by fuel and sea water filters, ensuring clean and effective operation.

The engine room is insulated with high-density foam, reducing noise and vibration for a more pleasant onboard experience. An air intake on the port hull plating provides cooling to the engine compartment, maintaining optimal temperatures. Safety is paramount, with an extinguisher conveniently located in the engine room.

Fuel management is simplified with a dual deck filler for the fuel tank, featuring interconnection for easy refueling. The yacht is equipped with two aluminum fuel tanks, each holding 585 liters (155 US gallons), interconnected

and prepared for the installation of a Fuel Polishing System (FPS) to maintain fuel quality.

The steering system is crafted for accuracy and dependability, featuring two underhung rudders made of stainless steel and hydraulic steering, ensuring smooth and responsive control in all conditions. This comprehensive engine configuration guarantees that the yacht delivers outstanding performance and reliability on every journey.

Plumbing

The yacht's plumbing system is meticulously crafted to deliver both efficiency and convenience, ensuring all the necessary comforts for a pleasant voyage. It includes a manual bilge pump situated in the cockpit, complemented by two automatic electric bilge pumps for optimal water management. The water system features a pressurization unit for the hot and cold water circuits, complete with an accumulator tank to maintain steady water pressure.

A 40-liter (11 US gallons) water heater, powered by the engine exchanger and 110 V electricity, guarantees a dependable supply of hot water. The yacht is equipped with a water tank filler and two rotomolded water tanks, each holding 200 liters (53 US gallons), providing ample fresh water storage for long journeys.

For waste management, the yacht is fitted with a drainage outlet for the black water holding tank, a 120-liter (32 US gallons) holding tank, and a 45-liter (12 US gallons) waste water tank, ensuring eco-friendly waste disposal. A deck washdown pump is available to maintain cleanliness on board, and a shore freshwater supply connection facilitates easy replenishment of water reserves when docked.

This well-rounded plumbing system ensures that all water-related needs are addressed efficiently and effortlessly, enhancing the overall onboard

experience.

Electricity

The yacht's electrical system is meticulously crafted to deliver comprehensive power solutions for all onboard requirements, ensuring both convenience and efficiency. Central to the system is an electrical panel that accommodates both 12 V and 110 V power, allowing for flexible energy management. A 110 V shore power socket simplifies connection to dockside power sources.

The yacht features ten 110 V outlets strategically distributed throughout the vessel: two in the salon, two in the galley, two in the owner's cabin, one in the VIP cabin, one in the third cabin, one in the owner's head, and one in the second head. Additionally, there are fourteen USB sockets spread across the yacht, including two in the salon, two at the steering station, four in the owner's cabin, two in the VIP cabin, two in the third cabin, and two on the flybridge, providing ample charging options for electronic devices.

Power storage and supply are robust, with four engine batteries (12 V - 50 Amp) and two AGM service batteries (12 V - 140 Amp) ensuring reliable energy reserves. Two 25 Amp battery chargers keep these batteries fully charged and ready for use. Lighting is thoughtfully integrated both inside and outside the yacht, featuring overhead lights, reading lights, and LED indirect lighting for a warm and inviting atmosphere. Exterior lighting includes navigation lights and a mooring light with stainless steel mountings, enhancing safety and visibility. To meet all electrical demands, the yacht is equipped with a 7.5 kVA generator, ensuring a consistent power supply even when away from shore. This comprehensive electrical setup guarantees that all onboard systems operate smoothly, providing a comfortable and enjoyable experience for all passengers.
