OVERVIEW

1985 Apache 41 Race Don Aronow Design

The 41 Apache is the epitome of excellence from this renowned brand, with this specific model being the most exceptional example. "Team Apache" has undergone a thorough restoration, maintaining its classic allure while integrating modern upgrades that enhance its original splendor. With only a few 41' race versions ever made, this one is the most sought-after. If you're in the market for a yacht with a distinguished racing history in pristine condition, this is your chance.

To breathe new life into "Team Apache," an exhaustive restoration was carried out by an owner who spared no expense. Every part was either restored, replaced, or custom-made to achieve perfection. The restoration and final rigging were expertly handled by TNT Custom Marine in Miami, Florida, a leader in yacht sales in the current boat location.

The yacht is equipped with Keith Eickert engines, each producing 900 HP based on 575 Merlin blocks. These engines have been revitalized and upgraded with cutting-edge intercoolers by Progressive Racing Engines. BAM Marine transmissions are coupled with Mercury Racing number 6 drives, perfectly matching the engines' power and performance. The new fuel tanks are crafted to beautifully replicate the originals.

Custom hinges and hardware were specifically designed for this yacht. A bespoke anodized aluminum dashboard, complete with engravings, displays the new modern gauges and monitors while preserving the original look.

With guidance from Bob Saccenti, the founder of Apache Powerboats, the original artist, Gail Paik, was commissioned to repaint "Team Apache." Paik, celebrated for her work with the original Apache Racing team, has turned the yacht into a breathtaking masterpiece.

Miami Prestige meticulously recreated the flawless three-man bolster race setup for the interior. Every detail was considered, with new upholstery and bolstering that reflect the original design. Featuring a center steer race setup, Latham Marine controls, and throttles, the 41 Apache seamlessly combines its rich history with modern functionality, remaining true to its legacy as an offshore race boat.

The rigging, executed by TNT Custom Marine, is a testament to their reputation as the foremost experts in race boats, custom pleasure boats, and extraordinary restorations.

Apache Powerboats are renowned for their superior offshore V hulls, a hallmark of an era when offshore racing was intensely competitive. Speed, durability, championship victories, and style are the qualities that make Apache a revered name among boating enthusiasts worldwide. The 41 Apache represents the pinnacle of "thunder boat row" and classic Miami offshore racing, and this 41' "Team Apache" Red Banner yacht is the finest example available.

DETAILED DESCRIPTION

Section name

The 1985 Apache 41 Race Don Aronow Design is a true marvel of maritime craftsmanship and restoration, epitomizing the zenith of offshore racing legacy. Dubbed "Team Apache," this vessel represents the most iconic hull ever crafted by the legendary Apache brand, standing as the finest specimen available. This specific 41-foot racing model is highly coveted, presenting a unique chance for enthusiasts seeking an authentic Apache race boat in pristine, ready-to-go condition with an impeccable lineage.

To return "Team Apache" to its original splendor, a painstaking and thorough restoration was undertaken by an owner who spared no expense. Every part of the boat was either restored, replaced, or custom-crafted to achieve perfection. The restoration was expertly managed by TNT Custom Marine in Miami, Florida, who completed the final rigging with unmatched skill.

Beneath the surface, the boat is driven by Keith Eickert engines, each producing 900 horsepower and based on 575 Merlin blocks. These engines were revitalized and enhanced with state-of-the-art intercoolers by Progressive Racing Engines. Power is channeled through BAM Marine transmissions, paired with Mercury Racing number 6 drives, ideally suited to handle the performance and power of the rejuvenated engines. The new fuel tanks are designed to replicate the originals, preserving the boat's authentic look.

The vessel's attention to detail is evident, with numerous hinges and hardware pieces crafted specifically for this boat. A bespoke anodized aluminum dashboard, complete with engravings, displays the new modern gauges and monitors while maintaining the original aesthetic. The original artist, Gail Paik, was commissioned to repaint "Team Apache," resulting in a stunning masterpiece that captures the essence of the original Apache Racing team.

Miami Prestige meticulously handled the interior details, recreating the flawless three-man bolster race setup. The new upholstery and bolstering reflect the original design, ensuring no detail was missed. Featuring a center steer race setup, Latham Marine controls, and throttles, the 41 Apache seamlessly merges its rich history with modern features, making it both functional and true to its heritage as an offshore race boat.

The rigging, executed by TNT Custom Marine, is a testament to their reputation as the premier experts in race boats, custom pleasure boats, and remarkable restorations. Apache Powerboats are celebrated for their speed, resilience, offshore championships, and style, making them the most sought-after name among boating enthusiasts worldwide. The 41 Apache embodies the pinnacle of "thunder boat row" and classic Miami offshore racing, and this "Team Apache" Red Banner boat is the finest example available.

With an overall length (LOA) of 41 feet, a beam of 8 feet, and an approximate weight of 10,500 pounds, this vessel commands attention on the water. It features an approximate fuel capacity of 300 gallons distributed across six tanks, ensuring it is prepared for any offshore journey.

Other details

The Company offers the information about this vessel with complete honesty, but it cannot ensure or certify the accuracy of the details provided, nor can it guarantee the vessel's condition. Potential buyers are advised to employ their agents or surveyors to meticulously examine and confirm any details they consider essential. It is crucial to understand that this vessel is available subject to prior sale, possible price adjustments, or removal from the market without prior notification.

Propulsion

This yacht is equipped with a pair of powerful Keith Eickert engines, each offering a remarkable 900 horsepower. Both engines, of the 900HP model, have been carefully maintained and have only 6 hours of use, guaranteeing they are in optimal condition for peak performance. Running on gasoline, these engines supply the essential power and efficiency needed for an exhilarating and dependable nautical journey. With a combined power output of 1800 horsepower, this propulsion system is crafted to provide outstanding speed and maneuverability on the water.

Specifications

This yacht features remarkable dimensions that enhance its striking presence on the water. Spanning an overall length of 41 feet, it provides generous space for both high performance and luxurious comfort. The beam extends to 8 feet, offering stability and a roomy deck area, which improves both the vessel's maneuverability and the onboard experience. These specifications guarantee that the yacht is not only an engineering masterpiece but also a versatile and delightful platform for any seafaring journey.
