DETAILED DESCRIPTION

Accommodations

This yacht is meticulously crafted to offer luxurious accommodation for up to five owners and guests. Central to its sleeping quarters is the forward Master Stateroom, offering a serene haven for two. The dinette area is cleverly designed to transform into an additional sleeping space for two guests. Above the dinette, a Pullman berth is seamlessly incorporated, providing an extra bed for one more guest, making the total sleeping capacity five. The yacht is also equipped with a beautifully designed head with a shower, ensuring all aboard enjoy both convenience and comfort.

Master stateroom fwd

The forward Master Stateroom is a blend of opulence and functionality, crafted with the sophisticated yacht owner in mind. It boasts generous rod storage lockers, keeping your fishing equipment neatly arranged and ready for use. With ten storage drawers, there is ample room for personal items, making long voyages effortless. The "keyhole" entry to the stateroom adds an element of sophistication and seclusion, while the recessed indirect LED lighting sets a cozy and welcoming mood. Two large cedar-lined hanging lockers offer extensive space for garments, ensuring everything remains fresh and orderly. At the heart of this stunning stateroom is a queen-size bed, featuring a luxurious 6-inch spring mattress for ultimate comfort. Additional storage beneath the bed maximizes space efficiency, making this stateroom both elegant and practical.

Main cabin

The main cabin of this yacht seamlessly combines comfort, elegance, and practicality, crafted to elevate your time on board. It includes a snug LED reading lamp, ideal for diving into a book or unwinding. Entertainment is always within reach with a Jensen flat-screen TV, ensuring you stay connected to your favorite programs. Safety is a top priority, with a Coast Guard safety kit included for your peace of mind. The central vacuum system simplifies cleaning, while the Pullman berth above the dinette provides extra sleeping accommodations. The dinette itself is adaptable, transforming into a double berth as needed, and is conveniently paired with a rod storage locker above. The cabin is adorned with whisper wall treatment throughout, fostering a tranquil and quiet atmosphere. LED rope lighting adds a touch of sophistication, casting a beautiful glow across the space. Custom cherry cabinetry with a satin finish offers generous storage, enhanced by chrome-finished positive catch push button latches on all cabinetry for secure closure. The flooring is a striking Amtico teak and holly, infusing the cabin with warmth and refinement. Comfort is guaranteed with a reverse cycle air conditioning and heating system, allowing you to maintain the ideal temperature all year long. For music enthusiasts, the Fusion MS AV-755 AM/FM/CD/DVD/SAT stereo system provides outstanding sound quality, ensuring every moment on board is a pleasure.

Head

The head on this yacht is crafted to blend practicality with sophistication, ensuring a pleasant and convenient experience. It includes a strategically positioned mirror and an exhaust fan to keep the air fresh. LED lighting delivers bright and efficient illumination, enhancing the contemporary ambiance of the space. The electric head is user-friendly, while the non-slip

floor ensures safety even when wet. The medicine cabinet offers generous storage for personal items, and the addition of towel bars and toilet paper holders enhances convenience. The solid surface vanity is both chic and functional, featuring a sink and extra storage. A separate stall shower, equipped with an automatic sump pump, adds a touch of luxury, providing a refreshing and private showering experience.

Galley

The galley on this yacht exemplifies contemporary design and practicality, offering everything necessary for gourmet cooking while at sea. It includes an ice maker, ensuring a constant supply of ice for beverages or culinary purposes. A strategically placed trash bin keeps the area neat, while LED lighting on the countertops provides a bright and efficient workspace. Storage is plentiful, with well-organized cabinets and drawers keeping all kitchen essentials within easy reach. The galley is equipped with a versatile microwave that doubles as a convection oven, providing various cooking options. For connectivity, an HDMI and USB outlet is conveniently integrated into the galley cabinet, facilitating easy charging and device use.

The AC/DC refrigerator and freezer drawers offer generous space for storing fresh and frozen items, ensuring you are well-prepared for your voyage. The recessed two-burner electric cooktop, complete with a cover, provides a sleek cooking surface that is both efficient and easy to maintain. The expansive solid Corian countertop is not only stylish but also functional, featuring a stainless steel sink that adds a touch of sophistication to the galley. This well-equipped space ensures that every meal preparation is a delight, making it a standout feature of the yacht.

Helm deck

The helm deck of this yacht exemplifies exceptional craftsmanship and meticulous design, blending functionality with luxury. It includes a helm cover to safeguard the controls, while strategically placed drink holders keep refreshments within easy reach. The flexi teak flooring adds elegance and durability underfoot. Access to the companionway is effortless with a well-crafted door, and the enhanced seat cushions offer outstanding comfort for extended voyages. The Palm Beach style helm pod, combined with a stainless steel steering wheel, creates a refined command center. Trim tab switches with indicators provide precise control, and the bench seating with storage underneath optimizes space utilization.

A flush-mounted compass with illumination ensures precise navigation, and the day hatch allows easy access to the engine room. The release teak helm seat footboards add a touch of sophistication, while the rocker style switch panel with backlighting improves usability. The helm deck is fitted with its own air conditioning unit, ensuring comfort in any weather. A deluxe rod and equipment storage locker keeps gear organized and secure. Complete instrumentation with LED lighting ensures clear visibility of all controls, and the two Release Marine helm seats, crafted from teak with enhanced cushions, provide premium seating. The molded fiberglass helm deck is hydraulically lifted, featuring full-length gutters for effective water management, making this helm deck a standout feature of the yacht.

Electronics and navigation

The yacht's electronics and navigation system is cutting-edge, providing the latest technology for a smooth and secure voyage. Communication is bolstered by a SAT phone, ensuring dependable connectivity even in isolated locations. The Garmin AIS 800 keeps you informed of nearby vessels, enhancing safety

and situational awareness. For entertainment, the Fusion SXV 300 Sirius Tuner offers a diverse array of audio options.

Navigation is simplified with the Garmin Reactor 40 Auto Pilot, enabling precise and automated steering. The Garmin GXM 53 SAT Weather System keeps you updated on weather conditions, while the Garmin GSD 26 CHIRP Black Box Sounder delivers detailed underwater insights. At the helm, three Garmin GPSMAP 8617 17" displays provide extensive navigation data, supported by two Icom M506 rear mount VHF radios for clear communication.

The Garmin GMI 20, in conjunction with the Garmin 235 kHz Smart Ducer, offers precise depth and speed measurements. In the engine room, three Garmin GC200 Marine IP Cameras provide real-time surveillance for enhanced security. The Garmin GMR Fantom 124 Radar, featuring a 4' open array antenna, offers outstanding target detection and tracking capabilities.

For underwater lighting, two Lumishore TIX-403 blue/white lights are mounted at the transom, creating a breathtaking visual display. The Garmin CHIRP B275C-LH Wide 1kW Transducer, flush-mounted in the keel, ensures accurate sonar readings. This extensive suite of electronics and navigation tools guarantees that every journey is undertaken with assurance and simplicity.

Tuna tower

The tuna tower on this yacht is a masterpiece of engineering and design, offering an elevated position for spotting fish and enhancing the fishing experience. It includes a Rupp center rigger and hydraulic outriggers with a Rupp roller system, ensuring top-notch performance and ease of use. The molded tower sunshade provides protection from the elements, while the molded SAT dome mount and integrated running lights contribute to the tower's sleek look. There are six rod holders positioned aft of the hardtop, along with six more on the cockpit tower legs, three on each side, offering ample storage for fishing gear.

The tower features a bench seat with a backrest, providing comfort during extended hours on the water. Four teaser line collars for outriggers and two Miya Epoch US 9 HD 24v teaser reels enhance the tower's fishing capabilities. The molded one-piece standing platform and flush-mounted compass in the tower box ensure stability and precise navigation. The tower control box, complete with steering and controls, is protected by a cover and includes a recessed electronics box on both the port and starboard sides.

The Costa Clear Elite Series four-sided enclosure offers excellent visibility and protection from the elements. The tower is illuminated by a molded 2-in-1 24v LED aft spreader lights pod and six Lumitec tri-color recessed lights under the hardtop. Additional lighting includes two recessed Lumitec tri-color lights under the tower sunshade and two more under the standing platform. The Palm Beach Towers custom 4' gap tower with brushed pipe adds a touch of elegance, while the radar pod express style is molded with a sliding teaser reel box door for easy access. Trim tab switches, engine start/stops, and a horn button are conveniently located for quick operation, making this tuna tower a standout feature of the yacht.

Tuna tower electronics

The electronics in the tuna tower of this yacht are crafted to offer flawless control and navigation from an elevated perspective, boosting both safety and convenience. Central to this system is the Garmin Auto Pilot Remote, enabling precise and effortless steering adjustments, ensuring you maintain your course with ease. Complementing this is the Icom HM 195B Command Mic, providing clear and dependable communication, vital for coordinating with the crew and other vessels. The Garmin GPSMAP 7607 Display delivers comprehensive navigation data, offering real-time information essential for making informed decisions while at sea. This advanced suite of electronics ensures that the tuna tower serves not only as a strategic observation point

but also as a fully equipped command center, enhancing the overall functionality and enjoyment of your yachting experience.

Deck

The deck of this yacht is expertly crafted to blend safety, functionality, and elegance, ensuring an exceptional experience on the water. It boasts a non-slip surface, offering outstanding grip and security in all weather conditions. The deck is fitted with two windshield wipers and fresh water washers, guaranteeing clear visibility regardless of the weather. At the bow, a Maxwell stainless steel plow anchor is firmly mounted on a bow pulpit with an anchor roller, ensuring smooth and efficient anchoring operations. The anodized aluminum bow rail adds a touch of sophistication while enhancing safety. Stainless steel stern hawse pipes and cleats at the bow, stern, and spring positions ensure secure mooring and docking. The deck also features a Bomar hatch with a screen and shade, allowing for ventilation and natural light while keeping insects at bay. A fresh water wash down spigot is conveniently located in the anchor locker, making it easy to rinse away salt and debris. The Maxwell anchor windlass, complete with rope, chain, and anchor, ensures reliable anchoring capabilities.

The oversized three-sided windshield, with its fiberglass frame and single panel front, provides excellent visibility and protection from the elements. This well-equipped deck is designed to elevate your yachting experience, offering both practicality and elegance.

Cockpit

The cockpit of this yacht is expertly crafted to blend functionality with comfort, making it perfect for both fishing and leisure. It includes a transom door for easy water access and a transom fish box for convenient catch storage. The full

cockpit cover shields you from the elements, while the cable TV connection ensures entertainment is always available. Strategically placed scuppers allow for self-bailing, keeping the cockpit dry and secure.

The flexi teak flooring and steps add a touch of elegance and durability, and 12v outlets on both port and starboard sides provide convenient power access. A 50-amp shore power connection meets all your electrical needs. The cockpit is equipped with both fresh and raw water wash down systems, simplifying cleanup after a day of fishing. An aluminum plate laminated into the deck adds extra strength and support.

Safety is paramount, with a Viking 6-man life raft positioned on the aft of the hardtop. LED courtesy lighting under the gunwales creates a welcoming atmosphere, while molded-in boarding steps on both port and starboard sides ensure easy access. Four stainless steel flush-mounted rod holders offer ample storage for fishing rods, and a large insulated in-deck fish box with a macerator keeps your catch fresh.

The cockpit also features cushions atop the tackle locker, freezer, and live well, enhancing comfort alongside functionality. The live bait well, coated with "calming blue" gelcoat and fitted with an LED light, keeps bait lively and visible. The tackle and bait prep center includes tackle storage, a sink, and a bait freezer, ensuring you have everything needed for a successful fishing trip. The Release Marine teak 4-rod rocket launcher, complete with a bait tray, drawer, and a 4" no-bolt stainless steel pedestal, stands out as a feature that combines style with practicality.

Hull and construction

The hull and construction of this yacht exemplify exceptional craftsmanship and resilience, crafted to endure the challenges of the sea while retaining a refined appearance. The hull boasts a light blue Awlcraft finish, accented by a dark blue boot stripe that adds a layer of sophistication. The yacht's underside

is safeguarded with dark blue bottom paint and a barrier coat, offering enduring protection against marine growth and wear.

The construction includes a fiberglass-encapsulated stringer system, delivering outstanding strength and stability. The heavy-duty vinyl rub rail with a stainless steel insert not only enhances the yacht's sleek silhouette but also provides extra protection against impacts. The hull, deck, and liner are bonded and mechanically fastened, ensuring a sturdy and secure structure.

Accessible gelcoated bilge areas facilitate easy maintenance and inspection, contributing to the vessel's overall longevity. The yacht is built using molded, hand-laid fiberglass with a premium gelcoat finish and vinylester resin, ensuring a high-quality, durable construction. This meticulous attention to detail in the hull and construction guarantees that the yacht is not only visually impressive but also built to endure, offering peace of mind for every journey.

Engines and mechanical

The engines and mechanical systems of this yacht are designed for high performance, dependability, and easy maintenance, ensuring smooth and efficient sailing. At the core of the yacht are twin 715 hp diesel inboard 2019 Cummins QSM 11 engines, with 790 hours recorded as of September 18, 2023. These robust engines are paired with Acme CNC machined 4-blade Nibral propellers, delivering optimal thrust and efficiency.

The yacht features bronze struts and rudders with stainless steel shafts, ensuring durability and precise control. The hydraulic steering system with power assist enhances maneuverability, while engine synchronizers and trolling valves allow for smooth and controlled operation. The SeaKeeper 6 gyro stabilizing system offers exceptional stability, minimizing roll and enhancing comfort.

For safety and maintenance, the yacht is equipped with an automatic Fireboy

fire protection system, engine alarm system, and engine room blowers. The engine room is finished with a bright white gelcoat and insulated for sound and thermal efficiency. Dripless shaft seals and external sea strainers add to the reliability of the mechanical systems.

The yacht also includes a 24v bow thruster for precise docking, hydraulic trim tabs for optimal performance, and an engine-driven emergency bilge pump for added security. The oil change system and fuel/water separator filters simplify maintenance, while the Cummins remote engine room gauge package offers comprehensive monitoring.

Additional features include a 12-gallon hot water heater, a holding tank with dockside and overboard pump-out, and gauges for holding and fresh water tanks. The yacht is equipped with three bilge pumps with indicator lights, float switches, and high-water alarms, ensuring safety in all conditions. The fiberglass mufflers and stainless steel double taper shafts further enhance the yacht's performance and durability, making this mechanical setup a standout feature of the vessel.

Electrical system and equipment

The electrical system and equipment on this yacht are crafted to deliver dependable and efficient power management, ensuring all onboard systems function smoothly. At the core of this setup is the 24v DC electrical system, supported by a 65-amp battery charger and six robust marine batteries housed in protective enclosures. The battery paralleling feature guarantees redundancy and reliability, while vapor-proof electric battery on/off switches enhance safety.

The yacht is fitted with a 9kW Onan diesel generator, cooled by fresh water and equipped with a remote start and gauge panel, supplying ample power for all onboard needs. The AC electrical distribution panel includes digital line voltage and load meters, along with circuit breakers for precise power

management. Complementing this is the DC electrical distribution panel, featuring digital battery voltage and load meters, ensuring comprehensive monitoring of the electrical system.

LED lighting is utilized throughout the yacht, including navigation lights, interior lighting, and engine room lights, offering energy efficiency and longevity. The dual trumpet air horn ensures clear signaling, while the bonded electrical system with a transom zinc plate provides corrosion protection. Ground fault receptacles are strategically placed in the galley, head, engine room, and lazarette for added safety.

The yacht also includes a 50-amp dockside service with a 50' shore power cord, allowing for easy connection to shore power. The color-coded wiring system simplifies maintenance and troubleshooting, while the DC breaker provides uninterrupted power to the bilge pump and high water alarm, ensuring safety in all conditions. This robust electrical system and equipment setup ensures that the yacht is well-equipped to handle all power demands, providing peace of mind and convenience for every voyage.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
