OVERVIEW

ARON Flying Ship – The Future of Marine Aviation

Innovative Design. Certified Breakthrough. Unparalleled Efficiency.

Meticulously engineered, the ARON Flying Ship transforms marine travel with state-of-the-art Wing-in-Ground (WIG) technology. Boasting a trimaran hull, this yacht ensures remarkable stability, safety, and comfort, even during low-altitude journeys. Its nearly unsinkable structure makes it perfect for coastal, commercial, and high-performance private applications.

Built with cutting-edge hybrid composites and employing heterogeneous material bonding and vacuum infusion techniques, ARON withstands tough marine conditions while reducing long-term upkeep.

Key Certifications & Recognition:

KR Certification & Manufacturing Method Approval

Recognized as a National Core Technology Company by the Ministry of Trade, Industry, and Energy for advancements in WIG systems

Eco-Efficient Performance Meets Versatility

ARON is not just a technological marvel—it's a stride towards sustainability:

Up to 50% fuel savings compared to helicopters

20–30% more efficient than yachts in its category

Minimal infrastructure required – launches from portable pontoons

Trailerable and compact – easy to store and transport

Whether you're conducting commercial tours, leading private eco-adventures, or handling critical logistics, ARON offers the ideal mix of performance, cost-effectiveness, and operational flexibility.

Step into the future of marine aviation—dominate the skies just above the waves with ARON.
