DETAILED DESCRIPTION

Technical specifications

This extraordinary yacht exemplifies state-of-the-art marine technology and opulent design. Equipped with up to three outboard motors, it delivers powerful and dependable propulsion, seamlessly integrated into the engine system. Constructed entirely from full carbon fiber, the yacht features a lightweight yet remarkably strong structure, enhancing both its performance and longevity on the water.

A key highlight of this vessel is its impressive maximum beam of 15 feet 11 inches (4.85 meters) when the foldable terraces are extended, providing ample space for relaxation and entertainment. Despite its spaciousness, the yacht maintains an efficient fuel consumption rate, ranging from 5.8 to 7.8 liters per nautical mile (1.53 to 2.06 US gallons per nautical mile), depending on speed, making it both cost-effective and eco-friendly.

Designed to comfortably host up to 12 guests, this yacht is ideal for social gatherings or enjoying a day on the water with loved ones. It complies with the EU Recreational Craft Directive, classified under Design Category B, ensuring it meets rigorous safety and performance standards for offshore cruising.

This yacht is more than just a vessel; it is a symbol of sophistication and innovation, offering an unmatched experience on the open waters.
