OVERVIEW

See her on display at the Palm Beach International Boat Show, March 25–29. COMMODORE TWO is a pristine Mag Bay 42 Hardtop Express presented turnkey and tenderly maintained, ready to head offshore at a moment's notice. Unique as the only 42 equipped with Furuno Omni sonar, she also carries upgraded electronics, FLIR thermal imaging, Zipwake interceptors and a SeaKeeper gyro that together deliver unmatched situational awareness and rock steady stability. With just 140 hours, LLC ownership and all maintenance up to date, her condition is essentially like new. Power comes from robust Volvo D13s paired to ZF transmissions with straight shafts and 4 blade props, providing confident performance and extended range, and she benefits from a transferable Volvo extended warranty for added reassurance. Supplied with brand new, top tier fishing gear included in the sale, she is both a tournament ready sportfishing yacht and a serious offshore sportfish platform cloaked in express cruiser refinement. Built by the original Cabo Yachts craftsmen, Mag Bay's renowned build quality and meticulous finish are apparent throughout. Offered reluctantly due to the owner's health, this exceptional express sportfisher awaits her next steward.

DETAILED DESCRIPTION

Highlights

Power comes from Volvo D13 straight shaft 1000hp engines—the smooth, space saving inline six design employs the Bosch Common Rail fuel system, widely regarded as the most reliable in marine diesels—and they carry a five year transferable warranty. Precision close quarters control and station keeping are effortless with ZF Marine transmissions paired with ZF's JMS (Joystick Maneuvering System) featuring iAnchor and iDrift. A fiberglass integrated hardtop and fiberglass molded windshield frames eliminate aluminum to powder coat, while a Seakeeper SK6 gyro stabilizer keeps the ride level in a seaway. Ship's power is delivered by a 13.5KW Onan generator, and serviceability is enhanced by a reverse oil change system. Steering is via SeaStar Optimus electric over hydraulic, with a swim platform and boarding ladder aft and custom West Coast style bow rails in 316 stainless steel forward. The helm and cockpit are purpose built for long days on the water, with a mezzanine cold plate, Release Marine Trillion Series helm chairs on SHOX shock mitigating mounts, a faux teak helm pod, and helm deck air conditioning with two separate units. Atmosphere and visibility are elevated by Lumishore accent lighting throughout and Lumishore underwater lights with LumiLink integration to the Garmins. Navigation and fish finding are entrusted to dual Garmin 8624 displays, a Furuno CH600H/24/400 85/215kHz sonar system, and a Garmin GMR Fantomtm 254 radar with a 4' open array antenna. Entertainment and communications include a Fusion Apollo stereo, dual Garmin VHF, and a Garmin autopilot, complemented by a FLIR m364c LR stabilized thermal/visible long range Ip camera and a comprehensive Garmin camera package with two engine room cameras, one aft lazarette camera, and an anchor locker camera. Security is provided by a GOST system. Comfort at

anchor or underway comes from a full polycarbonate removable aft enclosure, a full mosquito screen removable aft enclosure, a full windshield shade, side window shades, and an aft cockpit shade supported by carbon fiber poles, plus an electric sunroof over the helm. Offshore readiness is rounded out by E Riggers for antennas and the light mast, Rupp electronic outriggers controllable from the helm, a Release rocket launcher, and 6 Gem swivel rod holders.
