OVERVIEW

Experience the 2024 Wallytender 43, a refined exemplar of contemporary yacht design. Draped in elegant Tyrrhenian Blue and measuring 13.20 meters overall, she marries sculpted lines with purposeful functionality. A SEAKEEPER NG3 gyro delivers quiet, confident stability underway, while a clever passerelle that converts into a swim ladder makes boarding effortless and sea dips inviting. Advanced Garmin electronics are paired with an audiophile grade sound package to enrich every voyage, confirming the Wallytender 43 as a premier luxury dayboat, walkaround chase boat, superyacht tender and open powerboat for owners who prize performance and sophistication.

DETAILED DESCRIPTION

Specifications

Defined by a 13.20 m overall length and a broad 4.30 m beam, this yacht balances sleek proportions with generous volume, offering elegant on-deck ergonomics without compromising interior space. A 1.20 m draft at full load and a displacement of 9000 kg underscore confident, composed handling both underway and at anchor, while long-range autonomy is assured by a 1200 lt fuel capacity and a 200 lt fresh water reserve that support extended stays. Below deck the layout is curated around one refined cabin, delivering tranquil private accommodation with a clear focus on comfort, thoughtful detailing and the craft of fine yachtbuilding.

Performance

Power comes from twin VOLVO engines rated at 440 Hp each, delivering a top speed of 36 kn and an effortless cruising speed of 30 kn; the thoughtfully balanced combination of efficiency and pace yields a practical range of 320 nm at 30 kn and 300 nm at 36 kn, enabling confident passages with time to spare and minimal compromise between speed and economy.

Extras

Presented in a metallic Tyrrhenian Blue hull and deck finish, the yacht is equipped for effortless luxury living at sea, with a dual-use electro hydraulic gangway and swim ladder elegantly concealed within the stern platform and a removable comfort stainless-steel shower at the stern that marries practicality with clean lines. Shade and style are assured by an awning for the aft sunbathing area supported by two removable carbon poles, while WALLY

waterproof covers protect the console, seating and sunbeds when not in use. Independent power is provided by an 8.5 kW Mase generator, daily operations are enhanced by a Racor filter and a waterproof 220V socket in the cockpit, and precision control comes via a Volvo autopilot, the Volvo dynamic positioning system, an electrical bow thruster and the SEAKEEPER NG3 gyro stabilizer for remarkable comfort both at rest and underway. Navigation and situational awareness are upgraded with two 16-inch GARMIN multitouch cockpit displays (standard: 10-inch), a Garmin AIS, a Garmin radar and an electrically controlled searchlight, while onboard power management features one 2,000 W 12V/230V inverter complemented by three 230V outlets inside the cabin and bathroom. Climate comfort is assured by air conditioning for the interior accommodation, and entertainment is elevated by a premium sound pack comprising six JL speakers and one subwoofer. Hospitality touches include an additional 130 lt fridge in the cockpit and a 230V icemaker in the cockpit, alongside one white underwater light at the stern for an evocative nighttime ambiance. Interior and deck refinements extend to a carbon WC, hull reinforcement for added integrity, and a comprehensive berthing package comprising four hooks, six fenders and four mooring lines (two × 12 m; two × 24 m). Safety equipment is specified for 12 people with a life raft and jackets, and finishing flourishes from a windscreen wiper with carbon finishing to external upholstery in grey with blue stitching complete a specification that is as considered as it is compelling.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
