OVERVIEW

Forged in the Netherlands from featherlight aluminium and carbon fiber, this singular center-console performance yacht marries bespoke craftsmanship with cutting edge engineering. A next generation digital helm seamlessly unites navigation, propulsion, and hotel systems, placing complete control of the vessel at your fingertips; every interface is considered, immediate, and artfully integrated into the boat's elegant composition.

At the heart of the DK43 lies the helmsman's ideal: an owner driver dayboat that delivers razor sharp handling and explosive acceleration, serving up pure, unfiltered excitement on open water. Its temperament makes it equally suited to life as a sports cruiser, a chase boat, or a superyacht tender, combining sporting intent with versatile utility.

Comfort and safety underway are enhanced by custom shock damping helm seats with adjustable height and tailored support, keeping the driver planted and composed through long runs and spirited maneuvers. For overnight escape, a tranquil cabin provides a concealed marine toilet and a generous double berth, offering restorative refuge after a day at sea.

Entertaining al fresco is effortless: a well appointed galley with abundant storage, an integrated sink, and multiple refrigerators and wine coolers thoughtfully placed throughout this luxury weekender keep provisions and hospitality at hand. Deeply cushioned seating for six creates an intimate social nucleus for cocktails and panoramic views, while a finely engineered custom sound system elevates every moment aboard this refined center console performance yacht—perfect as a premium tender, a fast dayboat, or a stylish weekender.

DETAILED DESCRIPTION

De Koning 43 specifications

Powered by three Mercury Verado 400 HP outboards specified with the full options package, the De Koning 43 places fingertip control at the helm with Active Trim, Joystick Piloting Control, Autopilot, Skyhook and Skyhook Active Trim, all orchestrated through the Mercury Next Gen FTS Quad Display and an Isotta steering wheel with flipper function. Navigation and situational awareness are professional grade with a bank of Raymarine electronics: three Axiom 16-inch displays complemented by one Axiom 7-inch, AIS 700, two CAM 200 cameras, Yachtsense monitoring and Quantum 2 Radar, while the Yacht Control remote system (app-based, 4G capable) and an alarm with track and trace capability extend command and security away from the helm. Below and on deck, comfort is assured by a Planus Relex 530 toilet, Dometic air conditioning rated at 8000 BTU, two berths, three refrigerators and wireless chargers positioned both inside and outside the cabin, and entertainment is elevated by a Rockford Fosgate sound system driving fourteen speakers and two woofers. Illumination is purposeful and dramatic, featuring laser LED lighting around the T-Top—one array of 36 LEDs, one of 24 and two of 18—paired with Lopo navigation lights, two blue underwater lights delivering 11,000 lumen each, LED deck lighting and a robust 400 Ah lithium battery bank supported by a 5000 Ah Victron charger inverter, three Optima Yellow Top starter batteries, two Whale electric bilge pumps and one manual bilge pump, plus dedicated water, deck wash and deck shower pumps. Premium materials abound, including full carbon Bimini poles, a full carbon table and a full carbon galley, all set upon Flexiteek decks, and offshore practicality is underlined by a stand off anchor system with a 22 kg anchor, 40 m rope and 10 m chain, a stainless steel bumper, a stainless steel swim ladder and an

electric grill for effortless BBQs at anchor.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
