DETAILED DESCRIPTION

Standard equipment

At the helm, custom bolster style seating sets a confident tone, complemented by coaming bolsters and a glass windshield with wiper that together frame a cockpit designed for long days on the water; a double row configuration provides six forward facing seats beneath a Deluxe XL T Top and matching frame with integrated spreader lighting and stereo speakers to keep both visibility and ambiance impeccable. Anglers will appreciate the thoughtful storage layout, from deluxe tackle lockers to port and starboard and a convenient storage box on the aft side of the backrest to an elevated split aft cooler rated at 185 quarts, while a freshwater capacity of 50 gallons with twin spigots forward and aft ensures on board comfort. Cold storage is extensive thanks to twin 510 quart coffin boxes with double hinged gullwing lids paired with twin 500 quart below deck fishboxes, and twin aluminum coffin box rod racks are arranged for eight rods with additional lockable bow rod storage for secure stowage. Live bait capability is comprehensive, featuring a forward integrated pitch bait livewell, twin 70 gallon pressurized transom livewells and port and starboard plumbed livewells with pump out, all supported by a raw water washdown system with two outlets. Command is effortless via Teleflex Optimus fly by wire power steering and a Simrad electronics package with 24 inch multifunction displays, while fishing hardware abounds with six under gunwale electric reel plugs, 24 Gemlux Bluewater gunnel rod holders, ten rod holders on the transom plus additional flush mounted transom rod holders, and T Top outrigger bases with T Top outrigger poles. Deck hardware is equally robust with eight 10 inch stainless Gemlux pull up cleats and a retractable boarding ladder, and night and day operations are enhanced by LED spreader lights, LED navigation lights plus an

additional LED navigation light and LED under gunwale and underwater lighting. Entertainment and power needs are met by an over the top JL Audio system and an on board battery charger, and with an 808 gallon fuel capacity this platform confidently stretches the horizon.

Optional equipment

Elevate the specification with a hull color gelcoat match on the underside for a seamless finished look, dramatic LED under gunwale lighting to accent the profile at night, and the precision of a Mercury electric steer sensor for refined helm feedback. Fishing reach increases with upgraded 25 inch spreader T Top outrigger poles while a Garmin electronics package with 24 inch multifunction displays delivers seamless navigation and situational awareness. Comfort and control are enhanced by the convenience of an electric marine head with a holding tank and the practicality of a horizontal windlass with a stainless bow roller, and practical fishing touches such as see through livewell lids, dedicated tuna tubes and additional rear facing seats provide functional upgrades for extended trips and guests who want to keep an eye on the spread.
