## OVERVIEW

---

As the first in its series, the 43 LE embodies the signature elements that define Tiara's outboard vessels: a seamless fusion of sporty elegance and lavish comfort, meticulously crafted social areas, and thrilling performance. The bow section is designed for leisure, featuring a plush chaise lounge, while the aft social zone includes a flexible rotating lounge with multiple locking positions and a built-in footrest. The cockpit area is enhanced by a fold-down terrace, offering effortless access to the water. Entertainment is plentiful, with a fully equipped galley, a grill, and a premium stereo system. Below deck, you'll find two sleeping areas: a queen island berth and a mid-cabin double berth. A fully equipped head with a separate shower provides all the necessary amenities for overnight stays or day trips on the water.

Powered by Triple Yamaha Outboards, the 43 LE is crafted for exceptional performance. The Tiara Yachts integrated electronics suite delivers superior power and control at the helm. This sophisticated package includes Garmin® marine navigation systems, designed to be intuitive for the captain as you journey from one port to another.

# DETAILED DESCRIPTION

---

## Hull and deck

---

The hull and deck of the Tiara Yacht exemplify exceptional craftsmanship and cutting-edge engineering, supported by a transferable limited warranty that provides five years of protection for the hull and deck, and two years for accessories. The hull is crafted with a gelcoat exterior and features hullsides and a bottom with a structural foam core, reinforced with carbon fiber, engineered fabrics, and premium resin, ensuring both durability and high performance. The deck is meticulously hand-laminated, also with a gelcoat finish, and includes balsa-cored walking surfaces, engineered fabrics, and premium resin for enhanced strength and resilience.

At the heart of the yacht's construction is an infused fiberglass structural grid system, complete with a molded finish and an integrated bilge water management system, which boosts the vessel's integrity and functionality. The transom system is a 5-ply resin-infused composite, featuring a patented transom reinforcement grid for extra support. All underwater thru-hull fittings are equipped with bronze seacocks, while above-waterline thru-hulls are fitted with stainless clad Stalon fittings, ensuring reliability and safety.

The yacht's design incorporates a molded one-piece deck and cockpit liner, embellished with Tiara's custom diamond pattern non-skid for secure footing. A high-density white PVC rubrail with a solid 316L stainless steel insert, molded rubrail corners, a 316L stainless steel transom cap, and hand-laminated quarter fenders offer both protection and elegance. For mooring, the yacht is outfitted with two 10-inch cleats on the stern and four 10-inch pop-up cleats at the midship and bow. The self-draining cockpit ensures easy upkeep and a dry, comfortable environment for everyone on board.

## Hardtop features

---

The hardtop of this yacht exemplifies exceptional design and practicality, constructed from molded fiberglass and extending across the entire width of the vessel. It includes an integrated visor that enhances both protection and aesthetic appeal. The bespoke windshield system features a curved tempered windshield and tempered side glass, providing durability and a clear view. For those who enjoy fresh air, the sliding side glass allows for passive ventilation, while dual windshield wipers with washers maintain visibility in all weather.

A foldable navigation light mast, complete with integrated flag attachment points, enhances the yacht's adaptability. The hardtop skylight is a prominent feature, with fixed tempered glass on both the port and starboard sides, and a flush-mounted Bomar® tempered glass hatch along the centerline. A skyscreen with a shade can cover the entire skylight, offering comfort and privacy as needed.

The hardtop also includes red and white LED overhead lighting, along with multicolor LED dramatic lighting managed by Shadow-Caster® technology, creating a welcoming atmosphere. For entertainment, an electrically operated cockpit TV folds down from the hardtop and includes secure locking storage. The yacht is also equipped with an electric dual trumpet horn, as well as TV and AM/FM radio antennas, ensuring you remain connected and entertained while on the water.

## Foredeck

---

The foredeck of this yacht seamlessly combines practicality with opulence. It boasts a Bomar® forward deck hatch that opens, complete with an integrated skyscreen privacy shade and screen, offering both airflow and seclusion. Sunbathers will find the recessed chaise lounge sunpad an ideal retreat, featuring built-in handholds, drink holders, and a weather cover for enhanced

convenience and comfort.

Further elevating the foredeck's appeal is a one-piece welded 316L stainless steel bow rail, which ensures both safety and elegance. The anchor locker is ingeniously crafted with a flush-mounted fiberglass lid and an overboard drain, facilitating easy access and upkeep. A highlight of the foredeck is the integrated thru-stem anchor system, featuring a molded design that includes a 316L stainless steel anchor roller, an 8-inch mooring cleat, and a safety lanyard for secure anchoring.

The horizontal windlass, operable from a helm switch or a handheld remote, is neatly housed in the anchor locker. This system comprises a 35-pound 316L stainless steel plow-style anchor, 25 feet of G-4 chain, 200 feet of 1/2-inch by 8-plait rode, and an ultra flip swivel, ensuring dependable anchoring in diverse conditions. The foredeck is elegantly finished with synthetic teak decking, adding a sophisticated touch to this meticulously designed area.

## Transom

---

The transom of this yacht is crafted to boost both practicality and pleasure while on the water. It includes an integrated swim platform with extensions beyond the engines, offering plenty of room for relaxation and straightforward access to the sea. Dual Tiara transom entry doors provide easy entry and exit, facilitating seamless movement between the yacht and the swim platform.

For enthusiasts of swimming and aquatic activities, a telescopic boarding ladder is installed in the port platform extension, simplifying water entry and exit. A 316L stainless steel grab rail is strategically positioned to aid in water ingress and egress, enhancing safety and convenience.

To elevate the post-swim experience, the transom is fitted with a recessed shower that includes a pullout sprayer and a hot/cold mixing valve, allowing for a refreshing rinse after a swim. This well-considered design ensures that

every moment spent on the water is both enjoyable and comfortable.

## Aft cockpit

---

The aft cockpit of this yacht is a multifunctional and opulent area crafted for both leisure and entertainment. Central to this space is the rotating all-sport lounge module, offering plush seating with chaise footrests. This module can be manually turned and secured in various positions using a push-button lock, allowing for personalized seating configurations. A detachable high-gloss teak table, complete with a weather cover and dedicated storage, creates an ideal setting for dining or socializing. The area also features a buffet-style countertop, an electric grill, drink holders, and an integrated storage compartment, all shielded by a weather cover.

On the port side, a hull side terrace with synthetic teak decking includes a receiver for a removable and storable swimming ladder, enhancing water access. The starboard side boasts a hull side boarding door, also fitted with a removable and storable swimming ladder. For additional comfort, the Makefast® Marine powered sunshade offers substantial sun protection, while multicolor LED dramatic lighting creates the perfect ambiance for any event.

Access to the machinery compartment is simplified with a dedicated hatch, and aft-facing lounge seats on both port and starboard sides are equipped with drink holders, USB charging ports, and weather covers. Beneath these seats, insulated cooler boxes with drains provide convenient storage for refreshments. The cockpit is further refined with synthetic teak decking on the gunnels, gunnel steps, and beneath the aft cleats, adding a touch of sophistication. For privacy and protection from the elements, a retractable enclosure can be deployed, making the aft cockpit a truly versatile and welcoming space.

## Helm area and mid cockpit

---

The helm area and mid cockpit of this yacht are crafted with a focus on both practicality and luxury, seamlessly integrating cutting-edge technology with opulent features. The molded fiberglass helm console, which tilts aft, is fitted with an instrumentation visor, a platform for electronics, and push-button controls, ensuring all functions are easily accessible. It also includes a fold-out fiberglass footrest, USB charging ports, drink holders, and a safety lanyard, offering convenience and security for the captain.

The Teleflex® sport tilting helm, combined with a 13.5-inch steering wheel, provides precise handling and a comfortable grip. Footrests with synthetic teak decking and 316L stainless steel grab rails enhance the comfort and safety of the helm area. On the port side, a glove box storage compartment is paired with dual USB charging ports and drink holders, keeping essentials within easy reach.

The helm seat is double wide, featuring a flip-up bolster, armrests, and a weather cover. It can swivel to face inboard or aft, allowing for flexible seating options. Similarly, the double wide companion seat includes a flip-up bolster, armrests, a fold-down 316L stainless steel footrest, and a weather cover, and it also swivels to face inboard or aft, enhancing the social atmosphere of the cockpit.

Entry to the cabin is through a tinted acrylic door with a screen and locking latch, providing both security and airflow. The Marine Air Systems® 20,000 BTU cockpit air conditioning system with reverse cycle heat ensures that the helm area and mid cockpit remain comfortable in any weather, making this space as welcoming as it is functional.

## Additional features

---

This yacht boasts a variety of additional features that elevate both its

performance and comfort. Central to its stability system is the Seakeeper SK6 gyro, which dramatically minimizes roll, ensuring a smooth journey even in rough seas. The yacht's electrical systems are powered by an Onan 7kW generator, delivering dependable energy for all onboard requirements. The head macerator system facilitates efficient waste disposal, while the inverter provides versatility in power management.

For added convenience, freshwater washdowns are installed in both the anchor locker and aft cockpit, simplifying the cleaning process. A refrigerated cooler box is cleverly positioned under the starboard aft-facing seat, ideal for keeping beverages cool. The yacht also features blue engine weather covers, offering protection against the elements.

Navigation and communication are enhanced by the Garmin® Fantom™ 54 radar, equipped with a 4-foot open array for exceptional detection capabilities. SiriusXM Radio and weather readiness keep you informed and entertained during your voyage. The yacht's name is beautifully illuminated with multi-colored backlighting, adding a personalized flair.

The Nassau Blue upholstery package offers a chic and comfortable interior, complemented by sheet sets and mattress pads for a restful experience on board. These additional features come together to create a yacht that is not only high-performing but also luxurious and accommodating.

## Engine

---

This yacht is equipped with three Yamaha 5.6L V8 425hp XTO Offshore outboard engines, offering outstanding performance and dependability. The Yamaha® engine package is crafted to boost both power and precision, with white-painted engines that contribute to a sleek, contemporary look. The stainless steel Yamaha® SDS propellers guarantee smooth and efficient thrust, while the electronic triple engine binnacle control allows for precise maneuvering.

For enhanced safety and ease of use, the engine configuration includes a key switch panel with a safety lanyard and a push-button start/stop panel. The electronic steering system provides effortless navigation, complemented by the Yamaha® CL7 touchscreen Command Link Plus® display, which offers detailed engine information and control at your fingertips.

The Yamaha® Helm Master™ EX control system further elevates the driving experience, featuring the EX joystick docking system with autopilot for effortless docking and navigation. An automatic engine flush system is also part of the setup, ensuring straightforward maintenance and extended engine life. This robust and advanced engine configuration guarantees that the yacht offers an unmatched experience on the water.

## Disclaimer

---
