## OVERVIEW

---

The 2023 Midnight Express 43 Open is engineered for bluewater pursuits, blending pulse-quickenning speed with composed handling and refined finishes. Its next-generation deep-V hull cleaves through heavy seas, while optional quad or quint outboards liberate adrenaline-laced performance. A broad, generous beam optimizes the center console layout, accommodating luxurious seating, full-beam stowage, and a state-of-the-art helm fitted with multi-function Garmin glass. From seamless LED illumination to vacuum-infused composites, the construction broadcasts race-bred quality. Whether popping out to the sandbar or stretching offshore, this open yacht/express cruiser delivers rare versatility, comfort, and command as a performance center console sport yacht.

## 2023 Midnight Express 43 Open

---

The 2023 Midnight Express 43 Open is engineered for serious offshore performance, delivering a rare blend of speed, stability, and luxury that immediately commands attention on the water. Its advanced deep V hull carves through chop with composed authority, while optional quad or quint outboards unleash exhilarating top end power with iron fisted control, and a wide beam maximizes usable deck for premium seating and full beam storage. The state of the art helm is appointed with multifunction Garmin displays for total situational awareness, and from integrated LED lighting to precision molded composites every detail reflects high performance craftsmanship and considered refinement. Beneath the striking profile lies a fully infused and cored fiberglass hull and deck structure built with foam and strand reinforced PVC board with no wood, complemented by one hundred percent hand laid fiberglass in all other fiberglass parts, each component wet mated with a vinylester blend resin and finished with a pure vinylester resin skin coat matched to molded in, easy to clean non skid decks and a one piece fiberglass deck and liner. Practicality and quiet confidence come from a self bailing cockpit and an insulated engine well, while a custom aluminum arch top pairs with a carbon fiber dive door top that integrates built in LED lighting and a custom carbon fiber dive door swim ladder seamlessly incorporated into the hull, with additional ambiance from the POCO color change light system. Power management is effortless with a multi bank waterproof battery charger and 30 amp shore power, and a 50 foot cable is included for turnkey connectivity. The 43 Open is richly equipped for both sport and family pursuits, featuring four fish boxes with overboard diaphragm pumped discharge and two approximately fifty gallon

recirculating baitwells with self priming pumps, full liner construction with PVC backing for durability and finish, and a helm dominated by a dual row deluxe fiberglass seat with integrated storage facing thoughtfully arranged controls. The aft seating adds rod holders, cup holders, and a removable workstation/seat on its back to transform the cockpit on demand, while an extended hard top design creates a clean walkthrough from the bow and a custom bilge hatch opening provides full, unobstructed access to the bilge. Below the console, true cruisability is provided by a head compartment with a separate stand up shower, a sink, and an electric fresh water head fed by an approximately eighty five gallon fresh water holding tank with dockside waste pump out and macerated overboard discharge. Fishing and family friendly details are everywhere, from six stainless steel rod holders mounted in the gunwale to three fresh water shower hoses with self retracting hose reels mounted in the gunwale—one at the transom, one to starboard, and one forward—plus racing trim tabs with one button control and trim tab indicators integrated into the navigation screen. Steering feel and reliability are honed with racing style steering lines finished with chrome fittings and with direct access provided through the engine manufacturer, while a digital touchscreen control system switches and dims all lights, batteries, and pumps and includes a wireless remote with fuel and water level monitors backed by a custom circuit breaker panel mounted in the electrical compartment. Hardware is overbuilt for lifelong service: ten flush mounted ten inch stainless steel pull up cleats with a lifetime warranty, fully recessed stainless steel hinges, two gas fills port and starboard feeding one fuel tank, and an approximately four hundred fifty gallon aluminum fuel tank with one quarter inch wall thickness. Bilge vigilance is assured by three magnetic float switches and three Rule bilge pumps—two two thousand GPH units in the aft bilge and one two thousand GPH unit in the forward bilge—supported by a high water alarm system, while nighttime operations benefit from ten LED cockpit courtesy lights and two engine well courtesy lights. The helm is

elegantly finished with custom dash panels in your choice of colors and a Ritchie SS2000 flush mounted compass, double sided hatches are thru bolted with stainless steel aircraft nuts, and port and starboard custom folding boarding steps feature a white powder coat finish. Precision touches extend to stainless steel adjustable flush latches on all hatches, all tinned copper wiring with heat shrink connections, and all stainless steel thru hulls. Communication and entertainment are ready from day one with a VHF radio with a remote microphone on the dash and a Fusion AM/FM/iPod stereo driving four JL coaxial speakers, and the yacht is delivered complete with a Coast Guard safety package and a line and fender package so you cast off with complete confidence.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
