OVERVIEW

Imagine a family cruiser that combines a commanding flybridge presence with low engine hours and genuine seasonal turn-key readiness — the 2011 Princess 42 Fly merits close consideration. This celebrated model from Princess Yachts pairs timeless lines and refined appointments with practical volume, delivering the kind of comfort and performance that suits both relaxed coastal weekends and longer family escapes.

Originally delivered new in Sweden, this example carries a documented, carefully managed history and has been wintered indoors in a heated facility, maintained to a high standard and fully serviced to ensure immediate cruising capability. The interior is intelligently laid out with two generous cabins, two bathrooms and a saloon that converts to provide extra sleeping space, offering roomy accommodation for family and guests and ample storage for extended time aboard. The expansive flybridge serves as the yacht's social center, appointed with a grill and wet bar to facilitate sun-soaked entertaining while enjoying sweeping panoramic views.

Powered by twin Volvo Penta D6-435s with low hours, she combines confident, efficient performance with responsive handling. The specification is comprehensive and practical, including full teak decking, anchor windlasses at both bow and stern, bow and stern thrusters for close-quarters maneuvering, and a tender lift/cradle suitable for a RIB or jet ski. Meticulously cared for and thoughtfully equipped, this Princess 42 Fly presents as a complete, turnkey flybridge cruiser ready to create new memories from the moment you cast off.

DETAILED DESCRIPTION

Full specification

This Princess, sold in Sweden, arrives with a thoughtfully chosen specification that emphasizes confident handling and refined onboard systems.

Manoeuvrability is enhanced by a stern thruster with remote control and a bow thruster with remote control, both upgraded for stronger thrust in 2023, while anchoring is made simple by an electric anchor windlass with winch at the bow and a remote-controlled electric anchor windlass at the stern.

Navigation and situational awareness are comprehensive, centred on Raymarine HD Digital Radar with open array, complemented by two Raymarine C120 plotters, a pair of Raymarine autopilots, two Tridata units, two echo sounders and a Raymarine VHF radio.

The exterior combines practical luxury with durable finishes, featuring full teak decking across the bathing platform, cockpit, flybridge and side decks, together with trim tabs, a searchlight, compass, TV antenna and an open pulpit with an integrated bow step and ladder. The foredeck is appointed with sun pads and a protective cover, while black mesh sunshades protect the windscreen. Safety and tender handling are addressed by a life raft mounted aft on the bathing platform and a Hurley davit system, installed new in 2021, capable of lifting a jet ski or RIB. The flybridge is arranged for elegant alfresco living with a grill and wet bar complete with a cool box; a full set of flybridge covers for the sofa, sunbed, instruments, helm and passenger seats and the teak table were renewed in 2021. Additional 2021 updates include a newer cockpit canopy and newly upholstered cushions across the cockpit seating and the entire flybridge, including helm and passenger seats.

Comfort is ensured by a Webasto heating system with windscreen defroster. The galley is equipped with a refrigerator, a three-burner gas stove and a

microwave/grill oven. Accommodation comprises a forward master cabin fitted with a special high-quality mattress and toppers, plus a flexible guest cabin whose insert cushions convert between a large double and two singles and which enjoys private access to its own bathroom. Onboard facilities include two electric toilets with separate shower compartments and a hot and cold deck shower on the bathing platform. Entertainment has been upgraded with a new Fusion stereo system with amplifier and high-quality speakers, installed in 2021, and a saloon TV that rises on an elevator. Electrical shore support is complete, with a full shore power system supplied with cables and two chargers. Maintained with excellent care, this Princess has been stored indoors in a heated facility, fully serviced and prepared for the season.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
