# OVERVIEW

The Rizzardi 45 Incredibile unfolds as a strikingly elegant, high-performance motor yacht that marries the exhilaration of an express sports cruiser with the refinement of an Italian open yacht. Measuring 14.80 m overall, with a beam that ranges from 4.40 m to 4.80 m and a draft between 1.00 m and 1.20 m, her hull displaces approximately 16,400 kg and is designed to translate twin-engine power into sure-footed agility on the water. Propelled by two MAN diesel units, each delivering roughly 730 hp, she comfortably traces a cruising pace of about 32–35 knots and can be pressed toward a maximum speed close to 45 knots; a fuel capacity of roughly 2,000–2,200 litres supports spirited passages and extended runs alike.

Aboard, the layout is as versatile as it is luxurious: she can welcome up to 10 guests and offers three cabins and two heads depending on the chosen arrangement, while berths range from 6 to 8, providing comfortable accommodation for weekend escapes or day trips in Mediterranean style. The teak-clad cockpit and decks, together with expansive sunpads fore and aft, create relaxed zones for sunning and socializing, while optional shading in the form of a bimini or a hardtop ensures comfort on brighter days. Practical comforts are seamlessly integrated — a quality stereo system, refrigerator, sun awnings, bathing ladder and often snorkeling gear or a stand-up paddleboard accompany the leisure fit-out.

On the instrument and systems side, navigation is comprehensive with GPS and a radar scanner/antenna complemented by electronic engine and throttle controls. Deck gear includes a bow thruster and a passerelle, plus a bathing platform and a teak-laid cockpit beneath the protective hardtop. Safety and operational systems are well specified: engine alarms, an electric anchor windlass and a life raft are fitted; comfort systems include air conditioning, a galley with pressure water via autoclave, a cockpit sink and refrigeration,

ensuring onboard living is effortless.

The vessel's upkeep history reads like a conscientious log of mechanical care and recent renewals. Engine works include a full overhaul completed in 2023, new turbochargers installed in 2023, starter motors refurbished in 2023, alternators reconditioned in 2023, seawater pumps serviced in 2024, and two new RPM sensors fitted to the starboard engine in 2024; the anchor windlass hydraulic system was serviced in 2024. Instrumentation and bridge updates include new ABS panels and dashboard switches installed in 2021, a compass replaced in 2022, a fresh water-level gauge fitted in 2022, a new VHF antenna in 2022, a searchlight renewed in 2021, and two new trim-tab joystick controls added in 2024.

The gangway and boarding systems have been attentively maintained: a Besenzoni hydraulic power unit was replaced with new fittings in 2023 and the gangway piston was overhauled in 2024. Miscellaneous renewals and upgrades include a new remote for the anchor windlass in 2021, a guest head macerator replaced in 2021, a new grey-water tank and pump for the guest bathroom in 2021, a new bow thruster installed in 2022, exterior grilles revarnished in 2022, a new seawater pump for the air-conditioning in 2022, propellers overhauled in 2020 and the interior refrigerator serviced in 2020. More recent enhancements comprise new exterior cockpit table installed in 2024, port engine bellows replaced in 2024, exhaust insulation renewed in 2025 and new forward sunpad cushions fitted in 2025.

Electrical resilience has been strengthened with eight new service batteries installed in 2024, a new generator battery added in October 2024 and four new engine start batteries fitted in 2025. The result is a meticulously cared-for, sleek performance cruiser that delivers both pace and poise, equally at home as a luxury dayboat or a stylish weekend yacht and perfectly suited to Mediterranean cruising and spirited sports cruising.
