OVERVIEW

2026 Dutch-built 45-foot aluminum motor yacht by Van Oossanen

Born in the Netherlands for the discerning mariner, this 45-foot aluminum motor yacht marries progressive Dutch naval design with a quietly assured, go-anywhere temperament. Styled by Van Oossanen, celebrated for hydrodynamic excellence, the yacht's streamlined silhouette and 13-foot beam produce a rare synthesis of speed, steadiness, and fuel economy, all carried on the secure foundation of a welded aluminum hull and deck.

Whether threading sheltered waterways or making open-water passages, the yacht's adaptable draft—approximately 7.7 feet to 10.9 feet—broadens your cruising possibilities, allowing easy access to protected harbors while maintaining authority offshore. The hull's fine entry and refined running surfaces deliver a soft, dry motion; robust aluminum construction gives the confidence to chase weather windows or linger in remote anchorages with composure and comfort.

Propulsion comes from twin Volvo diesel engines that provide smooth, dependable power and economical cruising that complements the hull's efficiency. With 291 gallons of fuel aboard you can extend passages without constant refueling, and a 53-gallon freshwater capacity supports long weekends or coastal expeditions. Engineering attention to low vibration and reduced sound levels ensures that conversation and the gentle rush of water remain the dominant sounds, even at a lively pace.

On deck the yacht encourages graceful movement and relaxed outdoor living. Safe, well-scaled side decks lead forward to a foredeck lounge ideal for morning coffee or evening aperitifs. A generous cockpit invites alfresco dining and languid afternoons at anchor, while the uncluttered, purposeful layout reinforces the vessel's dual role as a stylish retreat and a serious cruiser. Every handhold, coaming height, and step reflects Dutch pragmatism in service of

safety and comfort.

Inside, expansive glazing floods the salon with natural light, framing ever-changing seascapes and creating a calm, contemporary interior that enhances rather than competes with the view. A well-appointed galley accommodates casual family meals and refined entertaining, with ample storage for extended time aboard. Private accommodations are serene and carefully finished, with premium materials and meticulous joinery that speak to Northern European craftsmanship.

Delivered as a 2026 model and lying in the Netherlands, this Van Oossanen aluminum design is an impeccably engineered, finely finished platform for owners who prize substance, style, and freedom to explore. It functions as a refined motor yacht, an all-season pilothouse cruiser, and a compact explorer vessel—a true Dutch aluminum pocket superyacht for coastal cruising, weekending, and purposeful adventure.

DETAILED DESCRIPTION

Description

A rare opportunity to own the new LEKKER 45 is here, inviting you to be among the first in the United States to secure LEKKER's latest evolution, an all new forty five foot model scheduled for March 2026 delivery. The celebrated forty four walked so the forty five could run — this is your moment to step into LEKKER history while retaining the freedom to make this vessel distinctly your own. Representing a decisive leap forward, the LEKKER 45 delivers twenty percent more interior space than the forty four, an array of thirty four strategically placed cupholders, and a larger swim platform extended by a full foot to 1.6m, while thoughtful design refinements abound from the new iconic X grille and a step in bulkwalk for effortless access to an enlarged aluminum hardtop that heightens comfort and protection without compromising the boat's athletic stance. Already specified with an impressive suite of premium equipment, this build pairs twin Volvo Penta D6 480 DPI sterndrives with joystick docking for confident close quarters control, Seakeeper stabilization for remarkable poise at rest and underway, Webasto air conditioning for all season comfort, electric hi lo tables for seamless transitions from lounge to dining, dual 19" Garmin screens with a cinema package for immersive viewing, and even Starlink connectivity to keep you online far from shore. Finished in a sophisticated Graphite Grey with Coconut cushions and Biscuit teak with black seams, this brand new vessel will arrive at your dock with a full factory warranty and the latest innovations from one of Europe's most respected performance dayboat builders, allowing you to skip the typical twelve month build time and claim the newest LEKKER model as the first on this side of the Atlantic.

Key Features

Be among the first to own the all new LEKKER 45 in the US, a brand new build arriving in March 2026 with a full factory warranty, and enjoy the benefits of a recent design without the twelve month wait. With twenty percent more interior volume than the forty four and a smarter layout, it delivers generous space complemented by thirty four strategically placed cupholders, a larger swim platform extended by a full foot to 1.6m, and an enlarged aluminum hardtop, while customization remains available so you have time to personalize select options and finishes. Propulsion comes from twin Volvo Penta D6 480 DPI sterndrives, each rated at 480 hp, enhanced by joystick docking for confident close quarters control, and the premium specification includes Seakeeper stabilization, Webasto air conditioning, dual 19" Garmin screens with a cinema package, Starlink connectivity, and electric hi lo tables, with design upgrades such as the new X grille and a step in bulkwalk further elevating access, style, and usability.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
