DETAILED DESCRIPTION

Veloce

The IY 43 Veloce is the product of a close collaboration between Skyron and the Italia Yachts design team, transferring the yard's storied performance sailing heritage into a contemporary motor yacht proposition. The hull reads as purposefully sculpted: a high bow with generous rake and a waterline that flows seamlessly into the hardtop, a treatment conceived for function as much as for form. Built using full vessel infusion techniques, the structure achieves exceptional stiffness with reduced weight, delivering seakeeping and solidity that belie her 43 foot overall length.

Propulsion comes from twin Volvo D6 IPS 650 units, each rated at 480 hp, which propel the yacht confidently through a 35 to 40 knot speed envelope. Close quarters are effortless thanks to Volvo joystick docking and interceptor auto trim, systems that make tight maneuvers precise and instill confidence at the helm.

The hardtop offers full weather protection and incorporates an extendable sunshade for flexible shelter and light control. Under this protected crown the cockpit is highly adaptable: movable backrests and a central folding table transform into a large sunpad with ease, while hydraulic side terraces extend the living area aft. When the terraces are deployed and the uncluttered stern is open, the usable deck area expands dramatically—roomy for a 43 footer and competitive with larger boats. A forward sunbathing station and a hydraulically transforming aft platform complete the alfresco program, and full synthetic teak covers the decks and platforms for a refined, low maintenance finish.

Owners may choose from three interior arrangements built around a forward master cabin with a midship double. Light materials and restrained lines echo the Italia Yachts family aesthetic—contemporary without coolness, elegant

without excess—while the amidships cabin is full beam and fitted with comprehensive sound insulation. The result is a genuinely versatile craft, equally suited to comfortable overnighting and efficient coastal commuting. Specification underlines the Veloce's practicality: the Volvo D6 IPS 650 installation is complemented by joystick docking and interceptor auto trim, a 7.0 kW generator and reversible air conditioning rated at 16 + 10 kBTU. Manoeuvrability and guest convenience are aided by a bow thruster, hydraulic aft platform and hydraulic side terraces. The black painted (non metallic) hardtop is highlighted by indirect LEDs, with additional courtesy LEDs along the side decks, while full synthetic teak extends across deck, platforms and terraces. Entertainment and navigation are first class, with a Fusion Apollo 670 audio system serving both interior and exterior zones, a Garmin 12 inch MFD at the second helm station, a Garmin AIS 800 Rx/Tx transceiver, a Garmin 315i VHF with AIS and an autopilot. Practical additions include an extra 62 L drawer refrigerator, a 220 V electric BBQ and an electric cockpit table with cushion. Ground tackle consists of a 20 kg stainless steel anchor, a 50 m D10 chain and 30 m of rope, joined by four 15 m mooring lines and six F3 fenders with covers. Transport, preparation, sea trials, maneuvers and administrative formalities are included, and the yacht is ready to cruise from Cannes.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
