## OVERVIEW

---

PLAY TO WIN is the sole 2025 Riviera 46 Sports Motor Yacht immediately available for delivery, currently lying in Stuart, FL and open for private viewings. A genuine flybridge motor yacht with true bluewater credentials, she also excels as an elegant sport cruiser tailored to family escapes and coastal exploration.

The 46 SMY offers a spacious, uncluttered cockpit ideal for watersports, complemented by three separate dining and lounging areas that accommodate every inclination. An aft chef's galley flows effortlessly into a generous salon, creating an inviting setting for lazy daytime lounging or refined evening entertaining. Below decks, three tranquil staterooms and two ensuite bathrooms provide restful privacy and comfortable accommodation for family and guests.

Outside, the choices for relaxation are many: a foredeck lounge, an alfresco daybed in the cockpit, or an elevated flybridge daybed, each designed for effortless comfort and expansive views. Intuitive onboard systems simplify operation and enhance safety, delivering confident handling and straightforward control whether enjoying weekend getaways or undertaking extended coastal passages.

Marrying fine craftsmanship, graceful lines, and progressive design, the 46 Sports Motor Yacht distinguishes itself as a premier motor yacht—an elegant, performance-minded companion for those who insist on luxury at sea.

Seller will consider smaller late-model quality trades. Bring offers!

## DETAILED DESCRIPTION

---

### Riviera 46 sport motor yacht

---

Power, precision, and poise define this Riviera 46, driven by twin Volvo D11 IPS 950 diesel engines (533 kW/725 hp each) on twin Volvo Penta IPS units that deliver confident performance and fingertip maneuverability, while a twin lever electronic control at the helm is complemented by two joysticks—one at the helm and a second at the cockpit port side—for effortless docking and close quarters handling. Volvo's integrated Autopilot within the Glass Bridge, Low Speed mode, and Volvo active corrosion protection (ACP) enhance control and longevity, and line cutters positioned between the contra rotating propellers protect the driveline; each side carries a Nibral four blade and a Nibral three blade propeller (four total) that work in harmony with Volvo Interceptors featuring Auto Trim, List, and Coordinated Turn to produce a perfectly balanced, composed ride. Seakeeper 6 gyro-stabilization transforms time at anchor and underway into serene calm, and an additional outlet from the saloon air conditioning further optimizes onboard comfort for guests throughout the yacht.

Reliability is engineered into every system: a DC fresh water pump is paired with a secondary fresh water pump independently switched as a back up, fuel filters and water separators serve both main engines and the generator with dual filtration to the main engines, and the upgraded house battery bank has been moved to three 24V Lithium Iron batteries (300 Ah total / 210 Ah usable) to provide abundant, lightweight energy for extended autonomy. The galley CZone ship management display is enlarged from seven inches to a crisp ten inches for intuitive monitoring and control, while shipboard power is anchored by an upgraded Onan 17.0 kW 110V 60 Hz generator equipped with muffler, fresh water cooling, sound shield, remote stop/start with diagnostics, and

hour meter; shoreside handling is simplified by a wireless remote for the Glendinning Cablemaster.

Navigation and situational awareness are superbly

appointed with a Garmin AIS 800 transceiver paired with a GA 38

GPS/GLONASS antenna and internal VHF aerial splitter, a GMR Fantom CHIRP 54 open array radar on a Seaview mount with a seventy two nautical mile range, twin 16 inch Volvo Glass Bridge 8616 displays including GPS and a GRID controller, and a dedicated Volvo five inch engine display at the main helm powered from the engine battery bank. The standard sounder is upgraded to a Garmin GSD 28 CHIRP interfaced with a one kW B275LHW depth/temperature transducer to give precise underwater awareness. Night or day the yacht announces itself with foredeck lighting—six per side—complimented by Hella Easy Fit blue underwater lighting via three transom lights and striking Lumitec SeaBlaze X2 Blue/White fixtures, while the engine room, anchor, and cockpit areas remain under watch by a comprehensive camera suite that includes a cockpit camera mounted at the rear of the mezzanine outside the optional enclosure, an infrared anchor camera, an engine room camera, and an infrared Garmin GC 200 IP dome camera. Long range self sufficiency is assured by the Blue Water Express XT 600 watermaker with a 95 litres/hour capacity and commercial filters. A high pressure water cleaner is plumbed to outlets at both bow and cockpit and supplied with one ten meter hose (32' 10") and a spray wand.

The GRP hydraulic swim platform operates up and

down with a three hundred kg / 661 lbs maximum capacity, incorporates a fixed hob section, includes transom reinforcement and a swim ladder 3, and features a joystick mounted on a GRP part to port protected by a dedicated canvas cover. Ground tackle is premium: a stainless steel thirty five kg (77 lb) Ultra anchor sits ready, accompanied by fifty metres (162 ft) of 10 mm (3/8") galvanized short link chain, with the ground tackle further extended by an additional thirty metres of anchor chain for added peace of mind.

Entertainment flows throughout the yacht with thoughtful installation and high fidelity: the master stateroom hosts a 32 inch LED TV and a Fusion AM/FM panel stereo with the TV powered from the inverter; the saloon offers a 43 inch LED TV on an electric lift and a Fusion AM/FM stereo with Bluetooth and AirPlay feeding four speakers and a subwoofer in the saloon plus two 6.5 inch speakers and a remote to the mezzanine; the flybridge features a Fusion AM/FM stereo with four 6.5 inch speakers; and the foredeck enjoys two speakers controllable from the saloon stereo or via Bluetooth for flexible alfresco listening.

Outside, craftsmanship is immediately felt underfoot with teak laid flooring throughout including the mezzanine steps, while a refrigerated cool box is neatly integrated into the port side lounge storage to keep provisions chilled and accessible. A Black Breezeway front windscreen cover shields the interior, the boot and pin stripe are matched in the same color for a refined line, and the hull topsides are painted in a metallic color from the antifoul line to the gunwale to create a commanding presence. The mezzanine rear enclosure in clear Strataglass is executed as a single piece from the mezzanine side glass to the aft corners with two removable/roll up panels in the aft section and one panel on either side of the roll up entry door, while the helm is elevated and appointed with upgraded Pompanette Platinum Slim chairs and pedestals in Charcoal to complement the dash. A full four sided enclosure in clear Strataglass extends from the hardtop to the GRP rail and windshield deflector with four three sided zipper openings, and the Strataglass clears ensure comfort when flybridge air conditioning is selected.

Interior appointments establish a warm, contemporary tone with walnut timber throughout finished in a satin varnish, the Contemporary Package applying Cloud two pack paint to overhead cabinetry in the saloon and galley, and solid surface Corian benchtops that combine beauty and durability. The

saloon and galley, the stairs, and the lower landing are finished in commercial grade vinyl flooring, bedheads and bed surrounds are color coordinated, saloon lounge upholstery is offered in premium leather and fabric, and the rear bulkhead is dressed with saloon roller blinds pleated to the rear door and window while lower staterooms receive porthole roller blinds. Upgraded carpet enriches the staterooms and the Soft Furnishing Package includes fitted bed linen, pillows, bedcovers, and scatter cushions for immediate comfort. The Galleyware Package provides a thirty two piece cutlery set, a thirty two piece dinner set, two kitchen towels, eight medium tumblers and eight large tumblers, eight wine glasses, eight champagne flutes, a salad bowl, and salad servers to outfit every meal, and the Bathware Package supplies four beach towels, eight bath towels, three hand towels, three face towels, three bath mats, bathware accessories, and two bathrobes while mattress protectors include two queen and two single sizes. Daily life is made easier with a Dyson Multi Floor cordless rechargeable vacuum cleaner with detachable long reach wand and charging station, and a drawer dishwasher installed in the galley in lieu of the pot drawer.

#### Distinctive Custom

Specifications amplify the yacht's identity with tailored finishes and materials: bedheads and bed surrounds in CARTER SAIL, cabin blinds in PLASTER BLOCKOUT, saloon blinds in PLASTER SHEER, saloon port dinette upholstery in WHITE LEATHER, saloon starboard lounge upholstery in MIKADO SNOW, stateroom carpet in TRANSPIRE FASCINATE, Corian benchtops in VALENTE GRIGIO in the galley, flybridge, and heads, saloon/galley, stairs, and lower landing in BLONDE LIMED OAK commercial grade vinyl, the MIDNIGHT Soft Furnishings Package, a Custom Exterior Scatter Package, flybridge carpet in CHARCOAL/GREY plank, exterior upholstery on the flybridge and cockpit mezzanine in Sunbrella ACTION ASH with a plain and diamond stitch combination, a galley bench with elegant waterfall ends, and BLACK boot and pin stripe. The Bathware Package color is WHITE. All hardtop electronics are

BLACK, the hardtop itself is painted TUNGSTEN SILVER with all non skid areas remaining white, and the flybridge wet bar and dash are painted STORM GREY while the hull is finished in TUNGSTEN SILVER, the cockpit table is finished in high gloss, and cabin inlays are WHITE LEATHER; Sun Country style benchtops feature squared edges with no grooves.

Climate control is enhanced by a comprehensive Tropical Upgrade Package that upgrades the saloon and galley air conditioning with a 36,000 BTU condenser unit and two 18,000 BTU air handlers, adds heat reflective film to the front and side saloon windows, equips the flybridge with two self contained 12,000 BTU air handlers, and provides air conditioning for all staterooms and heads via 8,000 BTU and 12,000 BTU condenser units to tailor comfort in every space.
