OVERVIEW

Presented as one of the most comprehensively outfitted and recently refreshed Ocean Yachts 46 Super Sport listings available, this luxury sportfishing convertible is tournament-ready and offered by a motivated seller at an attractive price. Impeccably upgraded for serious fishing and effortless handling, she received a Seakeeper 6 installation in 2019 and a Yacht Controller wireless remote docking system the same year, while essential systems were renewed in 2025 with a Quick bow thruster and a new Kohler 11 kW generator. A full professional repaint was completed in 2021, the electronics package has been modernized, and Starlink added in 2025 provides seamless connectivity between the flybridge and the cabin.

DETAILED DESCRIPTION

Vessel highlights

Beautifully refreshed and thoughtfully upgraded, this yacht underwent a complete repaint in 2021 and benefits from the roll-stabilizing performance of a Seakeeper 6 fitted in 2019. Maneuverability has been enhanced with a newly installed bow thruster in 2025 and a Yacht Controller wireless remote added in 2019, while the navigation and onboard systems were modernized with a full electronics refit carried out between 2019 and 2020. Dependable power is assured by a new Kohler generator commissioned in 2025, and guest comfort is elevated by a replacement air conditioning system installed in 2023.

Connectivity is state-of-the-art thanks to a Starlink terminal mounted on the hardtop in 2025, and the fishing capabilities were upgraded with a dedicated cockpit bait freezer installed in 2026. The exterior deck areas are finished with teak in the cockpit and on the covering boards, complemented by full color-changing underwater lighting added in 2019 to create a striking night-time presence. Below decks, a well-proportioned three-cabin, two-head arrangement provides an elegant balance of privacy and livable space.

Walk through

GOOD TO GO presents a superb example of a seaworthy convertible sportfish that pairs dependable offshore performance with elegant accommodations and meaningful upgrades. Stepping aboard, warm teak decks and matching covering boards welcome you, and the cockpit is comprehensively set up for serious fishing with a bait freezer, live well, tackle station and rocket launcher, while the decks incorporate two insulated fish boxes and additional storage compartments. A teak ladder rises to the flybridge, where twin Stidd captain's chairs preside over a helm fitted with upgraded electronics and controls,

including two Garmin GPS chartplotters, a Simrad autopilot, an iCon VHF radio, MTU screens, a Clarion stereo integrated with Bluetooth and XM Radio, and bow thruster controls. The flybridge is enclosed by UV-shield Eisenglass curtains and benefits from ducted air conditioning to cool the forward bench seating, with rod storage neatly concealed beneath the seats.

A sliding door from the cockpit opens into the salon, where an L-shaped sofa with storage and a dining settee flow into an open galley appointed with a U-Line icemaker, Sub-Zero refrigerator and freezer drawers, and a glass cooktop. Down the companionway, accommodations include the primary stateroom with a queen bed and en suite bath with shower, a forward V-berth cabin with a full-size bed, and a twin cabin, while a second bath with shower is located off the main hallway. Both the forward and primary cabins were fitted with new Smart TVs in 2025.

Mechanical

Meticulous engineering defines the mechanical package: MTU 60 Series main engines deliver 825HP to the vessel, while a Kohler 11KW generator supplies onboard electrical needs. Clean fuel delivery is maintained through Racor fuel filters together with a dedicated fuel transfer pump, and routine servicing is made easier by a Reverso oil change pump. Confident close-quarters handling is provided by a Quick bow thruster paired with YachtControl wireless remote docking, and a Seakeeper stabilizer ensures exceptional comfort whether underway or at anchor. Ground tackle is managed by a Lewmar windlass matched to a Danfourth anchor, shore power is neatly handled by a Glendenning Cable Master with a 50amp shore power chord, and overall dependability is reinforced by new batteries installed in 2025.

CONTACTS

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
