OVERVIEW

The Galeon 480 Fly is a contemporary flybridge motor yacht that fuses advanced naval engineering with adaptable living areas, offering effortless passagemaking alongside refined onboard comfort. At 48 feet, this luxury cruiser makes a striking impression both underway and at anchor thanks to its distinctive Beach Mode terraces and a carefully designed interior that balances style, presence and everyday practicality. Constructed in 2025 and presented in immaculate, near new condition, the yacht is privately owned, has never been chartered and currently lies in Manama, Bahrain, with VAT unpaid.

Twin Volvo Penta D8 600 engines (2 × 600 hp) provide a combined 1,200 hp, displayed on a 7 inch engine monitor and managed through the Full Control package which includes cruise control and a trip computer; NMEA2000/Easy Connect links systems for integrated monitoring. A Seakeeper 6 gyro delivers marked roll reduction both underway and at rest, while a Fischer Panda 15000x generator affords reliable hotel grade autonomy. The signature Beach Mode converts the aft area into fold out balconies with a built in bar to create a true waterside terrace, and the forward Lounge Mode deploys electrically actuated bow seating so the foredeck can be reconfigured at the push of a button. Climate is handled by a tropical air conditioning system rated at 58,000 BTU with a heating inverter, and navigation is centered on a Raymarine premium electronics suite comprising two Axiom XL 16 multifunction displays, an Axiom2 12 Pro S and RD424HD radar for assured helm control.

Entertainment and handling systems have been upgraded to enhance the onboard experience: a Fusion premium audio system, a motorized 42 inch saloon TV with Blu ray, a joystick controlled bow thruster and a comprehensive gyro stabilized cruising comfort package all contribute to effortless operation and first class social spaces. The yacht's exterior illumination includes a full underwater and ambient LED package, while factory

condition has been preserved with no refits to date.

The 480 Fly's layout emphasizes outdoor living and fluid indoor outdoor transitions, with fold out wings that expand the cockpit into an inviting waterside lounge. The flybridge invites open air entertaining with generous seating and an electric grill, and the forward Lounge Mode converts bow space seamlessly between sunbathing and sociable seating, making every deck metre highly usable for family cruising or warm weather hosting. Practical features for longer passages are comprehensive: a chain counter with a helm repeater, joystick bow thruster for precise low speed manoeuvres, and the Seakeeper 6 for enhanced comfort at anchor and underway.

Accommodation is tailored for relaxed living afloat, with a full beam owner's suite that benefits from an illuminated headboard, a vanity equipped cabinet and refined decorative detailing. Guest cabins and the saloon continue the yacht's warm, contemporary aesthetic, with materials coordinated throughout to create a calm, sophisticated environment. The interior scheme is the Modified Lati Grey matt finish, paired with an artificial wood saloon floor for durable elegance, and coordinated decorative bed covers and pillows to complete the upscale ambience.

On deck, thoughtful conveniences include a bow mounted searchlight for night navigation, discreet LED accents on steps, the cockpit and flybridge, and two underwater LEDs to elevate evening presence. Protective covers for the flybridge steering console and the front and side windows, a manual foldable soft bimini top and black antifouling below the waterline preserve the yacht's finishes. Additional onboard comforts include an entrance door curtain for privacy and tailored storage solutions that reinforce the vessel's turnkey appeal.

Electronics and communications are robustly specified with Raymarine 2 × Axiom XL 16 displays plus an Axiom2 12 Pro S linked to RD424HD radar, a Ray91 VHF with AIS antenna and an Evolution DBW autopilot for smooth,

accurate course keeping. The entertainment suite is completed by the upgraded Fusion system and an electric sliding 42 inch TV with Blu ray in the saloon.

Presented in factory spec condition and maintained for private use only, this Galeon 480 Fly is a ready to go flybridge cruiser delivering advanced stabilization, an impressive electronics package and transformative indoor outdoor living. A comprehensive photo and video gallery is available on request.
