## OVERVIEW

---

With the TT460, Invictus ushers its celebrated aesthetic into a higher register, translating the Italian yard's DNA into a longer, more refined silhouette whose restrained lines articulate the marque's signature hull language — a design vocabulary admired since the GT280 — where silky curves and taut, muscular surfaces meet through precisely placed openings that reveal its dynamic character. Conceived as an elegant social platform rather than merely a vessel, the Invictus TT460 prioritizes spatial flow and carefully selected materials to deliver an ideal luxury dayboat for conviviality, ease and pleasure, an open motor yacht that balances composure with vigor thanks to twin Volvo IPS 800 hp engines (under warranty) and advanced navigation and stability systems including a Dynamic Positioning System, Volvo autopilot and an MCX13 gyro. Onboard technology complements the craft's poise: a dual 22 inch Garmin Glass Cockpit commands the helm, Starlink High Performance provides high-speed connectivity, reversible hot/cold air conditioning ensures comfort and a 500 kg hydraulic swim platform extends leisure possibilities, while the Spectrum Blue metallic hull catches the light and a Hi-Fi Invictus Punch system with 20 JL Audio speakers provides the soundtrack to every day aboard.

# DETAILED DESCRIPTION

---

## Options

---

Twin Volvo IPS800 drivetrains with joystick manoeuvring and an integrated Dynamic Positioning System (DPS) place effortless handling at the helm, supported by a duo of 22-inch Garmin Glass Cockpit chartplotters complete with transducers, Volvo Autopilot, and interceptor auto trim software. Navigation and situational awareness are bolstered by a GMR 18HD 4 kW radar and a Garmin VHF 315i, while motion comfort is assured by a Quick MC2x10 gyroscopic stabilizer. Connectivity comes courtesy of Starlink Performance, and onboard electrical needs are met by a Mase IS 10.5 kW generator; climate control is delivered through a reversible hot/cold air conditioning system rated at 27,000 BTU. A refined audio experience is provided by the Hi-Fi Invictus Punch system with twenty JL speakers, and the yacht's striking visual identity pairs a Spectrum Blue metallic hull with Vogue White upholstery.

The owner's lifestyle is catered to with a well-appointed galley and exterior conveniences including a coffee machine, a 130 L mobile bar refrigerator kit, a cockpit icemaker and electrically operated cockpit tables. Comfort and privacy have been considered with a linen and pillow kit for the stern beds, blackout curtains for the cabins and a coordinated Invictus towel set for both cabin and beach use. The decking is laid entirely in teak—across the decks, stern platform and cap rails—and the yacht is equipped with a teak passerelle, a hydraulic bathing platform rated to 1,100 lbs / 500 kg, aft gates and six stainless steel hull protection plates for secure lashing. Evening ambience and safety are enhanced by colour-changing side underwater lights (four aft, two to port, two to starboard) together with RGB cockpit courtesy and hard top illumination, and the specification is rounded out with leather Invictus openable fenders and an Invictus briefcase.

## Standard equipment

---

Finished in the signature “Personal White” with sumptuous “Cognac” upholstery as standard, this yacht is delivered comprehensively outfitted in the Lower Deck V01 layout, where the bow cabin is arranged as a refined dinette and the aft cabin is appointed with comfortable beds. The bathroom is equipped with a WC and a separate shower area, complemented by dedicated bathroom furniture storage, TV predisposition and a 200 liter cabin refrigerator, while blinds dress the elevated bow windows to ensure both privacy and comfort. Externally, exquisite teak covers the platform, cockpit, side walks and gunwale, accompanied by an elegant oval stainless steel pulpit, eight disappearing cleats and the distinctive Invictus bow steel cross shield. A hard top reinforced with carbon fiber crowns the deck, paired with a crystal windscreen with wipers and an electrically operated deflector hard top to adapt protection to sea conditions.

At the helm, navigation is entrusted to a Display Glass Cockpit 16 inch Volvo GPS chartplotter with transducer, supported by a compass and a coated steering wheel. Entertaining on board is effortless thanks to a standing cabinet that conceals storage, a sink, a 230 V induction stove and a 230 V socket, together with two expanding teak cockpit tables and two cushions that convert into a generous sundeck on the deck area. The onboard atmosphere is enhanced by a Fusion sound system driving six loudspeakers, complemented by fender peaks and thoughtfully placed courtesy lights.

The vessel’s systems are robust and user friendly, with a 12 V electrical installation supported by batteries and an alternating current system featuring a 230 VAC 50 Hz dock socket, a 30 liter boiler, a fresh water system fed by a 360 liter fiberglass tank, a grey water system and a black water system that includes a 360 liter fiberglass tank and a black water pump, plus a black water suction plug for shore connection. Practical comforts include an aft shower with mixer and a bow shower, a stainless steel rollaway stepladder and a

garage capable of housing a tender up to 2.5 meters. Handling and performance are improved by a 450 mm interceptor kit, a bow thruster and an electric windlass supplied with a stainless steel chain and anchor, while at rest the yacht is protected by a full canvas suite encompassing a console cover, table covers, wet bar cover, hangar and aft couch cover, bow sunpad cover and a steering wheel cover.

## Disclaimer

---

The company provides the particulars of this vessel in good faith but does not guarantee or warrant the completeness or accuracy of the information, nor does it warrant the vessel's condition. Prospective purchasers are recommended to engage their brokers or surveyors to investigate and verify any matters of importance. This vessel is offered subject to prior sale, alteration of price, or withdrawal without notice.

# CONTACTS

---

Shestakov Yacht Sales is a brokerage company specializing in the sale and service of yachts worldwide. The company offers services for buying and selling both new and used motor yachts, sailing vessels, and luxury superyachts. They also provide yacht registration, insurance, technical maintenance, crew selection, and charter organization services across the U.S., Canada, Latin America, the Caribbean, and the Bahamas.

The founder and lead broker of the company is Andrey Shestakov, a licensed and certified expert with extensive experience in marine engineering and shipbuilding.

The company has an extensive network of partnerships with major yacht manufacturers worldwide and provides services in multiple languages, including Russian, Ukrainian, Spanish, and English. The office is in Dania Beach, Florida, USA.
