## OVERVIEW

---

MOTIVATED SELLER—PRICED TO MOVE THIS MONTH! Easy U.S. transport is available for a swift transfer of ownership.

Like-new and exceptionally well equipped, this 2022 Intrepid 477 Evolution is the flagship of the Evolution series — a premium, high-performance center-console cruiser that blurs the line between sportfishing machine and luxury express. At roughly 47 feet, she is designed for offshore passages, bluewater performance, and elegant entertaining, embodying the best of Center Console, Express Cruiser, Sport Yacht, Luxury Powerboat, Offshore, Bluewater, Performance Cruiser, and Outboard categories.

Propulsion is dramatic and efficient: triple low-hour Mercury 600 V12 outboards produce exhilarating speed and reliability, comfortably cruising around 43 knots with a top end near 59 knots, and are protected by a Mercury Platinum warranty through November 2028. Ride comfort and seakeeping are assured by a Seakeeper 6 gyro stabilizer, with warranty through 10/2026, while bow and stern thrusters combine with a hydraulic portside swim platform (with integrated ladder) and a starboard hull-side door for effortless close-quarters handling and convenient boarding.

The cockpit is an invitation to relax and entertain: an oversized lounge and fold-down rear bench create ample social space around a hi/lo electric table beneath a SureShade electric sunshade finished in Sunbrella fabric. A wet bar, Kenyon cockpit grill, cockpit refrigerator and icemaker, and CoolDeck flooring support carefree days on the water; a retractable custom Isinglass canvas enclosure preserves comfort and visibility in inclement weather. Fishing amenities include Taco outriggers, four Mate Series rod holders, and four tulip rod holders in the outboard bucket.

Below decks the interior is a study in refined simplicity — rich wood cabinetry, wood flooring, and recessed LED lighting set an elegant tone. Two private

staterooms (a queen master and a double guest) plus a convertible V-berth sleep up to six, with a spacious head and separate stall shower for comfort. The galley is fully appointed with a sink, Kenyon two-burner cooktop, microwave, and side-by-side refrigerator/freezer, and interior entertainment is elevated by a 43" Samsung Smart TV in the cabin and a convertible dinette/berth with custom-fitted bedding.

Electronics and auxiliary systems are comprehensively upgraded: dual Garmin 22" GPS/chartplotters with custom black fascia, upgraded Garmin GMR Fantom 124 4' open-array Doppler radar, upgraded Garmin XM satellite weather, upgraded Garmin GSD24 sonar module, ICOM M400BB VHF with remote, GOST Nav-Tracker and GOST security system, FLIR M232 thermal camera, Razor Flood LED mini light bars (2), and a 20" Intellian satellite TV dome. Entertainment is driven by an upgraded Fusion MS-RA770 stereo, Rockford Fosgate marine speakers, subwoofer and amplifier. Power generation is supported by an 11 kW Kohler generator.

All services are current: complete detail and ceramic coating completed 7/25, new bottom paint 9/25. Additional notable features include a 32" flatscreen TV in the cockpit, Rockford Fosgate audio components, a FLIR camera, cockpit hi/lo table, cockpit wet bar, fold-down rear bench seat, hydraulic portside swim platform, SureShade sunshade, CoolDeck flooring, and multiple custom touches throughout. Seller will consider all reasonable offers. Vessel is held in a single-asset LLC — potential tax advantages may apply (consult your advisor).

# DETAILED DESCRIPTION

---

## Features & upgrades

---

Power, poise and polish converge in a specification that leaves nothing to wish for: triple Mercury 600 V12 engines carry Platinum warranty coverage through 11/2028 and are monitored on an upgraded Mercury display, while Seakeeper 6 stabilization remains under warranty through 10/2026 to keep every passage composed. An 11 kW Kohler generator supports hotel quiet comfort and an electronics suite anchored by dual 22" Garmin GPS/chartplotters set into a custom black fascia, an upgraded Garmin GMR Fantom 124 4' open array with Doppler radar, upgraded Garmin XM Satellite weather and an upgraded Garmin GSD24 sonar module. Security and awareness are heightened by GOST NavTracker and a GOST security system, complemented by an FLIR system including the FLIR M232 thermal imaging camera and an ICOM M400BB VHF radio system with remote. Maneuvering is effortless with bow and stern thrusters, and entertainment is elevated by a 20" Intellian satellite tracking dome, an upgraded Fusion MSRA 770 AM/FM/iPod stereo driving Rockford Fosgate marine speakers with subwoofer and Rockford Fosgate amplifier, plus a 43" Samsung Smart TV in the cabin and a 32" flatscreen TV in the cockpit. Anglers enjoy Taco outriggers, four Mate Series rod holders and four Tulip rod holders in the outboard bucket. On deck, a Sureshade electric sunshade with Sunbrella fabric, a custom Isinglass canvas enclosure, Cool Deck flooring, a hi/lo cockpit table, a cockpit Kenyon grill, a wet bar and a cockpit refrigerator with icemaker create a refined open air salon. The actuating folding swim platform with built in ladder and a fold down rear bench seat add versatile utility. Below, the master stateroom presents a queen size berth with custom fitted bedding, while the guest stateroom offers a double berth, and the cabin dining area converts to an additional berth around a Kenyon two burner

cooktop for easy onboard living.

## Accommodations

---

Thoughtfully appointed for extended escapes, the master stateroom features a double berth and private entry to the head, while the guest stateroom provides a comfortable single berth. The cabin table lowers and fills to create a true V berth, with custom bedding to tailor every night's rest. The enlarged stall shower with seat is finished with a new custom clear acrylic door and wall, and a dedicated ventilation fan system keeps the space fresh and dry.

## Cabin

---

Warm materials and modern amenities create a refined sanctuary: Obecchi matte open grain wood cabinetry and table pair with teak and wenge flooring and LG Hausys countertops, all accented by new under counter and over table lighting. Air flows quietly through new custom open air conditioning vents beneath an Ultraleather headliner with soft panel inserts. Everyday convenience is assured by an Isotherm refrigerator/freezer, an Isotherm icemaker, a Kenyon cooktop and a GE microwave in a galley with sink, while dimmable cabin lighting sets the mood. A large private head with an enlarged shower and seat adjoins a generous master stateroom with hanging locker and private head entry, and the electrically actuated high/low cabin V berth table makes entertaining and conversion effortless.

## Cockpit

---

Designed to be the social heart of the yacht, the cockpit features Cool Deck flooring beneath a new styleline fiberglass arch with hardtop, skirts and six lights. An oversized bridge deck lounge gathers around a hi/low table, while

the helm seat offers electric adjustment and integrates a built in refrigerator and freezer. A fiberglass folding rear bench seat expands seating on demand, and access to the sea is effortless via a hydraulic actuating swim platform with built in swim ladder and a starboard side swing in dive door. Shade and refreshment are always at hand with a Sureshade sunshade in Sunbrella fabric, a wet bar with hot and cold water, a Kenyon grill and an Isotherm refrigerator with icemaker.

## Electronics

---

A helm built to command with confidence: dual 22" Garmin GPS/chartplotters mounted in a custom black facade are matched to an upgraded Garmin GMR Fantom 124 4' open array with Doppler radar, an upgraded Garmin XM Satellite weather system and an upgraded Garmin GSD24 sonar module. Vigilance is augmented by GOST NavTracker, a GOST security system, a GOST IP temperature sensor and a GOST smoke detector sensor, while ride quality is steadied by a Seakeeper 6 gyro stabilizer under warranty through 10/2026. Communications are crystal clear on an ICOM M400BB VHF radio system with remote mic and antenna. Entertainment is delivered by a Fusion MSRA 770 AM/FM/iPod stereo feeding Rockford Fosgate marine speakers with subwoofer and a Rockford Fosgate amplifier, and screens abound with a 43" Samsung Smart TV in the cabin and a 32" Smart TV in the cockpit. Emergency readiness is assured with an EPIRB Arc Satellite3.

## Electrical & mechanical

---

Engineered for reliability and ease, the yacht features a triple engine flush system and MarineAir air conditioning throughout supported by a custom back up AC pump. Ship's power comes from an 11 kW diesel Kohler generator with a separate 25 gallon fuel tank, distributed by Relion batteries and a digital

12 V control system. Precision handling is assured by Sidepower bow and stern thrusters, a Ritchie compass and Livorsi trim tabs. Daily operations are simplified with an electric head with macerator supplied by fresh water, a Kenyon electric stove top, fresh water washdown, navigation lights, a water heater, a Maxwell windlass and windshield wipers with washer.

## Deck

---

Every touchpoint on deck speaks to purposeful design: a 44 lb polished stainless steel Lewmar Bruce claw anchor works through a Maxwell windlass and a Glendinning CM 7 Cablemaster manages shore power leads. Practicality and safety are built in with scuppers, port and starboard transom storage compartments, deck and springline pull up cleats, cockpit coaming bolsters and an aluminum bow rail. The self draining anchor locker hides its cleat for a clean, snag free foredeck.

## Fishability

---

Tournament ready by design, the boat carries port and starboard Hooker Electric baitwells with lights and a Dometic cold machine dedicated to the aft fishbox, backed by a custom fishbox freezer system for true offshore capability. A raw water washdown pairs with an insulated fishbox to keep the cockpit tidy and the catch pristine. Spreads come alive on a GEM Taco outrigger system with 18' carbon fiber poles, complemented by custom powder coated aluminum arch rod holders, four Mate Series rod holders and four Tulip rod holders in the outboard bucket.

## Construction

---

Built on Intrepid's advanced composite craft, the structure integrates a 550

gallon aluminum fuel tank and urethane high gloss white painted bilges beneath bulkheads and a stringer grid of composite fiberglass. Guttered cockpit hatches and a self bailing cockpit add seakeeping security, protected by a heavy duty vinyl rub rail and framed by hullside windows with blinds. The laminate employs hybrid vinyl ester resin over PVC foam core with vacuum bagged, non woven multi directional and uni directional fibers, both infused and hand laid. Systems integrity is ensured with seacocks on all thru hulls below the waterline, marine grade copper tinned wiring and solid stainless steel hardware. Details matter: a stainless bow plate with anchor chute, a stainless steel steering wheel with power knob, bronze thru hulls below the waterline and stainless steel fittings above it. Capacities include a 25 gallon waste tank and 100 gallon food grade polyethylene water tanks. Daily life aboard is eased by a wraparound windshield, a dockside fresh water inlet, a hullside door that swings in, a hydraulic hullside platform with ladder, a large central storage compartment under the bridge deck and an overboard pump out for the holding tank. The finish is unmistakable: Intrepid Hi Flex White/White gel coat and non skid on deck and gunwales complete the package with confidence.
