OVERVIEW

Step aboard this 2012 Cruisers Yachts Cantius 48 and discover an artful union of refined comfort and assured performance. Powered by twin Volvo Penta IPS600 pod drives with intuitive joystick docking, the yacht is effortless to handle and has been maintained with meticulous care, reflecting very low hours. The cockpit hosts a built-in Kenyon electric grill ideal for alfresco meals, while an expansive lounge with a convertible table invites both relaxed sunning and intimate dining. A polished stainless windlass and a generous foredeck sun pad enhance the exterior leisure areas, and a walk-through windshield door provides safe, direct access to the bow. When the mood calls for open-air cruising, the electric retractable hardtop sunroof glides back to reveal a breezy, unobstructed sky.

Inside, bright panoramic salon windows flood the space with light, where a retractable upper-salon TV tucks away when not in use. The custom pedestal-style helm is appointed with dual Garmin multifunction displays and clearly labeled, ergonomic switchgear, placing navigation and essential systems within easy reach. Joystick docking further simplifies close-quarters maneuvering in tight marinas.

The well-equipped galley blends form and function with an electric cooktop, Cuisinart convection microwave, and a VitriFrigo refrigerator/freezer, complemented by a stainless sink, ample storage, and a dedicated galley TV for convenience underway. Accommodation comprises two private staterooms, each fitted with its own television; the primary suite boasts an en-suite head. The vessel offers two full heads with VacuFlush toilets and separate shower enclosures, ensuring comfort and privacy for guests. Zoned HVAC delivers personalized climate control across the upper salon, lower salon, and both cabins.

Beneath, the mechanical layout centers on the twin Volvo Penta IPS600

engines, offering the smooth, efficient operation of a pod-drive motor yacht; the pods were recently replaced to maintain peak performance. A Kohler generator provides dependable shipboard power whether underway or at anchor. Electrical systems include comprehensive AC/DC breaker panels for straightforward power management, onboard battery chargers to keep systems ready, and a premium audio system that fills the yacht with rich sound. Connectivity and communication are assured by KVH TracVision and a VHF marine radio.

Altogether, this Cantius 48 presents as a luxurious, well-appointed power yacht—an upscale coastal cruiser and ideal weekender that harmonizes sophistication with practical features, making it a standout choice for discerning boaters.

DETAILED DESCRIPTION

Engine notes

Propulsion is provided by IPS technology, specified as Volvo D6-435 KA, which ensures exceptionally smooth and efficient cruising while offering precise maneuverability and confident control in close quarters; this installation combines refined power delivery with modern pod-drive responsiveness to make handling intuitive whether cruising offshore or docking in tight marinas.
