DETAILED DESCRIPTION

Upgraded options

This yacht represents the pinnacle of contemporary design and opulence, featuring a host of enhanced options that promise an unmatched experience on the water. Central to its dependability is the Tiara Yachts' Transferable Limited Warranty, offering reassurance with 5 years of protection on the hull and deck, and 2 years on accessories. Connectivity is effortlessly maintained with Starlink, while the GOST System boosts security. For those who cherish autonomy, the yacht includes a watermaker, guaranteeing a constant supply of fresh water.

Effortless maneuverability is achieved with the Mercury JPO and its integrated bow thruster, while the Seakeeper SK6 Gyro ensures unwavering stability. The onboard inverter provides a reliable power source, and the head macerator system along with raw water washdowns in the aft cockpit and anchor locker enhance convenience. Maintenance is made easy with a generator oil changer, and anchoring is simplified with the chainless windlass, operated remotely from the helm.

The ElectraSea strainer and synthetic teak decking in the aft cockpit and swim platform, with a natural finish and white lines, enhance the yacht's visual charm. A refrigerated cooler box keeps drinks cool, and fishing aficionados will value the four gunwale rod holders and rocket launchers with tow rod holders. The high-gloss teak cockpit table and teak flooring in the staterooms radiate sophistication, complemented by a teak steering wheel.

Entertainment is plentiful with an icemaker, Garmin Phantom 54 Radar with a 4' open array, and an additional Garmin 16" GPSMAP. A cockpit TV, ACR LED remote spotlight, and FLIR M232 camera enrich the onboard experience, while Sirius XM Radio and Weather Ready features ensure you stay informed and

entertained. Lastly, the yacht's exterior is safeguarded and enhanced with one quart of hull paint, preserving its breathtaking appearance as if it were just launched.

Hull and deck

The hull and deck of this yacht are meticulously engineered using cutting-edge materials to guarantee both strength and high performance. The hull is infused with a painted exterior layer featuring a bootline accent, constructed with structural foam-cored sides and bottom. Reinforced with carbon fiber, advanced composite fabrics, and premium resin, this design provides outstanding durability and resilience. The deck mirrors this construction, with a gelcoat outer layer and foam-cored walking surfaces, all supported by advanced composite fabrics and premium resin.

A standout feature is the infused fiberglass structural grid system, complete with a molded finish and an integrated bilge water management system, enhancing the yacht's structural integrity and functionality. The two-ply resin-infused composite transom system further strengthens the vessel's robust build. For underwater fittings, bronze seacocks are used, while above-waterline thru-hulls are fitted with stainless clad Stalon fittings, ensuring reliability and longevity.

The yacht's deck and cockpit liner are crafted in a single piece, showcasing Tiara's custom diamond pattern non-skid for both safety and style. A high-density white PVC rubrail with a solid 316L stainless steel insert, molded rubrail corners, and a 316L stainless steel transom cap and quarter fenders add extra protection and visual appeal. The yacht is outfitted with eight 10-inch cleats, strategically positioned with two on the stern and six at the midship and bow, ensuring secure mooring. Lastly, the self-draining cockpit efficiently manages water, maintaining a dry and safe environment on board.

Hardtop

The hardtop of this yacht exemplifies exceptional design and practicality, constructed from molded fiberglass and incorporating an integrated visor for enhanced protection and elegance. The bespoke windshield system is a highlight, featuring a curved tempered windshield, tempered side glass, and a sturdy aluminum frame, ensuring both resilience and unobstructed visibility. For added convenience, the yacht includes two windshield wipers with washers, guaranteeing a clear view in any weather.

A folding navigation light mast is ingeniously crafted with integrated flag and burgee attachment points, enhancing the vessel's adaptability. The Webasto® electrically operated sunroof provides an open-air experience at the press of a button, elevating the yacht's luxurious ambiance. Multicolor LED dramatic lighting is installed throughout and beneath the waterline, integrated with Shadow-Caster® technology and managed via the Garmin display, allowing for a personalized atmosphere. Furthermore, multicolored LED lights above the helm aid in nighttime navigation.

The custom hardtop also incorporates a stainless steel Makefast® powered sunshade, offering one-touch operation for complete cockpit coverage with sophisticated white Sunsilks fabric. Rounding out the hardtop's impressive features is an electric dual trumpet horn, ensuring the yacht is both visible and audible on the water.

Fordeck

The foredeck of this yacht is crafted with a focus on both utility and elegance, achieving a perfect harmony of practicality and luxury. Central to its anchoring system is a 5/8" 8-plait rode, featuring an ultra flip swivel for effortless and dependable use. The 316L stainless steel through-stem anchor roller is paired with a 10" mooring cleat, chain binder, and aluminum backing plates, ensuring

strong and secure mooring capabilities.

Enhancing its visual charm, the foredeck is adorned with synthetic teak decking accents, which not only boost its aesthetic appeal but also provide durability and easy upkeep. For leisure, a recessed chaise lounge sunpad is seamlessly incorporated, equipped with handholds, drink holders, and a weather cover, ensuring that relaxation is always prioritized. This blend of premium materials and thoughtful design makes the foredeck a highlight of the yacht, delivering both elegance and functionality.

Transom

The transom of this yacht is crafted to boost both functionality and accessibility, making it a highlight for any boating aficionado. It features an integrated swim platform with extensions beyond the engines, offering generous space for aquatic activities and leisure. The dual Tiara transom entry doors provide easy access to and from the water, ensuring a smooth transition between the yacht and the sea.

For additional convenience, a telescopic boarding ladder is installed in the port platform extension, facilitating effortless boarding. Safety is emphasized with a 316L stainless steel grab rail, ensuring secure entry and exit from the water. The transom also includes a recessed shower with a pullout sprayer and a hot/cold mixing valve, providing the luxury of rinsing off after a swim.

The flush swim platform is designed to allow athwartship access, enhancing the overall functionality of the transom area. This well-considered combination of features ensures that the transom is not only practical but also elevates the overall enjoyment of the yacht experience.

Aft cockpit

The aft cockpit of this yacht exemplifies luxury and practicality, crafted to

elevate your onboard experience with an array of premium features. Central to its design is the power rotating lounge module, offering adaptable seating configurations for any occasion. Complementing this is a high-gloss teak leafing table, complete with a weather cover, creating an elegant setting for dining or relaxation. The buffet-style countertop, equipped with drink holders, ensures refreshments are always within reach.

Storage is seamlessly integrated into the design, with compartments that keep the cockpit neat and organized. For entertainment, the area is outfitted with two 6.5" JL Audio® coaxial speakers and an 8" subwoofer, delivering superior sound quality. An electric grill expands culinary options, while the port hull side terrace, featuring synthetic teak decking and a stored telescoping swimming ladder, provides additional leisure space.

The cockpit is further enhanced by four 6.5" JL Audio® coaxial speakers and a Fusion® remote control pad, ensuring your favorite music is always accessible. A hull side boarding door on the starboard side offers easy access, while an access hatch to the mechanical space under the cockpit, complete with 12V lighting, ensures straightforward maintenance.

Comfort is prioritized, with aft-facing port and starboard lounge seats featuring drink holders, USB charging ports, and weather covers. Insulated cooler boxes with drains are conveniently located under the port and starboard aft-facing seat bases, as well as under the centerline step to the salon. For fishing enthusiasts, the port and starboard insulated cockpit floor storage/fish wells with macerators are a welcome addition.

The aesthetic appeal is enhanced by synthetic teak decking on the gunnels, gunnel steps, and under aft cleats, while molded-in steps to deck walkways and the swim platform, complete with safety handrails, ensure easy and secure movement around the yacht. Above deck, a dockside water inlet and a fresh water washdown with a 25' hose provide added convenience, making the aft cockpit a perfect blend of style, comfort, and practicality.

Salon and helm area

The salon and helm area of this yacht seamlessly combine luxury, practicality, and state-of-the-art technology. The helm console, crafted from molded fiberglass, features an aft-tilting design with an instrumentation visor, creating a streamlined and efficient navigation space. It includes a surface for mounting electronics, push-button switches, a 13.5" steering wheel, and a folding stainless steel step. USB charging ports, drink holders, and a safety lanyard enhance the convenience and security of the helm.

Sliding side glass on both port and starboard sides provides excellent ventilation and views, while teak flooring adds a touch of sophistication. The aft bulkhead is fitted with a sliding door and a powered window to starboard, complete with Duette blinds for privacy and light control. Safety is bolstered by 316L stainless steel grab rails, and the Stidd® 500W helm seat offers electrically adjustable fore and aft movements for optimal comfort.

The double-wide companion seat slides forward to reveal additional lounge seating on the port side, offering flexibility in seating arrangements. The port side power-up panel includes a glove box storage compartment, dual USB charging ports, and drink holders for added convenience. The Fusion® Apollo multi-zone stereo system, powered by JL Audio® digital amplification, coaxial speakers, and a subwoofer, delivers an outstanding audio experience.

The galley is outfitted with solid surface countertops, a stainless steel undermount sink with a hot/cold water faucet, and a recessed two-burner induction cooktop. A 120V/12V dual-drawer refrigeration unit and a freezer drawer under the portside lounge provide ample storage for provisions. A microwave-convection oven, five storage drawers below the countertop, a removable waste receptacle, and a Tiara Yachts branded Yeti Tundra 45 cooler complete the galley amenities.

In the salon area, the portside lounge sofa accommodates four and features a

high-gloss teak, manual hi-lo table, berth conversion, and storage below. Duette blinds for the port and starboard salon windows offer privacy and light control. A 43" TV mounted on a hi-lo actuator in the starboard galley is concealed when not in use and includes a soundbar for enhanced entertainment. Overhead LED direct and indirect lighting creates a warm and inviting atmosphere, while the Dometic 28,000 BTU air conditioning system with reverse cycle heat ensures comfort in all weather conditions.

Atrium and staterooms

The atrium and staterooms of this yacht exemplify refined design and opulent comfort. The interior is beautifully adorned with architectural teak and Chilewich, creating a cozy and welcoming ambiance. Solid teak steps and flooring in the atrium add a touch of sophistication, while the full fiberglass hull, cabin, and deck liner with sound-dampening insulation ensure a peaceful and tranquil environment.

Climate control is expertly handled by two Dometic 10,000 BTU air conditioning systems with reverse cycle heat, ensuring comfort in both the staterooms and heads. The space is illuminated by 12V LED lighting, with 120V outlets conveniently located throughout. Hullside windows with blinds, opening ports, and privacy shades provide both natural light and seclusion.

The forward stateroom is a sanctuary of relaxation, featuring a queen pedestal berth with a pillowtop innerspring mattress, headboard, mattress pad, coverlet, pillow shams, accent pillows, and luxury linen sheets. Storage is plentiful, with a compartment beneath the forward berth, manually operated with gas springs, and a hanging locker with shelves.

The mid-cabin stateroom offers twin berths with innerspring mattresses, an upholstered headboard, coverlets, pillow shams, accent pillows, mattress pads, and luxury linen sheets. These berths can be combined to form an island queen berth, offering flexibility in sleeping arrangements. A cedar-backed

hanging locker adds a touch of elegance, while plush carpeted floors and risers enhance the comfort of both staterooms.

Additional features include LED reading lights, inductive chargers, USB ports, and LED HDTVs, ensuring every modern convenience is at your disposal. This blend of thoughtful design and luxurious amenities makes the atrium and staterooms a highlight of the yacht, offering an ideal retreat on the water.

Heads

The bathrooms on this yacht are crafted with a focus on both elegance and utility, seamlessly merging style with functionality. The en suite bathroom features a full-frame door, allowing direct access from the forward stateroom, ensuring both privacy and ease. Additionally, there is a mid-cabin/day bathroom with a full-frame door, accessible from the atrium, serving both guests and daytime needs.

Each bathroom is outfitted with fiberglass stall showers, complete with a sump pump, glass shower door, and a teak seat, offering a spa-like ambiance. The teak vanities are highlighted with solid surface materials and provide generous storage below, featuring a vessel sink and a single lever faucet for a contemporary feel. Mirrored upper cabinets enhance the elegance and practicality of the space.

The bathrooms are equipped with VacuFlush® toilets, renowned for their efficiency and dependability. Exhaust fans and air conditioning vents maintain a comfortable atmosphere, while opening ports allow for natural ventilation. Waste receptacles are strategically placed for easy disposal, ensuring cleanliness and order. This well-considered design ensures that the bathrooms are not only functional but also elevate the overall luxurious experience on board.

Instrumentation, safety and equipment

The instrumentation, safety, and equipment on this yacht are expertly crafted to provide a smooth and secure experience on the water. Central to the electrical system is the Tiara Custom 12V DC and 120V AC setup, complete with a Tiara Power-Up/System Monitoring Panel, offering extensive control and monitoring functions. The yacht is fitted with a 120/240V AC 50 Amp 50' dockside power cord featuring a Glendinning® Cablemaster power recoiler for effortless shore power management. Additionally, a cable TV inlet with a 65' dockside cord ensures entertainment is always at hand.

Powering the yacht is a Kohler® 11.0kW diesel generator with a sound shield, which includes a rotomolded HDPE fuel tank with an in-line vent filter and a digital level indicator for efficient fuel management. The yacht also features TV and AM/FM radio antennas, ensuring constant connectivity and entertainment. The 12V multiple battery bank system comprises four house batteries and one engine battery per engine, supported by an electrical bonding system and zinc sacrificial anodes for optimal performance and protection.

The Tiara Yachts integrated electronics package includes twin Garmin® 16" GPSMAP displays, a 600W transducer, a Garmin® VHF radio, and a Mercury® autopilot, offering cutting-edge navigation and communication capabilities. A Ritchie® SuperSport SS-2000 compass and Lenco® electric trim tabs with control pad, indicator lights, and auto-retract functionality further enhance the yacht's handling and performance.

Safety is a top priority, with three automatic/manual electric bilge pumps with indicators at the helm, strategically placed forward, midship, and aft. The yacht features an aluminum gasoline fuel tank with in-line vent filters, fuel shut-off valves, and a digital level indicator, as well as a fresh water system with a tank, 5 GPM pump, 11-gallon water heater, and digital level indicator. A waste holding tank with deck discharge, vent filter, and digital level indicator ensures

efficient waste management.

Fire safety is addressed with a Fireboy clean agent fire extinguisher system for the mechanical space and four handheld fire extinguishers. A smoke alarm and carbon monoxide detector in the interior cabin provide additional safety measures. The yacht is equipped with a 5kW Lewmar® Gen 2 24V bow thruster for enhanced maneuverability, and eight Tiara Yachts life vests are included for domestic boats.

Dedicated storage for dock lines and 10" fenders, along with six 5/8" x 30' black dock lines, ensures that mooring is straightforward and secure. The yacht is equipped with a USCG approved electronic flare, a USCG approved safety and medical kit, and USCG/international LED navigation lighting, all certified by NMMA using ABYC standards. International certification options are available, and engines and boat systems are shipped winterized, ensuring readiness for any adventure.
